

**WATER PERMIT NO. 6095-3**

Name of Applicant: Huron Colony

Address: RR 2 Box 185, Huron SD 57350

Phone: 605 352-5647

Amount of Water Claimed: 0.031 cfs (14 gallons per minute)

Total Acres: NA

Source of Water Supply: groundwater (5 wells)

Water to be used for: domestic and commercial use

County: Beadle

Type of Waste Disposal System:

Location: 13 miles north of Huron

PRIORITY

Date Received: 8-21-1998

Fee: \$15.00

Corrected Application Received:

Period of Annual Use: January 1- December 31

Remarks: Vested right - with claimed priority date of January 1, 1944

Diversion Point: NW ¼ SE ¼ Sec 30-T113N-  
R61W

Land to be Irrigated: NA

Depth of Well: 745 to 800 feet deep

Well Driller: Huron Drilling (3 of the wells)

Remarks:

Type of Map: topo

Prepared by: James S Hodgens, PE

Reviewed and the Number Assigned on: 8-21-1998

**SOUTH DAKOTA**  
**VESTED WATER RIGHT NO. 6095-3**

---

Date of Receipt of Claim August 21, 1998.

Date of Validation December 2, 1998.

The Water Management Board validated Vested Water Right Claim No. 6095-3 for Huron Colony, 40068 Huron Colony Lane, Huron SD 57350 with the following limitations, conditions and qualifications:

1. Vested Water Right No. 6095-3 appropriates 0.031 cubic feet of water per second (14 gallons per minute) from five existing wells (Dakota Formation) 745 feet to 800 feet deep located in the NW ¼ SE ¼ Section 30-T113N-R61W. Water Right No. 6096-3 appropriates 0.098 cfs from the same 5 wells for a total appropriation of 0.129 cfs (58 gpm).
2. The appropriated water is used for a swine confinement facility, other livestock and domestic uses and may not exceed the amount of water needed for beneficial use for the Colony.
3. The water is to be used during the following annual period: January 1 – December 31.
4. The priority date of the Vested Water Right is January 1, 1944.
5. The water use system has been constructed and water has been applied to beneficial use.
6. Water Rights obtained in compliance with the laws of the State of South Dakota must not be unlawfully impaired by this appropriation.

# STATE OF SOUTH DAKOTA

## VESTED RIGHT WATER LICENSE NO. 6095-3

---

(1) Huron Colony, 40068 Huron Colony Lane, Huron SD 57350 made Application No. 6095-3, for validation of a vested right claim to appropriate 0.031 cubic feet of water per second (cfs) from groundwater (five wells), Beadle County, South Dakota, for commercial, livestock and domestic purposes. Vested Water Right No. 6095-3 was validated December 2, 1998 with a priority date of January 1, 1944. Construction of the described water supply system and application of water to beneficial use has been completed and complies with applicable provisions of South Dakota State Law.

(2) It is certified that the vested right owner is entitled to divert 0.031 cubic feet of water per second for beneficial use. The location of the diversion points are NW ¼ SE ¼ Section 30-T113N-R61W.

Water Permit No. 6096-3 authorizes 0.098 cfs from the same 5 wells for a total appropriation of 0.129 cfs.

(3) Pursuant to Section 46-5-30.1 Huron Colony, 40068 Huron Colony Lane, Huron SD 57350 the holder and/or owner of Vested Water Right No. 6095-3 is issued a license to appropriate 0.031 cubic feet of water per second from groundwater (five wells) with a priority date of January 1, 1944 from the location specified in (2) of this license for commercial, livestock and domestic use purposes. This license is subject to any limitations, conditions or qualifications listed in Vested Water Right No. 6095-3 and subject to South Dakota State Law.

## REISSUED STATE OF SOUTH DAKOTA

### VESTED RIGHT WATER LICENSE NO. 6095-3

---

(1) Huron Colony, 40068 Huron Colony Lane, Huron SD 57350 was issued Vested Water Right No. 6095-3, January 19, 1999 for validation of a vested right claim to appropriate 0.031 cubic feet of water per second (cfs) from groundwater (five wells), Beadle County, South Dakota, for commercial, livestock and domestic purposes. Vested Water Right No. 6095-3 was validated December 2, 1998 with a priority date of January 1, 1944. Construction of the described water supply system and application of water to beneficial use has been completed and complies with applicable provisions of South Dakota State Law.

Water Permit No. 6096-3 authorizes 0.098 cfs from the same 5 wells for a total appropriation of 0.129 cfs.

An investigation conducted for licensing purposes found the wells under Nos. 6095-3 and 6096-3 were not in the location authorized by the permits. Pursuant to SDCL 46-5-13.1, the Chief Engineer makes a finding that the change in location of diversion points does not increase the potential for interference with existing water rights.

(2) It is certified that the vested right owner is entitled to divert 0.031 cubic feet of water per second for beneficial use. The location of the diversion points are as follows:

- 1) 2,070 feet N and 1,675 feet W (NW  $\frac{1}{4}$  SE  $\frac{1}{4}$ );
- 2) 2,030 feet N and 1,900 feet W (NW  $\frac{1}{4}$  SE  $\frac{1}{4}$ );
- 3) 1,450 feet N and 1,730 feet W (NW  $\frac{1}{4}$  SE  $\frac{1}{4}$ );
- 4) 1,120 feet N and 3,120 feet W (SE  $\frac{1}{4}$  SW  $\frac{1}{4}$ );
- 5) 200 feet N and 50 feet E (SW  $\frac{1}{4}$  SW  $\frac{1}{4}$  Section 29);  
all from the SE corner Section 30-T113N-R61W

(3) Pursuant to Section 46-5-30.1 Huron Colony, 40068 Huron Colony Lane, Huron SD 57350 the holder and/or owner of Vested Water Right No. 6095-3 is reissued a license to appropriate 0.031 cubic feet of water per second from groundwater (5 wells) with a priority date of January 1, 1944 from the locations specified in (2) of this license for commercial, livestock and domestic purposes. This license is subject to any limitations, conditions or qualifications listed in Vested Water Right No. 6095-3 and subject to South Dakota State Law.

Huron Colony  
% Alvin Waldner  
40068 Huron Colony Lane  
Huron, SD 57350

Dear Mr. Waldner:

Enclosed are Water License No. 6096-3 and Reissued Vested Right Water License No. 6095-3. These are the final water right documents completing your process of obtaining Water Rights. Enclosed is Receipt No. 417101 in the amount of \$50.00 which you paid for the investigation and issuance of Water License No. 6096-3.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water.

Sincerely,

Garland Erbele, Chief Engineer  
Water Rights Program  
(605) 773-3352

6095-3

REPORT ON WATER PERMIT NOS. 6095-3 & 6096-3  
for Huron Colony  
September 24, 1998

Application No. 6095-3 is to validate a vested water right claim to appropriate 0.031 cfs (14 gpm) from five existing wells approximately 745 to 800 feet deep located in the NW 1/4 SE 1/4 of Section 30, T113N-R61W in Beadle County. This water use has a claimed priority date of January 1, 1944 for domestic use by the colony.

Application No. 6096-3 appropriates an additional 0.098 cfs (44 gpm) from the same five existing wells listed above. The two applications, combined, provide water for a swine confinement facility, other livestock and domestic use at the colony.

#### AQUIFER - DAKOTA FORMATION (DKOT)

The Dakota Formation consists of interbedded sand, sandstone and shale which attains a thickness of about 320 feet in the area of this application (Schoon, 1971). The aquifer underlies 1250 square miles and contains an estimated 18 million acre feet of recoverable water in storage in Beadle County (Hedges, 1982). The aquifer is areally extensive into Spink County to the north, Clark and Kingsbury Counties to the east, Sanborn County to the South and Hand and Jerauld Counties to the west. The aquifer is under confined or artesian conditions at this site. In fact, these wells are all free flowing at the land surface. The information filed with the application indicates wells ranging in depth from 745 feet to 800 feet and were capable of flowing 20 to 60 gpm when completed. Records are available for only three of the five existing wells. The wells appear to have been in accordance with "Slim Hole" standards which would not comply with present well construction standards for this use of water.

Historically, water levels for the Dakota Formation have declined and are continuing to decline across much of South Dakota. According to Schoon, water levels in the James River valley lowlands have declined from 300 to 350 feet and this includes Beadle County and the area of this application. The nearest Dakota Formation observation wells monitored by the Water Rights Program are HD-87A (located about 32 miles southwest of this application) and ED-85A (located about 65 miles northwest of this application). Water levels for these wells illustrate the recent water levels trends for the Dakota Formation. HD-87A shows about a one foot per year rate of decline and ED-85A shows no trend and if anything has come up a few feet. Hydrographs for these two wells are included in this report. In general, the water level trends indicate that the aquifer is capable of sustaining additional withdrawals (Water Rights, 1998).

#### REVIEW OF EXISTING WATER PERMITS/RIGHTS

There is an existing Water Right No. 5486-3 for Dakota Formation water issued to Lake Byron Bible Camp for 0.44 cfs and located about two miles southeast of these applications. Interference is not expected to be a concern. All these wells are existing and have been in use for many years with no apparent problems. The Dakota Formation is widely used as a source of domestic water in this area. Most of the wells completed into the Dakota Formation do free flow

at the land surface and although there will be some effect on the static water levels in the area from the individual wells, this should not adversely affect the supply of water from the aquifer. It may be necessary at some future date to place pumps into these wells.

## CONCLUSIONS

1. Water is available from the Dakota Formation.
2. The aquifer is confined and under artesian conditions. The wells at this site are free flowing at the land surface. These wells must be controlled to the amount of water needed in order to prevent the waste of water.
3. The wells at this site do not appear to be constructed in accordance with SD Well Construction Standards for this water use. However, they are existing wells and have been in use for many years.
4. Interference is not expected to be a concern. There will be some drawdown created by allowing these wells to flow, however, this should not be significant or affect the water availability from the aquifer. It may become necessary to install pumps in the wells to maintain diversion rates.
5. There are two separate water permit applications for this site. Water Permit No. 6095-3 is a vested right claim which can be validated for 0.031 cfs. The water use estimate supplied with the permit application is reasonable. Water Permit No. 6096-3 is a new application for an additional 0.098 cfs. The total appropriation for these application is 0.129 cfs (58 gpm) from the existing five wells.

James A Goodman  
Natural Resources Engineer

**RECOMMENDATION OF CHIEF ENGINEER FOR VALIDATION OF VESTED  
WATER RIGHT APPLICATION NO. 6095-3, Huron Colony**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Environment and Natural Resources concerning Validation of Vested Water Right Application No. 6095-3, Huron Colony, c/o Alvin Waldner, RR 2 Box 185, Huron SD 57350.

The Chief Engineer is recommending VALIDATION of Application No. 6095-3 for 0.031 cfs (14 gpm) because 1) water has been appropriated as described for domestic uses at the colony with a priority date of January 1, 1944, 2) the use has been developed without unlawful impairment of existing rights, 3) the use is a beneficial use and 4) it is in the public interest.

See report on application for additional information.

THE CORRECT DATES, CONTACT  
THE NEWSPAPER RIGHT AWAY.

October 6, 1998

Huron Colony  
%Alvin Waldner  
RR 2, Box 185  
Huron, SD 57350

Dear Mr. Waldner:

Water Permit Application Nos. 6095-3 and 6096-3 for domestic and commercial use have been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Plainsman printed at Huron, SD (Ph # (605) 352-6401). For your information, a copy of the notice, the recommendations of the Chief Engineer and a report on the applications are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the applications.

Sincerely,

Eric Gronlund  
Natural Resources Engineer  
(605) 773-3352

enclosures

c: Jay Hodgens, Hodgens Engineering, 160 Dakota Avenue South, Huron, SD 57350

NOTE: If you plan to contest any part of the Chief Engineer's recommendations, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the applications.

October 6, 1998

The Plainsman  
P.O. Box 1278  
Huron, SD 57350-1278

ATTENTION: Legal Department

Enclosed is a Notice of Hearing on Application Nos. 6095-3 and 6096-3 to Appropriate Water to be published twice. Please publish the first notice on October 15, 1998, with the second publication 7 days later.

The applicant must verify to you that the notice is to be published, before you make the first publication. **Please BILL the APPLICANT for the cost of publication.** The APPLICANT is Huron Colony, %Alvin Waldner, RR 2, Box 185, Huron, SD 57350 (Ph # (605) 352-5647).

**Please send the Water Rights Program the first publication immediately.** The publication is checked for accuracy so any corrections can be made in the second publication. You may use the form below or fax a copy of the first publication. Any fax should be sent to the attention of Karen Schlaak at (605) 773-4068. Publication errors can invalidate the public notice.

After the second publication, **please send us an affidavit or use the enclosed Proof of Publication form.** The applicant pays the cost of publication, but the Water Rights Program records require an affidavit or Proof of Publication. Delays in receiving the affidavit can be costly to the applicant.

Sincerely,

Eric Gronlund  
Natural Resources Engineer  
605 773-3352

NOTICE OF HEARING To Validate Vested Water Right Application No. 6095-3  
and Application No. 6096-3 to Appropriate Water

Notice is given that Huron Colony, c/o Alvin Waldner, RR 2 Box 185, Huron SD 57350 has filed the following applications:

Application No. 6095-3 is to validate a vested water right claim to appropriate 0.031 cubic feet of water per second (cfs) [14 gallons per minute] from five existing wells (Dakota Formation) 745 feet to 800 feet deep located in the NW ¼ SE ¼ Section 30-T113N-R61W. This water use has a claimed priority date of January 1, 1944.

Application No. 6096-3 appropriates an additional 0.098 cfs (44 gallons per minute) from the five existing wells listed above. The two applications, combined, provide water use for a swine confinement facility, other livestock and domestic uses at the colony.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends VALIDATION of Vested Water Right Application No. 6095-3 for 14 gpm because 1) water has been appropriated as described for domestic use at the colony with a claimed priority date of January 1, 1944, 2) the use has been developed without unlawful impairment of existing rights, 3) it is a beneficial use of water, and 4) it is in the public interest.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 6096-3 for 44 gpm because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest.

Any person interested in opposing or supporting these applications must file a written petition with BOTH the applicant and Chief Engineer. The applicant must also file a petition if opposed to the Chief Engineer's recommendations. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by November 20, 1998. The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

The Water Management Board will consider these applications at 10:00 a.m., December 2, 1998, Floyd Matthew Training Center, Joe Foss Building, 523 East Capitol, Pierre, SD. The Chief Engineer's recommendations are not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer, or 4) deny these applications based on the facts presented at the public hearing. The December 2, 1998, hearing date will be automatically delayed for at least 20 days upon written request to the Chief Engineer from the applicant or any interested person opposing the applications. The request for an automatic delay must be filed by November 20, 1998.

Any hearing will be an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer and may present evidence or cross-examine witnesses according to SDCL 1-26. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. Contact Eric Gronlund by November 20, 1998, at the above Water Rights Program address to request copies of information pertaining to these applications, to assure access to the hearing by the handicapped or to obtain an interpreter for the hearing impaired.

These applications are made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-16; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15, 46-2A-20, 46-2A-21; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30.2, 46-5-30.4, 46-5-31; 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14, 46-6-26; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15. Nettie H. Myers, Secretary, Department of Environment and Natural Resources.

(Date Signed)

F.P. 10-15-98 L.P. 10-22-98  
**NOTICE OF HEARING**  
**To Validate Vested Water Right**  
**Application No. 6095-3 and**  
**Application No. 6096-3 to**  
**Appropriate Water**

Notice is given that Huron Colony, c/o Alvin Waldner, RR 2 Box 185, Huron SD 57350 has filed the following applications: Application No. 6095-3 is to validate a vested water right claim to appropriate 0.031 cubic feet of water per second (cfs) [14 gallons per minute] from five existing wells (Dakota Formation) 745 feet to 800 feet deep located in the NW¼ SE¼ Section 30-T113N-R61W. This water use has a claimed priority date of January 1, 1944.

Application No. 6096-3 appropriates an additional 0.098 cfs (44 gallons per minute) from the five existing wells listed above. The two applications, combined, provide water use for a swine confinement facility, other livestock and domestic uses at the colony.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends VALIDATION of Vested Water Right Application No. 6095-3 for 14 gpm because 1) water has been appropriated as described for domestic use at the colony with a claimed priority date of January 1, 1944, 2) the use has been developed without unlawful impairment of existing rights, 3) it is a beneficial use of water, and 4) it is in the public interest.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 6096-3 for 44 gpm because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest.

Any person interested in opposing or supporting these applications must file a written petition with BOTH the applicant and Chief Engineer. The applicant must also file a petition if opposed to the Chief Engineer's recommendations. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by November 20, 1998. The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

The Water Management Board will consider these applications at 10:00 a.m., December 2, 1998, Floyd Matthew Training Center, Joe Foss Building, 523 East Capitol, Pierre, SD. The Chief Engineer's recommendations are not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer, or 4) deny these applications based on the facts presented at the public hearing. The December 2, 1998, hearing date will be automatically delayed for at least 20 days upon written request to the Chief Engineer from the applicant or any interested person opposing the applications. The request for an automatic delay must be filed by November 20, 1998.

Any hearing will be an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer and may present evidence or cross-examine witnesses according to SDCL 1-26. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. Contact Eric Gronlund by November 20, 1998, at the above Water Rights Program address to request copies of information pertaining to these applications, to assure access to the hearing by the handicapped or to obtain an interpreter for the hearing impaired.

These applications are made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-16; 46-2-3, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15, 46-2A-20, 46-2A-21; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30, 46-5-30.4, 46-5-31; 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14, 46-6-26; and Board Rule ARSD 74:02:01:01 thru 74:02:01:15.

Nettie H Myers, Secretary  
Department of Environment  
and Natural Resources  
No. 415 (ad)

**Permit No. 6095-3 & 6096-3**

**James River** - Water District

**Report of Examination of Works and/or Application of Water to  
Beneficial Use**

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, **June 26, 2001**, made a thorough examination of the water use system constructed by **Huron Colony** of **40068 Huron Colony Lane, Huron SD 57350** holder of Permit No. **6095-3 and 6096-3**, bearing the priority of **January 1, 1944 and August 21, 1998, respectively**, authorizing the diversion of **0.031 and 0.098** cu. ft. per second, respectively, of the waters of **ground water (Dakota Formation)** for **commercial and domestic** purposes, in **Beadle** County.

Inspection contact & relationship to permit holder, if applicable: **Larry Waldner**

**A. Works used to divert the water:**

**Well Information:**

- 1) Well Drilling Firm: **Huron Drilling**
- 2) No. of Wells **5**
- 3) Depth(s) **≈745 to 800** feet
- 4) Well log is available **Y (for 3 wells)**
- 5) Comment: **no logs for 2 wells**

**Casing\Screen:**

- 1) Diameter **3 in to 1¼** inches
- 2) Length **≈745 to 800** feet
- 3) Type **Plastic, Copper**

**B. Works used to transport\apply water to beneficial use:**

All of the wells are flowing wells with booster pumps used to move water around the colony.  
The wells are used as follows:

- **Two northern-most wells in NW¼SE¼ supply the laundry, shop and homes**
- **Southern well in NW¼SE¼ supplies hog barn and one home**
- **Well in SE¼SW¼ supplies hog barn**
- **Well in SW¼SW¼ supplies turkey barns**

**C. Compliance with Permit Requirements:**

- 1) Permit qualifications being abided by **Y**
- 2) Exceptions to compliance are: **none**

The system is in **good** condition with the point(s) of diversion located as follows: **5 wells: 2,070 feet N and 1,675 feet W (NW¼SE¼); 2,030 feet N and 1,900 feet W (NW¼SE¼); 1,450 feet N and 1,730 feet W (NW¼SE¼); 1,120 feet N and 3,120 feet W (SE¼SW¼\*); 200 feet N and 50 feet E (SW¼SW¼ section 29\*); all from the SE corner section 30-T113N-R61W.** The works are capable of diverting and conveying to the place of use **0.129** cu. ft. per second of water which is to be used for **commercial and domestic purposes**. Water has been put to beneficial use to the maximum extent and the license should be issued for **0.129** cfs.

## Report of Examination of Works

Permit No. 6095-3 and 6096-3

Comments or other permit(s) associated with the project: **none** | All structures, wells and lands on map Y

**\*The wells located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$  section 30 and SW $\frac{1}{4}$ SW $\frac{1}{4}$  section 29 are both outside of the permitted area in the NW $\frac{1}{4}$ SE $\frac{1}{4}$  section 30-T113N-R61W. See the attached file documentation dated August 8, 2001 to correct the location of the wells. Vested Right Water License No. 6095-3 should be reissued to include the correct location of the diversion points.**

Ron Duvall  
Natural Resources Engineer  
DENR, Water Rights Program

Date report completed: August 8, 2001

## Approval of Diversion Point Location Change

**NAME:** Huron Colony

**ADDRESS:** 40068 Huron Colony Lane, Huron SD 57350

**DATE:** August 8, 2001      **COUNTY:** Beadle      **TELEPHONE:** 352-5647

### AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased:

- **Developed water source same as permitted source and no additional water appropriated**

All of the wells are located in the Dakota Formation as authorized by Nos. 6095-3 and 6096-3 and the actual diversion rate is the same as authorized by Nos. 6095-3 and 6096-3.

- **If irrigation, no new land is irrigated**

Water is used for commercial and domestic purposes.

- **Review of Existing Diversions**

The nearest other permitted Dakota Formation well is at the Lake Byron Bible Camp located about two miles southeast of Nos. 6095-3 and 6096-3. All of these wells have been in existence for a number of years with no reported interference between the wells.

### RECOMMENDED ACTION

Based on the above criteria, it is recommended that the two diversion points located outside of the permitted area be licensed as developed. The diversion points outside of the permitted area are located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$  section 30 and SW $\frac{1}{4}$ SW $\frac{1}{4}$  section 29; all in T113N-R61W. The other three wells are located within the permitted area in the NW $\frac{1}{4}$ SE $\frac{1}{4}$  section 30-T113N-R61W.

Ron Duvall, Natural Resources Engineer  
Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

This change in location of the two wells described above does not increase the potential for adverse effects to existing diversions.

6096-3

Huron Colony  
%Alvin Waldner  
40068 Huron Colony Lane  
Huron, SD 57350

Dear Mr. Waldner:

Enclosed are your Validated Vested Water Right and Water License No. 6095-3, and Water Permit No. 6096-3. As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

JOHN HATCH, Chief Engineer  
Water Rights Program  
(605) 773-3352
