Name of Applicant: **Rolland Colony**

Address: **48088 210th S, White SD 57276**

Phone: **605 693-4425**

Amount of Water Claimed: **0.08 cfs (35 gpm)**

Total Acres: **NA**

Source of Water Supply: **groundwater (one well)**

Water to be used for: **domestic**

County: **Brookings**

Type of Waste Disposal System:

Location: **7 miles southeast of White**

PRIORITY

Date Received: **12-1-1998**

Fee: **\$50.00**

Corrected Application Received:

Period of Annual Use: **January 1 – December 31**

Remarks: **Increases water appropriation authorized by Water Permit No. 5547-3, from 0.10 cfs (45 gpm) to 0.18 cfs (80 gpm).**

Diversion Point: **NW ¼ SE ¼ Sec 9-T110N-R48W**

Land to be Irrigated:

Depth of Well: **97 feet**

Well Driller: **Pullman Well Drilling**

Remarks:

Type of Map: **aerial**

Prepared by: **Mark Rath**

Reviewed and the Number Assigned on: **12-1-1998**

By: **Karen Schlaak**

Notice of Hearing - date to intervene: _____

**SOUTH DAKOTA
WATER PERMIT NO. 6113-3**

Date of first receipt of application December 1, 1998.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 6113-3 to Rolland Colony, c/o Darrell Wipf, 48088 210th St, White SD 57276 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6113-3 appropriates 0.08 cubic feet of water per second (cfs) [35 gallons per minute (gpm)] by increasing the diversion rate authorized by Water Permit No. 5547-3. Water Permit No. 5547-3 appropriates 0.10 cfs (45 gpm) from one well (Rutland Aquifer) 97 feet deep located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9-T110N-R48W. This permit increases the water appropriation from the well, from 0.10 cfs to 0.18 cfs (80 gpm).
2. The water appropriated shall be used for the purpose of supplying water to the colony and may not exceed the amount of water needed for beneficial use for domestic purposes.
3. The water is to be used during the following described annual period: January 1 – December 31.
4. The date of approval of Permit No. 6113-3 is February 22, 1999.
5. The date from which applicant may claim right is December 1, 1998.
6. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATION

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

REPORT ON WATER PERMIT APPLICATION NO. 6113-3
for Rolland Colony
January 14, 1999

Application No. 6113-3 proposes to appropriate 0.08 cfs (35 gpm) by increasing the diversion authorized by Water Permit No. 5547-3. Water Permit No. 5547-3 appropriates 0.10 cfs (45 gpm) from one well approximately 97 feet deep located in the NW 1/4 SE 1/4 of Section 9, T110N-R48W in Brookings County. This permit increase the water appropriation from the well, from 0.10 cfs to 0.18 cfs (80 gpm). The water is for domestic use at the Colony.

AQUIFER - RUTLAND (RUT)

The Rutland is a buried outwash (sand and gravel) which is under confined or artesian conditions in this area. The aquifer underlies about 240 square miles and contains an estimated 400,000 acre feet of water in storage in Brookings County (Hamilton, 1989). Ground water movement is from northeast to southwest across the area of this application. The driller's log filed with the application indicates aquifer from 82 to 96 feet below land surface with a static water level of about 22 feet below land surface. The well was air developed at about 300 gpm. There is the possibility that the Rutland aquifer is hydraulically connected to the Big Sioux aquifer further to the west but in this area it is a distinct hydrologic unit.

The Water Rights Program does monitor an observation well (BG-80I) located about one and one-half miles southeast of this application and completed into the Rutland aquifer. Water levels for this well show good response to climatic conditions, that is, rising during wet years and gradually declining during dry years. The water level record indicates that the aquifer is capable of sustaining additional withdrawals (Water Rights, 1999). A hydrograph of this observation well is included with this report.

REVIEW OF EXISTING WATER PERMITS/RIGHTS

There is one existing Water Permit No. 5302-3 for 1.14 cfs for irrigation located about 1.5 miles north of this application. Because the aquifer is under artesian conditions drawdown due to pumping can be expected. This is not expected to adversely affect water availability from the aquifer.

CONCLUSIONS

1. Water is available from the Rutland aquifer.
2. The aquifer is under artesian conditions and drawdown will be created by pumping. This is not expected to be significant or cause adverse affects at the requested rate and the distance between diversions.
3. This is an existing well which has been constructed in accordance with SD Well Construction Standards. A change in the Well Construction Standards effective in 1992 allowed for the use of bentonite grout in public water supply wells. Originally, this well construction did not comply with the standards in effect at the time of the first application because of the use of

bentonite and cement as a grout. At that time only cement grout was allowed for a public water supply well.

4. This application was made as a result of an inspection by Mark Rath which indicated that the well was being pumped at a greater rate than authorized by Water Permit No. 5547-3.

Approval of this application will allow licensing of this system to reflect the amount of water actually put to use.

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6113-3, Rolland Colony**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6113-3, Rolland Colony, c/o Darrell Wipf, 48088 210th Street, White SD 57276.

The Chief Engineer is recommending APPROVAL of Application No. 6113-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualification:

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

See report on application for additional information.

Dear Mr. Wipf:

Water Permit Application No. 6113-3 for domestic use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Register printed at Brookings, SD (Ph # (605) 692-6271). For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

NOTICE OF APPLICATION NO. 6113-3 to Appropriate Water

Notice is given that Rolland Colony, c/o Darrell Wipf, 48088 210th St, White SD 57276 has filed an application for a water permit to appropriate 0.08 cubic feet of water per second (cfs) [35 gallons per minute (gpm)] by increasing the diversion rate authorized by Water Permit No. 5547-3. Water Permit No. 5547-3 appropriates 0.10 cfs (45 gpm) from one well (Rutland Aquifer) 97 feet deep located in the NW ¼ SE ¼ Section 9-T110N-R48W. This permit increases the water appropriation from the well, from 0.10 cfs to 0.18 cfs (80 gpm). The water is for domestic use at the Colony.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 6113-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the Chief Engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by February 22, 1999.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application. Nettie H. Myers, Secretary, Department of Environment and Natural Resources.

Dear Mr. Wipf:

The investigation of your water use system was conducted on August 12, 1998, by Mark D. Rath, staff engineer. The investigation included the extent of application of water to beneficial use, as developed under Water Permit No. 5547-3. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the investigation and issuance of the Water License. Upon receipt of the \$50.00 fee from you, we will begin processing your Water License.

Dear Mr. Wipf:

On October 2, 1998, you were sent forms for an *Application for a Permit to Appropriate Water* based on an investigation of Water Permit No. 5547-3 made by Mark Rath, engineer with this office. Water Permit No. 5547-3 was issued for a pump capacity of 45 gallons per minute (gpm). Mr. Rath's investigation found the pump capacity was 80 gpm. Enclosed is another partially completed application form for the increased pump capacity of 35 gpm.

Mr. Wipf, please take the time to sign, notarize and return the application. The filing fee for this application is \$50.00. You should be aware that you will also be responsible for payment of the public notice in a local newspaper.

If you have any questions, please contact me.

**Report Of Examination Of Works And/Or Application of Water To
Beneficial Use**

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

On, August 12, 1998, I made a thorough examination of the water use system constructed by Rolland Colony of 48088 210th St, White SD holder of Permit No. 6113-3, bearing the priority of December 1, 1998 authorizing the diversion of 0.08 cu. ft. per second and No. 5547-3, bearing the priority of April 25, 1991 authorizing the diversion of 0.10 cu. ft. per second of the waters of groundwater Rutland Aquifer for domestic use purposes, in Brookings County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

A submersible pump

The system is in the following condition yes. The point of diversion is located from the SE corner of Sec 9 T110N-R48W: 1900 ft West and 1810 feet North. The works are capable of diverting and conveying to the place of use 0.18 cu. ft. per second of water which is to be used for domestic use. Water has been put to beneficial use to the maximum extent and the license should be issued for 0.18 cfs.

Applicable permit qualifications have been complied with: yes

Exceptions to compliance are: none

WATER LICENSE NO. 6113-3

(1) Rolland Colony, 48088 210th St, White SD 57276 made Application No. 6113-3, December 1, 1998 for a water permit to divert an additional 0.08 cubic feet of water per second (cfs) from groundwater (one existing well), Brookings County, South Dakota for domestic purposes. Permit No. 6113-3, with a priority date of December 1, 1998 was approved February 22, 1999 and issued to the applicant for diversion of water with construction of the described water supply system completed and the application to beneficial use of said water completed.

Water Permit No. 5547-3, with a priority date of April 25, 1991, authorized 0.10 cfs from one well. Water Permit No. 6113-3 authorized an increase in the diversion rate from the well described in No. 5547-3. The applicable portions of No. 5547-3 are incorporated into this Water Right No. 6113-3.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 0.18 cubic feet of water per second for beneficial use. The location of the diversion point is 1,900 feet west and 1,810 feet north from the southeast corner of Section 9-T110N-R48W (NW ¼ SE ¼).

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use for domestic purposes at the Colony.

(4) Pursuant to South Dakota Water Law 46-5-30.1 Rolland Colony, 48088 210th St, White SD 57276 the holder and/or owner of Incorporated Water Right No. 6113-3 is issued a license to appropriate water, the right to use 0.18 cubic feet of water per second from groundwater (one well) with priority dates of April 25, 1991 (0.10 cfs) and December 1, 1998 (0.08 cfs) from the location specified in (2) of this license for domestic use. This license is subject to any limitations or qualifications listed in Incorporated Water Right No. 6113-3 and subject to South Dakota State Law.

Dear Mr. Wipf:

Enclosed are Water Permit and Water License No. 6113-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 415867 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 6113-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
