NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Mr. Peterson:

Enclosed is your Water License No. 6201D-3. On December 17, 2014, ownership changes were filed with Water Right No. 6201-3 resulting in No. 6201-3 being divided and reissued as follows:

- **Water Right No. 6201C-3: Danny Peterson** - authorizing diversion of 3.56 cfs from two wells to irrigate 264 acres in the E ½ Section 34, T114N, R63W, Spink County;
- **Water Right No. 6201D-3: Brad Peterson** - authorizing diversion of 1.78 cfs from one well to irrigate 132 acres in the NE ¼ Section 3, T113N, R63W, Beadle County.

For your information SDCL 46-6-27 requires that if the owner of an existing well constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. Included with your water license is Receipt No. 06997 in the amount of \$50 which you paid for the ownership change. If you have any questions, please contact our office.

Sincerely,

Jeanne Goodman, Chief Engineer
