

WATER PERMIT NO. 6252-3

Name of Applicant: Haverhals Feedlot, Inc.

Address: 29457 482nd Ave, Hudson SD 57034

Phone: 605 984-2352

Amount of Water Claimed: 0.166 cfs

Total Acres: NA

Source of Water Supply: groundwater (2 wells)

Water to be used for: commercial use

County: Lincoln

Type of Waste Disposal System:

Location: 12 NE Beresford

PRIORITY Date Received: 2-12-2001

Fee: \$150

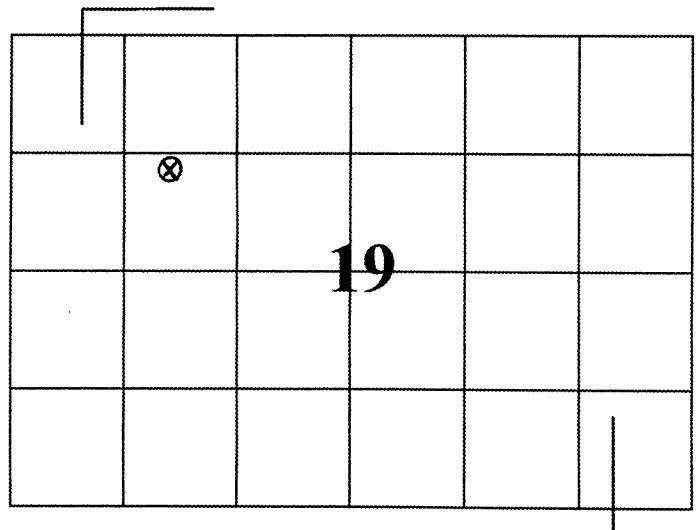

Corrected Application Received:

Period of Annual Use: January 1 - December

Remarks: supply water to existing feedlot

Diversion Point: SW 1/4 NW 1/4 Sec 19-T96N-R48W

Land to be Irrigated: NA

Depth of Well: 680 feet deep

Well Driller:

Remarks:

Type of Map: topo

Prepared by: Layne O Schultz, SD Geo Survey

Reviewed and the Number Assigned on: 2-12-2001

Notice of Hearing - date to intervene: _____

SOUTH DAKOTA
WATER PERMIT NO. 6252-3

Date of first receipt of application February 12, 2001.

The Water Management Board approved Water Permit Application No. 6252-3 on May 2, 2001 for Haverhals Feedlot, Inc., 29457 482 Ave, Hudson SD 57034 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6252-3 appropriates 0.166 cubic feet of water per second (75 gallons per minute) from three Dakota Formation wells (one existing and two new wells) 680 feet deep located in the SW ¼ NW ¼ Section 19-T96N-R48W.
2. The water appropriated shall be used for the purpose of supplying water for commercial use in an existing cattle feedlot and may not exceed the amount of water needed for beneficial use.
3. The water is to be used during the following described annual period: January 1 – December 31.
4. The date from which applicant may claim right is February 12, 2001.
5. One-fifth of the construction is to be completed on or before November 2, 2003.
6. All construction is to be completed on or before May 2, 2006.
7. Water is to be put to beneficial use on or before May 2, 2010.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. Permit No. 6252-3 may be subject to compliance with requirements of the Department's General Water Pollution Control Permit for concentrated animal feeding operations.
3. The wells authorized by Permit No. 6252-3 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.

(continued)

Water Permit No. 6252-3
Haverhals Feedlot, Inc.
Page 2

4. Permit No. 6252-3 is subject to compliance with the existing and applicable Water Management Board Rules:
- a. Chapter 74:54:01 Ground Water Quality Standards,
 - b. Chapter 74:54:02 Ground Water Discharge Permit,
 - c. Chapter 74:51:01 Surface Water Quality Standards,
 - d. Chapter 74:51:02 Uses Assigned to Lakes,
 - e. Chapter 74:51:03 Uses Assigned to Streams, and
 - f. Chapter 74:52:01 through 74:52:11 Surface Water Discharge Provisions.

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6252-3, Haverhals Feedlot, Inc.**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6252-3, Haverhals Feedlot, Inc., c/o John Haverhal, 29457 482nd Avenue, Hudson SD 57034.

The Chief Engineer is recommending APPROVAL of Application No. 6252-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. Permit No. 6252-3 maybe subject to compliance with requirements of the Department's General Water Pollution Control Permit for concentrated animal feeding operations.
3. The wells authorized by Permit No. 6252-3 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
4. Permit No. 6252-3 is subject to compliance with the existing and applicable Water Management Board Rules:
 - a) Chapter 74:54:01 Ground Water Quality Standards,
 - b) Chapter 74:54:02 Ground Water Discharge Permit,
 - c) Chapter 74:51:01 Surface Water Quality Standards,
 - d) Chapter 74:51:02 Uses Assigned to Lakes,
 - e) Chapter 74:51:03 Uses Assigned to Streams, and
 - f) Chapter 74:52:01 through 74:52:11 Surface Water Discharge Provisions.

See report on application for additional information.

Garland Erbele, Chief Engineer
March 12, 2001

REPORT ON WATER PERMIT APPLICATION NO. 6252-3
for Haverhals Feedlot, Inc.
February 13, 2001

Application No. 6252-3 proposes to appropriate 0.166 cfs (75 gpm) from three wells one existing and two new wells approximately 680 feet deep located in the SW 1/4 NW 1/4 of section 19, T96N R48W in Lincoln County. The water is for commercial use in an existing cattle feedlot.

AQUIFER - DAKOTA FORMATION (DKOT)

The Dakota Formation is a buried sand, sandstone and shale which is under confined or artesian conditions at this site. The aquifer underlies 484 square miles and contains an estimated 4.297 million acre feet of recoverable water in storage in Lincoln County (Hedges, 1982). The aquifer extends into Iowa to the east, into Union County to the south and into Turner County to the west. The study for Lincoln and Union counties report that the aquifer underlies 935 square miles and contains an estimated 19.4 million acre feet of water in storage (Niehus, 1994). The general direction of ground water movement is southerly (Niehus, 1994).

The Water Rights Program monitors 35 Dakota Formation observation wells in Lincoln County. The nearest observation wells are LN-81P and LN-82C which are located about seven miles northeast and eleven miles northwest of the site of this application. Water levels for these two wells show some response to climatic conditions, that is, seasonal fluctuation and some generally rising water levels during wet years indicated some recharge. In general, however, the hydrographs show a gradually declining trend in the water levels since the mid 1990's. The water level record indicates that the aquifer is capable of sustaining additional withdrawals (Water Rights, 2001). Hydrographs for these two observation wells are included with this report.

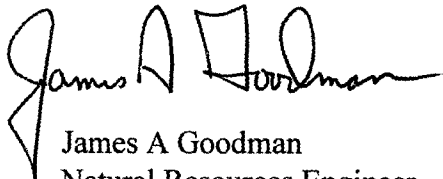

REVIEW OF EXISTING WATER PERMITS/RIGHTS

The nearest existing water permits/rights from this application are eight miles northeast for the Town of Fairview and about ten miles west for the City of Beresford. Both of these towns obtain water from the Dakota Formation. The Beresford wells are on standby and another water is used as a primary supply. Interference is not a concern. Drawdown created by pumping at this relatively small rate should not be significant.

CONCLUSIONS

1. Water is available from the Dakota Formation.
2. The aquifer is under confined or artesian conditions. Pumping at the rate requested by this application is relatively small and will not cause significant drawdown. Interference is not a concern.

3. The well(s) authorized by this application must be constructed in accordance with SD Well Construction Standards.
4. This permit allows the diversion of 75 gpm from three wells, two new wells and one old well. Any wells not used or abandoned must be plugged in accordance with SD Well Construction Standards.
5. This permit application is located within the future use area of South Lincoln Rural Water System. However, this application is located about 12.5 miles southeast of the rural water system well #4 which happens to be at the south end of their well field. Approval of this application will not affect the ability of South Lincoln to supply water to their system.
6. Plans and specifications for this facility have not been submitted to the department for review. The department is aware of problems at the facility and is attempting to get the facility into compliance.

James A Goodman
Natural Resources Engineer

THE CORRECT DATES, CONTACT
THE NEWSPAPER RIGHT AWAY.

March 12, 2001

John Haverhals
Haverhals Feedlot Inc.
29457 482 Ave.
Hudson, SD 57034

Dear Mr. Haverhals:

Water Permit Application No. 6252-3 for commercial use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Sioux Valley News printed at Canton, SD (Ph # 605 764-2000). For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

ATTENTION: Legal Public Notice

Enclosed is a Notice of Hearing on Application No. 6252-3 to Appropriate Water to be published twice. Please publish the first notice on March 22, 2001 with the second publication 7 days later.

The applicant must verify to you that the notice is to be published, before you make the first publication **Please BILL the APPLICANT for the cost of publication.** The APPLICANT is John Haverhals, Haverhals Feedlot Inc., 29457 482 Ave Hudson, SD 57034 (Ph # 605-984-2352).

Please send the Water Rights Program the first publication immediately. The publication is checked for accuracy so any corrections can be made in the second publication. You may use the form below or fax a copy of the first publication. Any fax should be sent to the attention of Karen Schlaak at (605) 773-4068. Publication errors can invalidate the public notice.

After the second publication, please send us an affidavit or use the enclosed Proof of Publication form. The applicant pays the cost of publication, but the Water Rights Program records require an affidavit or Proof of Publication. Delays in receiving the affidavit can be costly to the applicant.

Sincerely,

Eric Gronlund
Natural Resources Engineer

Instruction to Newspaper - Publish first Notice on March 22, 2001 with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF HEARING on Application No. 6252-3 to Appropriate Water

Notice is given that Haverhals Feedlot, Inc., 29457 482nd Ave, Hudson SD 57034 has filed an application for a water permit to appropriate 0.166 cubic feet of water per second (75 gallons per minute) from three Dakota Formation wells (one existing and two new wells) 680 feet deep located in the SW ¼ NW ¼ Section 19-T96N-R48W. The water is for commercial use in an existing cattle feedlot.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 6252-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest.

Any person interested in opposing or supporting this application must file a written petition with BOTH the applicant and Chief Engineer. The applicant must also file a petition if opposed to the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by April 20, 2001. The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

The Water Management Board will consider this application at The Matthew Training Center, Foss Building, 523 E. Capitol Ave., Pierre, SD at 10:00 A.M. May 2, 2001. The Chief Engineer's recommendation is not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer, or 4) deny this application based on the facts presented at the public hearing. The May 2, 2001 hearing date will be automatically delayed for at least 20 days upon written request to the Chief Engineer from the applicant or any interested person opposing the application. The request for an automatic delay must be filed by April 20, 2001.

Any hearing will be an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer and may present evidence or cross-examine witnesses according to SDCL 1-26. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. Contact Eric Gronlund by April 20, 2001, at the above Water Rights Program address to request copies of information pertaining to this application, to assure access to the hearing by the handicapped or to obtain an interpreter for the hearing impaired.

This application is made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-16; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15, 46-2A-20, 46-2A-21; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30.2, 46-5-30.4, 46-5-31; 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14, 46-6-26; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

John Haverhals
Haverhals Feedlot Inc.
29457 482 Ave
Hudson, SD 57034

Dear Mr. Haverhals:

Enclosed is Water Permit No. 6252-3 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, is enclosed. Please return this completed form after you have finished the system and have put the water to beneficial use. An investigation can then be scheduled so the water license may be issued, thus completing the acquisition of a water right.

An informational sheet *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Garland Erbele, Chief Engineer

I have completed the construction of the water use system and I have put the water to beneficial use to the maximum extent it is going to be used.

Water Permit No. 6252-3 states that the water use system is to be constructed by

- - 5-2-2006 and water is to be put to beneficial use by - - 5-2-2010
(date) (date)

The water use system was completed on - - 6-29-01
(date)

Applying the water to beneficial use was completed on 6-29-01
(date)

You may schedule an investigation so that the water license may be issued.
