

WATER PERMIT NO. 6271-3

Name of Applicant: Chet Eitemiller

Address: 39591 289th St, Wagner SD 57380 Phone: 605 384-5931

Amount of Water Claimed: 2.0 cfs Total Acres: 132

Source of Water Supply: groundwater (one well)

Water to be used for: irrigation County: Charles Mix

Type of Waste Disposal System:

Location: 1 mile northeast of Wagner

PRIORITY Date Received: 7-9-2001

Fee: \$250

Corrected Application Received: 7-20-2001

Period of Annual Use: April 1 – October 31

Remarks:

Diversion Point: center of SW ¼ Sec 26-
T96N-R63W

Land to be Irrigated: SW ¼ Sec 26-T96N-R63W

Depth of Well: 220 feet deep

Well Driller: : Grosz Drilling Co.

Remarks:

Type of Map: aerial

Notice of Hearing - date to intervene: _____

SOUTH DAKOTA
WATER PERMIT NO. 6271-3

Date of first receipt of application July 9, 2001.

Date of return to applicant for corrections, amendments or changes July 9, 2001.

Date of receipt of corrected application July 19, 2001.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 6271-3 to Chet Eitemiller, 39591 289th St, Wagner SD 57380 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6271-3 appropriates 1.89 cubic feet of water per second from one well (Choteau West Aquifer) 220 feet deep located in the center of SW ¼ Section 26 to irrigate 132 acres located in the SW ¼ Section 26; all in T96N-R63W.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: April 1 – October 31.
3. The date from which applicant may claim right is July 9, 2001.
4. The date of approval of Permit No. 6271-3 is September 17, 2001.
5. One-fifth of the construction is to be completed on or before March 17, 2003.
6. All construction is to be completed on or before September 17, 2006.
7. Water is to be put to beneficial use on or before September 17, 2010.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6271-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) from the producing formation to the surface pursuant to Section 74:02:04:28.

(continued)

Water Permit No. 6271-3

Chet Eitemiller

Page 2

3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.
4. Water Permit No. 6271-3 authorizes a maximum diversion rate of 1.89 cfs or 850 gpm and the volume of water diverted for use may not exceed 2 acre-feet per acre delivered on the land each year.

REPORT ON WATER PERMIT APPLICATION NO. 6271-3
for Chet Eitemiller
August 2, 2001

Application No. 6271-3 proposes to appropriate 2.0 cfs (900 gpm) from one well approximately 220 feet deep located in the center of the SW 1/4 of section 26 to irrigate 132 acres located in the SW 1/4 of section 26; all in T96N R63W in Charles Mix County. This diversion rate is in excess of one cfs for each 70 acres, however; pursuant to SDCL 46-5-6 this may be allowed if the method of irrigation, time constraints on diversion of water, or the type of soils so requires.

AQUIFER - CHOTEAU WEST (CH-W)

The Choteau West is a buried outwash (sand and gravel) and western derived stream deposits which is under confined or artesian conditions at this site (Kume, 1977). The Choteau West aquifer underlies 169,600 acres and contains an estimated 1.225 million acre feet of recoverable water in storage in Charles Mix County (Hedges, 1982). The aquifer extends into Douglas and Hutchinson Counties to the north and east and into Bon Homme County to the south and east. The Choteau West is hydraulically connected to the Niobrara aquifer and possibly the Codell sandstone aquifer in the subsurface in Charles Mix County.

The test hole log by Grosz Drilling, filed with the application, indicates sand and gravel from 145 feet to 225 feet below land surface. This test log fits reasonably with other information available for the Choteau West aquifer in this area.

The Water Rights Program monitors three observation wells completed into the Choteau West aquifer and within three miles of this application. These are observation wells CM-68F, CM-72C and CM-80D. Water levels (hydrographs) for these three observation wells are included with this report. It is obvious from looking at the water level record that the aquifer fluctuates during irrigation season, due to pumping of high capacity irrigation wells in the area, and that the aquifer does recharge. The water levels over the period of record, which extends back to about 1960 for one of the observation wells, indicates that more drawdown occurs during dry years (equates to more pumping because of the need for more water) and that the wet years impact water levels by increasing the amount of recharge available and decreasing the amount of pumping. The water level record indicates that the aquifer is capable of sustaining additional withdrawals (Water Rights, 2001).

REVIEW OF EXISTING WATER PERMITS/RIGHTS

There are two existing irrigation wells within a one mile radius of this application. These are Water Right Nos. 2323-3 and 5183-3. The observation well CM-68F is also located within the one mile radius. The water level record indicates the amount of fluctuation that can be expected during any year. Interference will occur, that is the water level in the observation well already fluctuates about 30 feet and adding another well in the area will only increase the drawdown. This increase is not expected to cause adverse affects to the

water supply from the aquifer but it may require the well owner to lower his pump in order to obtain the needed amount of water.

CONCLUSIONS

1. Water is available from the Coteau West aquifer.
2. The aquifer is under artesian conditions, and drawdown due to pumping can be expected. Interference will occur. Drawdown is occurring now and has not adversely affected the existing users. Adding another well will potentially increase the amount of drawdown but should not adversely affect the existing irrigation wells.
3. The well authorized by this application must be constructed in accordance with SD Well Construction Standards.
4. The Coteau West aquifer does recharge, however, the response is not immediate. Subtle changes both up and down are shown by the hydrographs, with water levels gradually declining during drought periods and gradually rising during wet climatic conditions. The aquifer has a tremendous amount of water in storage and is sensitive to pumping. Limiting issuance of water permits because of relatively small declines in water levels would curtail development of the aquifer. Besides, the water level record at present would indicate recharge has been sufficient to maintain the existing level of development.
5. The water from the Choteau aquifer can be of marginal quality for irrigation use. The applicant needs to be aware of the potential for soil water compatibility problems.
6. The applicant has not provided justification for requesting a rate of diversion greater than one cfs for 70 irrigated acres. This application should be for a rate of 1.89 cfs based upon the 132 irrigated acres.

James A Goodman
Natural Resources Engineer

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6271-3, Chet Eitemiller**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6271-3, Chet Eitemiller, 39591 289th Street, Wagner SD 57380.

The Chief Engineer is recommending APPROVAL of Application No. 6271-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6271-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) from the producing formation to the surface pursuant to Section 74:02:04:28.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.
4. Water Permit No. 6271-3 authorizes a maximum diversion rate of 1.89 cfs or 850 gpm and the volume of water diverted for use may not exceed 2 acre-feet per acre delivered on the land each year.

See report on application for additional information.

Garland Erbele, Chief Engineer
August 21, 2001

NOTE: An important consideration in developing a irrigation project is assessing the compatibility of the soils with the quality of the water to be used for irrigation. The staff report on this application indicates that the Choteau aquifer may be of marginal quality for irrigation use. Reduced crop yield and damage to the soil structure may occur without proper irrigation management. A soil/water analysis may prove valuable in successfully developing this irrigation project. I encourage you to complete a soil/water compatibility analysis and implement an irrigation management plan to maintain the suitability of the soil.

August 21, 2001

Chet Eitemiller
39591 289th St.
Wagner, SD 57380

Dear Mr. Eitemiller:

Water Permit Application No. 6271-3 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Wagner Post printed at Wagner, SD (Ph # 605-384-5616). You will need to contact the newspaper and authorize publication of this notice. For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. Upon receiving authorization, the publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has also been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Instruction to Newspaper - Publish first Notice on August 29, 2001 with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NO. 6271-3 to Appropriate Water

Notice is given that Chet Eitemiller, 39591 289th St, Wagner SD 57380 has filed an application for a water permit to appropriate 2.0 cubic feet of water per second (cfs) from one well (Choteau West Aquifer) 220 feet deep located in the center of SW ¼ Section 26 to irrigate 132 acres located in the SW ¼ Section 26; all in T96N-R63W. This diversion rate is in excess of one cfs for each 70 acres, however; pursuant to SDCL 46-5-6 this may be allowed if the method of irrigation, time constraints on diversion of water, or the type of soils so requires.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 6271-3 for 1.89 cfs because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the Chief Engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by September 17, 2001.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

Affidavit of Publication

STATE OF SOUTH DAKOTA)

) SS

COUNTY OF CHARLES MIX)

Marlene Myears, of said County and State being first duly sworn on her oath says: That The Wagner Post is a legal newspaper of general circulation, printed and published in Wagner, in said County and State, and has been such newspaper during the time herein mentioned; and that I, Marlene Myears, the undersigned, am business manager of said newspaper in charge of the advertising department thereof, and have personal knowledge of all the facts stated in this affidavit; and that the advertisement headed:

... Appropriate water

a printed copy of which is hereunto attached, was printed and published in the regular and entire issue of said newspaper and not in supplement, once each week for 2 successive weeks.

1st publication made on 29th day of Aug, 2001

2nd publication made on 5th day of Sept, 2001

3rd publication made on _____ day of _____, 2001

4th publication made on _____ day of _____, 2001

5th publication made on _____ day of _____, 2001

That said newspaper is a legal newspaper, and has a bonafide circulation of more than two hundred copies weekly, and has been published within the County of Charles Mix for more than fifty-two successive weeks prior to the first publication of said notice, and is printed in an office maintained in Wagner, South Dakota, the place of publication of said newspaper. Public Notice

NOTICE OF APPLICATION

NO. 6271-3 TO

APPROPRIATE WATER

Notice is given that Chet Eitemiller, 39591 289 St, Wagner SD 57380 has filed an application for a water permit to appropriate 2.0 cubic feet of water per second (cfs) from one well (Choteau West Aquifer) 220 feet deep located in the center of SW 1/4 Section 26 to irrigate 132 acres located in the SW 1/4 Section 26; all in T96N-R63W. This diversion rate is in excess of one cfs for each 70 acres, however; pursuant to SDCL 46-5-6 this may be allowed if the method of irrigation, time constraints on diversion of water, or the type of soils so requires.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 6271-3 for 1.89 cfs because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the Chief Engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by September 17, 2001.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

Chet Eitemiller
39591 289th St.
Wagner, SD 57380

Dear Mr. Eitemiller:

Enclosed is Water Permit No. 6271-3 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, is enclosed. Please return this completed form after you have finished the system and have put the water to beneficial use. An investigation can then be scheduled so the water license may be issued, thus completing the acquisition of a water right.

An informational sheet *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Garland Erbele, Chief Engineer

Conversation File Documentation

NAME OF PERSON OR FILE: Water Permit No. 6271-3, Chet Eitemiller

ADDRESS: COUNTY: Charles Mix

DATE: 05/20/2002 TELEPHONE: 384-5931

RE: location of the well.

COMMENTS:

Mr. Eitemiller left a voice mail message for me regarding developing the well in the corner of the quarter section. Currently, the water permit authorizing the well in the approximate center of the SW ¼. I returned Mr. Eitemiller's call and left a message on his answering machine that I believe he can drill the well as long as he stays within the SW ¼ and that during licensing can administratively correct the location of the diversion point.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Permit No. 6271-3
Missouri River - Water District

Report of Examination of Works and/or Application of Water to Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, July 12, 2006, made a thorough examination of the water use system constructed by Chet Eitemiller of 28746 395th Ave, Armour SD 57313 holder of Permit No. 6271-3, bearing the priority of July 9, 2001 authorizing the diversion of 1.89 cu. ft. per second of the waters of ground water (Choteau West aquifer) for irrigation purposes, in Charles Mix County.

Inspection contact & relationship to permit holder, if applicable: **Chuck Eitemiller**

A. Works used to divert the water:

Well Information:

- 1) Well Drilling Firm: Sargent Irrigation Co.
- 2) No. of Wells 1
- 3) Depth(s) 220 feet
- 4) Well log is available Y

Casing:

- 1) Diameter 16 inches
- 2) Length 140 feet
- 3) Type Plastic

Screen:

- 1) Type PVC
- 2) Length 80 feet
- 3) Static water level 34 feet

Pump:

- 1) Make Sargent
- 2) Model NE02A114

Motor:

- 1) Make Allis Chalmers, 6 cyl. diesel
- 2) Serial No. 2D-84597
- 3) Model No. 2800MK 1

B. Works used to transport water to place of use:

- 1) Type PVC
- 2) Size 8 inches
- 3) Length 1,700 feet

C. Works used to apply water to beneficial use:

Center pivot:

- 1) Make Valley electric
- 2) Number of towers 7
- 3) End gun Y
- 4) Low pressure
- 5) Capacity 800 GPM

Chemigation Equipment:

- 1) Does chemigate Y
- 2) Main line check valve Y
- 3) Inspection port/air relief Y
- 4) Low pressure drain Y

Report of Examination of Works

Permit No. 6271-3

- 5) Discharge is 20' from source Y with use of hose
- 6) Interlock type electrical
- 7) Injection pump type piston
- 8) Injection check valve Y
- 9) Injection line check valve or positive displacement pump Y
- 10) All chemigation equipment appears to be installed in the proper position and complies with chemigation laws and rules Y

D. Compliance with Permit Requirements:

- 1) Permit qualifications being abided by Y
- 2) Irrigation Questionnaires checked to determine if permit owner started irrigation by the end of construction period Completed within construction period
- 3) Exceptions to compliance are: none

The system is in good condition with the point of diversion located as follows: Well: 80 feet N and 130 feet E from the SW corner of section 26-T96N-R63W (Latitude 43.09633, Longitude -98.26775 -- SW $\frac{1}{4}$ SW $\frac{1}{4}$). The works are capable of diverting and conveying to the place of use 1.78 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows: all in section 26-T96N-R63W

NE $\frac{1}{4}$ SW $\frac{1}{4}$	33 acres
NW $\frac{1}{4}$ SW $\frac{1}{4}$	33 acres

SW $\frac{1}{4}$ SW $\frac{1}{4}$	33 acres
SE $\frac{1}{4}$ SW $\frac{1}{4}$	33 acres

comprising a total of 132 acres of land and the license should be issued for 1.78 cfs.

All structures, wells and lands on map Y

Comments or other permit(s) associated with the project: none

Chet Eitemiller
28746 395th Ave
Armour SD 57313

Dear Mr. Eitemiller:

Enclosed is your Water License No. 6271-3. This is the final water right document completing your process of obtaining a Water Right. Also included is a map prepared by the staff engineer who conducted the field investigation. You may keep these for your records.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 6271-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbe, Chief Engineer
Water Rights Program

**STATE OF SOUTH DAKOTA
WATER LICENSE NO. 6271-3**

(1) Chet Eitemiller, 28746 395th Ave, Armour SD 57313 made Application No. 6271-3, July 9, 2001 for a water permit to divert 1.89 cubic feet of water per second from ground water (one well – Choteau West Aquifer), Charles Mix County, South Dakota for irrigation purposes. Permit No. 6271-3, with a priority date of July 9, 2001 was approved September 17, 2001 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before September 17, 2006 and for the application to beneficial use of said water on or before September 17, 2010.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.78 cubic feet of water per second for beneficial use. The location of the diversion point is 80 feet N and 130 feet E of the SW corner of Section 26, T96N, R63W (SW ¼ SW ¼).

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 26, T96N, R63W	NE ¼ SW ¼	33 acres	SW ¼ SW ¼	33 acres
	NW ¼ SW ¼	33 acres	SE ¼ SW ¼	33 acres
Total of 132 acres				

(4) Pursuant to South Dakota Water Law 46-5-30.1 Chet Eitemiller, 28746 395th Ave, Armour SD 57313 the holder and/or owner of Water Right No. 6271-3 is issued a license to appropriate water, the right to use 1.78 cubic feet of water per second from ground water (one well – Choteau West Aquifer) with a priority date of July 9, 2001 from the location specified in (2) of this license. The water is to be conducted to and upon lands specified in (3) of this license for the purpose of irrigation.

This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Right No. 6271-3 and subject to the following qualifications:

- The well approved under this Water Right will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
- The well authorized by Water Right No. 6271-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28 (*well was constructed and meets standards*).
- This Water Right is approved subject to the irrigation water use questionnaire being submitted each year.

NOTICE OF TRANSFER OF OWNERSHIP

To: Chief Engineer
Water Rights Program, DENR
523 E. Capitol
Pierre, SD 57501-3181

Water Right/Permit No. 6271-3

Date: 1-18-07

I/We request that Water Right/Permit No. 6271-3 formerly owned by:

Wet Eitemiller

be transferred to:

New Owner Name:

Sandra Eitemiller

Address:

28774 395th Ave

City, State, Zip

Armour, SD 57313

Telephone No. 605-384-3120

Title to the following described land(s)/property has been transferred as described above:

SW $\frac{1}{4}$ - Sec 26 - T96N-R63W - 132 Acres

☒ I understand that the validity of Water Right/Permit No. 6271-3 has not been determined by this transfer action. If I have any questions on validity, I understand that only the Water Management Board has the authority to determine if a water right/permit is valid (see note below.)

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Two Dollars and Fifty Cents (\$2.50) is included to cover the filing fee as required by SDCL 46-2-13.

I, Sandra Eitemiller, the new owner, certify that the above information is true and correct.

Sandra Eitemiller
(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

NOTICE

TO: CHARLES EITEMILLER, 28774 395TH AVE, ARMOUR, SD 57313
FROM: Ron Duvall, Natural Resources Engineer
for Jeanne Goodman, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 2017 Irrigation Questionnaires

Our records indicate your 2017 Irrigation Questionnaires have not been submitted. The request for the Questionnaires was dated October 20, 2017. The Water Management Board has directed that owners of water permits who have not submitted the 2017 Irrigation Questionnaires be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine if Permit No(s) 2216-3 & 2217-3 should be amended to require the Questionnaire to be submitted each year and to determine action to be taken for violation of Water Permit No(s) 5183-3 & 6271-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at **Wednesday, March 7, 2018 at 10:00 am (Central Time)** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 5183-3 & 6271-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Amend Permit No(s) 2216-3 & 2217-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
3. Postpone any action or take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaires are received in this office before the **March 7, 2018** hearing you will no longer be in violation of your permit and your name will be removed from the Board agenda. Enclosed are additional questionnaires for your use. If you have questions or need assistance, please contact Genny McMath at (605) 773-3352 or email at genny.mcmath@state.sd.us. If you prefer, you can complete the questionnaire online at the following link: <http://denr.sd.gov/iq.aspx>

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.
