Peterson Farms
c/o Lenny Peterson
19111 Maple Ave
Hitchcock SD 57348

Dear Mr. Peterson:

Enclosed are Water Permit Nos. 6334A-3 and 6334B-3 authorizing construction of your water diversion systems and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Water Permit No. 6334-3 has been divided and reissued based on action by the Chief Engineer on behalf of the Water Management Board transferred portions of the acreage to be irrigated and point of diversion to other lands.

Form 10s, *Notice of Completion of Works and Application of Water to Beneficial Use*, are enclosed. Please return these completed forms after you have finished the systems and have put the water to beneficial use. An investigation can then be scheduled so the water licenses may be issued, thus completing the acquisition of a water right.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program
(605) 773-3352

enclosures

SOUTH DAKOTA
WATER PERMIT NO. 6334B-3 FOR IRRIGATION

Date of first receipt of application June 21, 2002.

The Water Management Board approved Water Permit No. 6334-3 on December 4, 2002 for Peterson Farms, 19111 Maple Avenue, Hitchcock SD 57348 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6334-3 appropriates 3.82 cubic feet of water per second (cfs) from two wells (Tulare: Western Spink Aquifer) approximately 100 feet deep located in the centers of the NE ¼ and NW ¼ Section 34 to irrigate 267.4 acres located in the N ½ Section 34; all in T115N-R64W.

Water Permit No. 6334-3 is being divided and reissued based on action by the Chief Engineer on behalf of the Water Management Board which transferred portions of the acreage to be irrigated and point of diversion to other lands.

Water Permit No. 6334A-3 authorizes 1.91 cfs from one well (Tulare:Western Spink Aquifer) located in the center of the NW ¼ Section 2 to irrigate 133.7 acres located in the NW ¼ Section 2; all in T113N-R63W.

Water Permit No. 6334B-3 authorizes 1.91 cfs from one well (Tulare:Western Spink Aquifer) located in the center of the NE ¼ Section 34 to irrigate 133.7 acres located in the NE ¼ Section 34; all in T115N-R64W.

2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: April 1 – November 30.
3. The date from which applicant may claim right is June 21, 2002.
4. One-fifth of the construction is to be completed on or before June 4, 2005.
5. All construction is to be completed on or before December 4, 2007.
6. Water is to be put to beneficial use on or before December 4, 2011.
7. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

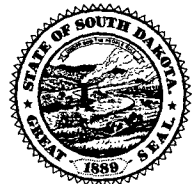

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6334B-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

WATER MANAGEMENT BOARD

By: Garland Erbele
Garland Erbele, Chief Engineer
Water Rights Program
Department of Environment and Natural Resources

JUN 13 2003

date

Water Permit No. 6334-3 is being divided and reissued based on action by the Chief Engineer on behalf of the Water Management Board which transferred portions of the acreage to be irrigated and point of diversion to other lands.

Water Permit No. 6334A-3 authorizes 1.91 cfs from one well (Tulare:Western Spink Aquifer) located in the center of the NW ¼ Section 2 to irrigate 133.7 acres located in the NW ¼ Section 2; all in T113N-R63W.

Water Permit No. 6334B-3 authorizes 1.91 cfs from one well (Tulare:Western Spink Aquifer) located in the center of the NE ¼ Section 34 to irrigate 133.7 acres located in the NE ¼ Section 34; all in T115N-R64W.

Permit No. 6334B-3
James River - Water District

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, September 12, 2007, made a thorough examination of the water use system constructed by Peterson Farms care of Lenny Peterson, 19111 Maple Avenue, Hitchcock SD 57348 holder of Permit No. 6334B-3, bearing the priority of June 21, 2002 authorizing the total diversion of as reissued 1.91 cu. ft. per second from the Tulare:Western Spink Aquifer for irrigation purposes, in Spink County.

** appears to be an error when issuing No. 6334A-3. The date to complete construction and to place water to beneficial use should have been the dates established by Permit No. 6334-3.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

One well is in place with a submersible pump system that Lenny Peterson indicates is capable of producing 1.78 cfs (800 gpm) which is the operating capacity of the pivot.

B. Works used to transport water to place of use:

Well head is located approximately 3000 feet west of the pivot center. Water from the well is conveyed underground to the pivot point in a 8 inch pipe. This is an electrically powered system.

C. Works used to apply water to beneficial use:

A brand new 7 tower T-L center pivot. The pivot was just constructed and was not used in 2007 because of flooding conditions.

The system is in the following condition excellent. The point of diversion (well) is located specifically at Lat/Lon - N44.730111 W-098.521583 which is in the SW 1/4 NW 1/4 Section 34, T115N, R64W referenced from the NW corner as 1,630 feet south and 700 feet east.

The works are capable of diverting 1.78 cfs from one well which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

All in Section 34, T115N, R64W

NW ¼ NE ¼	33 acres	NE ¼ NW ¼	4 acres
NE ¼ NE ¼	29 acres	SE ¼ NW ¼	4 acres
SW ¼ NE ¼	33 acres		
SE ¼ NE ¼	29 acres		

This breakdown of acres is a best estimate based on 1) information provided by the applicant, 2) viewing the orthoquadrangle using ArcMap, and 3) calculating the area based on the pivot radius.

comprising a total of 132 acres of land and the license should be issued for 1.78 cfs from the well

Applicable permit qualifications have been complied with: **Yes**

Exceptions to compliance are: see report on change of diversion point

Date Report Completed: October 29, 2007

Eric Gronlund

Natural Resources Engineer

DENR, Water Rights Program

NAME & ADDRESS OF INVESTIGATION CONTACT/ RELATIONSHIP TO PERMIT HOLDER, IF APPLICABLE	Lenny Peterson (partner)
DIVERSION POINT LEGAL LOCATION	SW ¼ NW ¼ , Section 34, T115N, R64W

Other permit(s) associated with the project: **Water Permit No. 6334A-3 transferred a portion of the diversion rate authority and land from Permit No. 6334-3. The permits were reissued into 6334A-3 and 6334B-3 to reflect the transfer**

WELL INFORMATION:

- 1) Well Drilling Firm: **Pullman Drilling**
- 2) No. of Wells **One**
- 3) Depth(s) **approx. 100 feet**
- 4) Well log is available **No**
- 5) Comment: **Pullman drilling will be contacted to submit completion report**

Casing:

- 1) Diameter **16** inches
- 2) Length **unknown** feet
- 3) Type **plastic**

Screen:

- 1) Type **stainless steel**
- 2) Length **unknown** feet
- 3) Static water level **unknown** feet

Pump:

- 1) Make **submersible**
- 2) Model
- 3) Size
- 4) Capacity **800** GPM

Motor:

- 1) Make
- 2) Model No.
- 3) Horsepower rating

SYSTEM TYPE:**Center pivot:**

- 1) Make T-L
- 2) Overall length approx.1,300 feet
- 3) Number of towers 7 tower
- 4) Distance between towers _____ feet
- 5) End gun Yes (length with gun 1,350 feet)
- 6) High or low pressure low (drop nozzles)
- 7) Capacity 800 GPM

CHEMIGATION EQUIPMENT: No chemigation equipment is in place

PERMIT QUALIFICATIONS:

- 1) Special qualifications to permit being abided by Yes
- 2) All structures, wells and lands on map Yes
- 3) Irrigation Questionnaires checked to determine if permit owner started irrigation by the end of construction period Yes

COMMENTS:

- Currently do not have any information on well construction and the pump in place. The diversion rate is based on information provided by Mr. Lenny Peterson. The drilling company will be contacted to submit the well completion report and provide pump information. This report will be edited accordingly at that time.
- Irrigation questionnaires indicate irrigation has not taken place. The system was just installed in 2007. A large spring storm event, and the drainage from the town of Tulare made irrigation of the property not practical.
- There is a large dead tree to the west of the pivot point. According to Mr. Peterson this tree will be removed.
- The well location is accessible through agreement that Peterson Farms has with Mr. Steinhauser to drive through his feedlot to the west of the well head
- Change of well location attached.

Eric Gronlund

Eric Gronlund
Water Rights Program
Date of Investigation - 9/12/2007

Approval of Change of Diversion Point

NAME: Peterson Farms

ADDRESS: 19111 Maple Avenue, Hitchcock SD 57348

DATE: October 29, 2007 **COUNTY:** Spink **TELEPHONE:**

BACKGROUND:

Peterson Farms holds Water Permit No. 6334B-3 appropriating 1.91 cfs from one well (Tulare:Western Spink Aquifer) to be located in the approximate center of the NE ¼ Section 34 to irrigate 133.7 acres in the NE ¼ Section 34; all in T115N, R64W.

A licensing investigation was conducted on September 10, 2007. At that time, the well was found to be located in the SW ¼ NW ¼ of Section 34. This location is approximately 3,000 feet west of the permitted location of the well.

AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased:

- **Developed water source same as permitted source and no additional water appropriated**

The water source authorized by Water Permit No. 6334B-3 is the Tulare:Western Spink Aquifer. The application stated the well is to be approximately 100 feet deep. A well completion report has not been filed for this well. Pullman Drilling is being contacted to provide this information. However, based verbal communication with Lenny Peterson the well is about 100 feet deep which would mean it is completed into the Tulare:Western Spink Aquifer.

No additional appropriation of water is requested. Permit No. 6334B-3 authorizes an appropriation of 1.91 cfs (857 gpm). Mr. Peterson stated the system is capable of producing 1.78 cfs (800 gpm). Based on this information the water license will be issued for 1.78 cfs.

- **Review of Existing Diversions**

A review was conducted of existing water rights and domestic wells. There are six domestic well completed into the Tulare:Western Spink Aquifer in neighboring sections.

There are two water rights for irrigation in the area. One water right is located in the SW ¼ of Section 34 and the other is located a mile west in the NW ¼ of Section 33. Prior to the transfer of a portion of the diversion authority and acreage under Permit No. 6334-3, there was intended to be a well located near the center of the NW ¼ Section 34 that was transferred to a new location by Permit No. 6334A-3. The report on this application found that interference is not expected to be a concern in the NW ¼ Section 34.

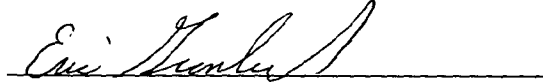

There have been no complaints recently in this area.

CONCLUSION

- The change of well location does not appropriate additional water.
- The well is existing and constructed into the Tulare:Western Spink Aquifer which is the same water source as the existing well authorized by Permit No. 6334-3.
- Existing domestic wells and prior water rights should not be adversely impacted by authorizing this additional well.
- There have been no complaints regarding development at this site.

RECOMMENDED ACTION

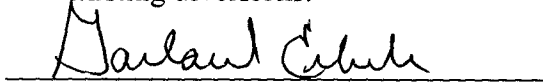

Based on the above criteria, it is recommended that the change of diversion point be authorized under Water Permit No. 6334B-3 and the license be issued accordingly.

Eric Gronlund
Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

This change of diversion point does not increase the potential for adverse effects to existing diversions.

Garland Erbele, Chief Engineer
Water Rights Program

I have completed the construction of the water use system and I have put the water to beneficial use to the maximum extent it is going to be used.

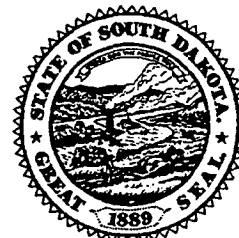

Water Permit No. 6334B-3 states that the water use system is to be constructed by
12/4/07 (date), and water is to be put to beneficial use by 12/4/11 (date).

The water use system was completed on 2007
(date)

Applying the water to beneficial use was completed on not used yet for irrigation
(date)

You may schedule an investigation so that the water license may be issued.

(signature)

**STATE OF SOUTH DAKOTA
WATER LICENSE NO. 6334B-3**

(1) Peterson Farms, % Lenny Peterson, 19111 Maple Avenue, Hitchcock SD 57348 made Application No. 6334-3, June 21, 2002 for a water permit to divert 3.82 cubic feet of water per second (cfs) from ground water, Spink County, South Dakota for irrigation purposes. Permit No. 6334-3, with a priority date of June 21, 2002 was approved December 4, 2002.

Water Permit No. 6334-3 was divided and reissued to transfer acreage and diversion points to other lands.

- **No. 6334A-3** authorizes 1.91 cfs from one well located in the center of the NW ¼ Section 2 to irrigate 133.7 acres located in the NW ¼ Section 2, all in T113N, R63W, Beadle County (licensed separately).
- **No. 6334B-3** authorizes 1.91 cfs from one well to be located in the center of the NE ¼ Section 34 to irrigate 133.7 acres located in the NE ¼ Section 34, T115N, R64W, Spink County.

An investigation conducted on September 12, 2007 found the system authorized by No. 6334B-3 to be completed. The investigation found the point of diversion to have been developed 3000 feet west of the permitted area. Pursuant to SDCL 46-5-13.1 and ARSD 74:02:01:14.01, the Chief Engineer made a finding that the change in location of the diversion point did not increase the potential for adverse effects to existing diversions.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.78 cubic feet of water per second for beneficial use. The location of the diversion point is 1,630 feet S & 700 feet E of the NW corner of Section 34, T115N, R64W (SW ¼ NW ¼).

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 34, T115N, R64W			
NW ¼ NE ¼	33 acres	NE ¼ NW ¼	4 acres
NE ¼ NE ¼	29 acres	SE ¼ NW ¼	4 acres
SW ¼ NE ¼	33 acres		
SE ¼ NE ¼	29 acres	Total 132 acres	

(4) Pursuant to South Dakota Water Law 46-5-30.1 Peterson Farms, % Lenny Peterson, 19111 Maple Ave., Hitchcock SD 57348 the holders and/or owners of Water Right No. 6334B-3 are issued a license to appropriate water, the right to use 1.78 cubic feet of water per second from ground water (Tulare:Western Spink Aquifer) with a priority date of June 21, 2002 from the location specified in (2) of this license. The water is to be conducted to and upon lands specified in (3) of this license for the purpose of irrigation.

This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Right No. 6334B-3 and subject to the following qualifications:

- The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
- The well authorized by Permit No. 6334B-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) from the producing formation to the surface pursuant to Section 74:02:04:28.
- This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

RE: Water License Nos. 6201-3, 6201A-3, 6334A-3, 6334B-3 and 6343-3

Dear Mr. Peterson:

Enclosed are your Water License Nos. 6201-3, 6201A-3, 6334A-3, 6334B-3 and 6343-3. These are the final water right documents completing your process of obtaining Water Rights. Included with your licenses are maps prepared by the staff engineer who conducted the investigations.

For your information SDCL 46-6-27 requires that if the owner of an existing well(s), such as the wells authorized by the above water rights, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

Many of your irrigation systems are set up to use chemigation. Enclosed are excerpts of Board Rules outlining the requirements for chemigation equipment.

As long as you use the water beneficially, as stated in the Water Licenses, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program

Pierre, SD 57501-3181

No. 6334B-3
Date: 6/22/16

I/We request that Water Right/Permit No. 6334B-3

formerly owned by: Peterson Farms

be transferred to: (name & address) Lenny Peterson, 19111 Maple Avenue, Hitchcock SD 57348

Telephone No. 605 354-4062

Title to the following described land(s)/property has been transferred as described above:

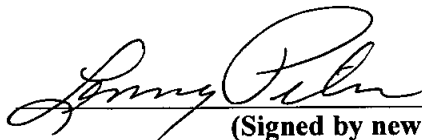

NE ¼ and E ½ NW ¼ Section 34, T115N, R64W

I/We understand that the validity of Water Right/Permit No. 6334B-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is required to cover the filing fees as required under SDCL 46-2-13. This form must be signed by the new owner.

I/We _____, the new owner, certify that the above information is true and correct.

(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

RE: Water Right/Permit Nos. 6201B-3, 6333B-3, 6334B-3, 6656-3, 6712A-3 and 7391-3

Lenny:

Thank you for stopping by the office to take care of the ownership changes involving water permits and water rights held by Peterson Farms. The ownership changes have been completed for Water Right/Permit Nos. 6201B-3, 6333B-3, 6334B-3, 6656-3, 6712A-3 and 7391-3. They are now listed in your name.

In regard to the ownership change filed for Water Right No. 6343-3, this one will be completed and confirmation sent to you at a later date. The water right covers land in the SW ¼ Section 2 and NW ¼ Section 11, T113N, R63W. I am waiting on the paperwork from Brad for the SW ¼ Section 2. Once he submits the transfer form and fee, the water right will be divided and reissued to reflect separate ownership.

Enclosed are your receipts for the fees paid for filing the ownership changes. If I can answer any questions for you, please let me know.

Sincerely,

Genny McMath
