REPORT ON WATER PERMIT APPLICATION NO. 6500-3
For the City of Watertown
May 11, 2004

Application No. 6500-3 proposes to appropriate 0.11 cfs (50 gpm) from a gravel pit located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of section 30, T117N R52W in Codington County. The water will be pumped from the gravel pit to fill the waterfowl display ponds at Bramble Park Zoo located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of section 25, T117N R53W.

AQUIFER – BIG SIOUX NORTH (BS-N)

The Big Sioux North is a surficial outwash (sand and gravel) that is under water table conditions in this area. The aquifer underlies 67,300 acres and contains an estimated 151,430 acre-feet of recoverable water in storage in Codington County (Hedges, 1982). The aquifer extends into Grant County to the north, into Hamlin County to the south, and is hydraulically connected to the Big Sioux River and to Lakes Pelican and Kampeska. Ground water movement is generally from north to south and locally toward the Big Sioux River (Hansen, 1990). The aquifer generally discharges ground water into the Big Sioux River and to the area lakes.

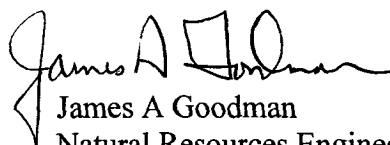

The Water Rights Program monitors three observation wells completed into the Big Sioux aquifer and within a three mile radius of this application. One of these observation wells CD-59A is located about one mile northwest of this site. Water levels for this well show good response to climatic conditions, that is, rising water levels during wet years (recharge) and gradually declining water levels during dry years. The water level record indicates that the aquifer is capable of sustaining additional withdrawals (Water Rights, 2004).

REVIEW OF EXISTING WATER PERMITS/RIGHTS

There are some existing city of Watertown municipal wells located about one half mile to the west of this application and also west of the Big Sioux River. Interference is not a concern. This requested diversion rate is small and will not significantly effect water levels in the aquifer.

CONCLUSIONS

1. Water is available from the Big Sioux North aquifer.
2. The aquifer is under water table conditions at this site. Drawdown created by pumping at this rate from the large gravel pit will not be significant. Interference is not a concern.

Natural Resources Engineer

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6500-3, City of Watertown**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6500-3, City of Watertown, c/o Dan Miller, PO Box 910, Watertown SD 57201-0910.

The Chief Engineer is recommending APPROVAL of Application No. 6500-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest.

See report on application for additional information.

Dear Mr. Adams:

Enclosed are Water License Nos. 6218-3, 6436-3 and 6500-3 (maps included). These are the final water right documents completing the city's process of obtaining a Water Right.

As long as the city uses the water beneficially, as stated in the Water Licenses, State Water Laws provide that you have a continuing right to use the water.

Sincerely,

Garland Erbele, Chief Engineer

Dear Eric,

I sadly announce to you that after thirty-three years of service with the Watertown Municipal Utilities, our dedicated and hard-working Water Superintendent, Jeff DeVille, will be retiring effective June 30, 2021. We greet Mr. DeVille's retirement with sorrow, but we are also happy Jeff can now enjoy his own time. Jeff has been a great asset to the Water Department here at the Watertown Municipal Utilities and will be greatly missed.

I would like to introduce our new Water Superintendent Wayne Lovelis. Wayne has been training under Jeff for the past two months and comes with much experience. He has over 25 years in the water/utility industry. He has spent the last six years with The City of Great Falls, Montana. He will take over the reins as Water Superintendent along with the duties of being the correspondent for the Water Rights and Diversion Structure under FC29. Feel free to contact Wayne at any time.

See below Wayne's contact information.
