**SOUTH DAKOTA
WATER PERMIT NO. 6753-3**

Date of first receipt of application September 5, 2006.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 6753-3 to JBS Hansen Farms, c/o Bill & Scott Hansen, 2201 State St, Centerville SD 57014 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6753-3 authorizes an additional 0.93 cubic feet of water per second (cfs), one additional well and irrigation of 134 additional acres to Water Right No. 1055-3 in order to reflect the existing irrigation system. Water Right No. 1055-3 appropriates 4.20 cfs from three wells to irrigate 295.3 acres. Water Right No. 1055-3 and this permit authorize a total diversion of 5.13 cfs from four existing wells completed into the Parker-Centerville Aquifer located in the NE ¼ SW ¼, SW ¼ NW ¼, NW ¼ SW ¼ and SW ¼ NE ¼ Section 27-T96N-R52W. The 429.3 acres irrigated are located in the NW ¼, W ½ NE ¼, SW ¼, W ½ SE ¼ Section 27 and NE ¼ NW ¼, NW ¼ NE ¼ Section 34, E ½ NE ¼, E ½ SE ¼ Section 28; all in T96N-R52W.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: April 1 – September 30.
3. The date from which applicant may claim right is September 5, 2006.
4. The date of approval of Permit No. 6753-3 is January 29, 2007.
5. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

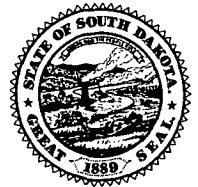

QUALIFICATIONS

1. The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. Combinations of diversion authorized by Water Permit No. 6753-3 and 6754-3 may not exceed 1.0 cfs per 70 acres and a total annual diversion of 2 acre feet per acre.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

date

Breakdown of Acreage for Water Right No. 1055-3

There are four wells constructed into the Parker Centerville Aquifer capable of producing 2,300 gpm (5.13 cfs). Well No. 1 depicted on the map is used along with the well authorized by Water Right No. 3918-3 to serve a large pivot.

Well production is:

Well No. 1 - 600 gpm

Well No. 2 - 600 gpm

Well No. 3 - 600 gpm

Well No. 4 - 500 gpm

The acreage breakdown is as follows.:

Legal (all in T96N, R52W)	acres
SW ¼ NW ¼ Section 27	39
NW ¼ NW ¼ Section 27	15
NE ¼ NW ¼ Section 27	8.0
SE ¼ NW ¼ Section 27	39
SW ¼ NE ¼ Section 27	33
NW ¼ NE ¼ Section 27	25
NW ¼ SW ¼ Section 27	40
NE ¼ SW ¼ Section 27	40
SW ¼ SW ¼ Section 27	38
SE ¼ SW ¼ Section 27	40
NW ¼ SE ¼ Section 27	38
SW ¼ SE ¼ Section 27	37
NE ¼ NW ¼ Section 34	12
NW ¼ NE ¼ Section 34	6
NE ¼ NE ¼ Section 28	3.7
SE ¼ NE ¼ Section 28	1.6
NE ¼ SE ¼ Section 28	5.8
SE ¼ SE ¼ Section 28	8.1
Total	429.2

July 26, 2006

Bill Hansen
2201 State Street
Centerville SD 57014

Dear Mr. Hansen:

Based on your visit to Water Rights, I finally found time to sit down and review Water Right Nos. 1055-3 and 3918-3. These water rights are currently listed in the name of W. Jerald Hansen at 46133 SD Hwy 19A, Centerville SD. This leads to my first question which is what name should be on the water rights. I presume the land was originally owned by your father. Is this still the case or is it held by you or in a partnership?

It is my goal in writing this letter to start the process of getting the water rights to accurately reflect what is happening in the field. To accomplish this I have reviewed the present permits, used the information you provided and estimated the diversion rate and acres being irrigated. With that information I drafted applications that are intended when combined with the existing water rights to reflect the irrigation systems. However, Section 27 is a peculiar shaped section and I have needed to make some assumptions. Please review the information carefully to see that the acres outlined and the numbers presented reflect what is in the field.

I used the computer to digitize the area that you outlined as being irrigated. This showed the reconfiguration of the acreage that took place in the past resulted in more acreage being irrigated than listed on the water licenses. Also, at some point an additional well was completed into the Parker Centerville Aquifer for Water Right No. 1055-3 and the diversion rate from the four wells exceeds the amount authorized.

For each existing water right, I have included 1) draft application for what I believe is necessary to have the permit reflect what is in the field, 2) a breakdown of the acres by quarter-quarter section (note that because of the shape of the section the acreage by quarter-quarter section is not standard), and 3) a map showing the approximate well locations and outlining the acres capable of being irrigated. Please note that the outline of the large pivot appears larger than the background map depicts. This is based on your office visit where you indicated the pivot now reaches the small tree belt in Section 34. Finally, I have left the name and address on the draft applications blank. You will need to fill in the proper name.

(continued)

Water Right No. 1055-3

Water Right No. 1055-3 appropriates 4.2 cubic feet of water per second (cfs) [1,885 gpm) from three wells completed into the Parker Centerville Aquifer to irrigate 295.3 acres. You indicated that a 4th well was completed in the past and the total diversion capability of all the wells was 5.13 cfs (2,300 gpm). Therefore this application proposes to appropriate an additional 0.93 cfs and add the additional well.

As far as the acreage irrigated, my digitizing the area shown in green on the map found 429.2 acres capable of being irrigated. This is 134 acres more that authorized by Water Right No. 1055-3. The draft application also seeks to authorize these additional 134 acres.

The application filing fee for an additional 134 acres is \$250 plus a \$50 licensing fee for a total of \$300.

Water Right No. 3918-3

Water Right No. 3918-3 appropriates. 2.65 cfs (1,190 gpm) from one well (190 feet) completed into the Upper Vermillion:Missouri Aquifer to irrigate 295.3 acres. This well is used in conjunction with one of the shallow wells to supply the large pivot. You indicated the 190 foot deep well produces 800 gpm. I digitized the area of the large pivot based on your description and found it capable of 330 acres. Therefore, the draft application for the deeper well is for no additional diversion rate authority but proposes to authorize 35 additional acres.

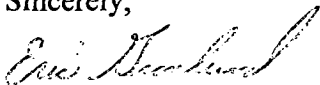

The application file fee for an additional 35 acres is \$150 plus a \$50 licensing fee for a total of \$200

Mr. Hansen, I have been unable to keep this letter short or simple. Please understand I view this as a starting point. You certainly know how the systems are set up and the number of acres being irrigated. I am relying on you to review and make the appropriate corrections.

Once the applications correctly describe the irrigation, you will need to complete the name on the application, have them signed in the presence of a notary public and submit them along with the appropriate application filing fees.

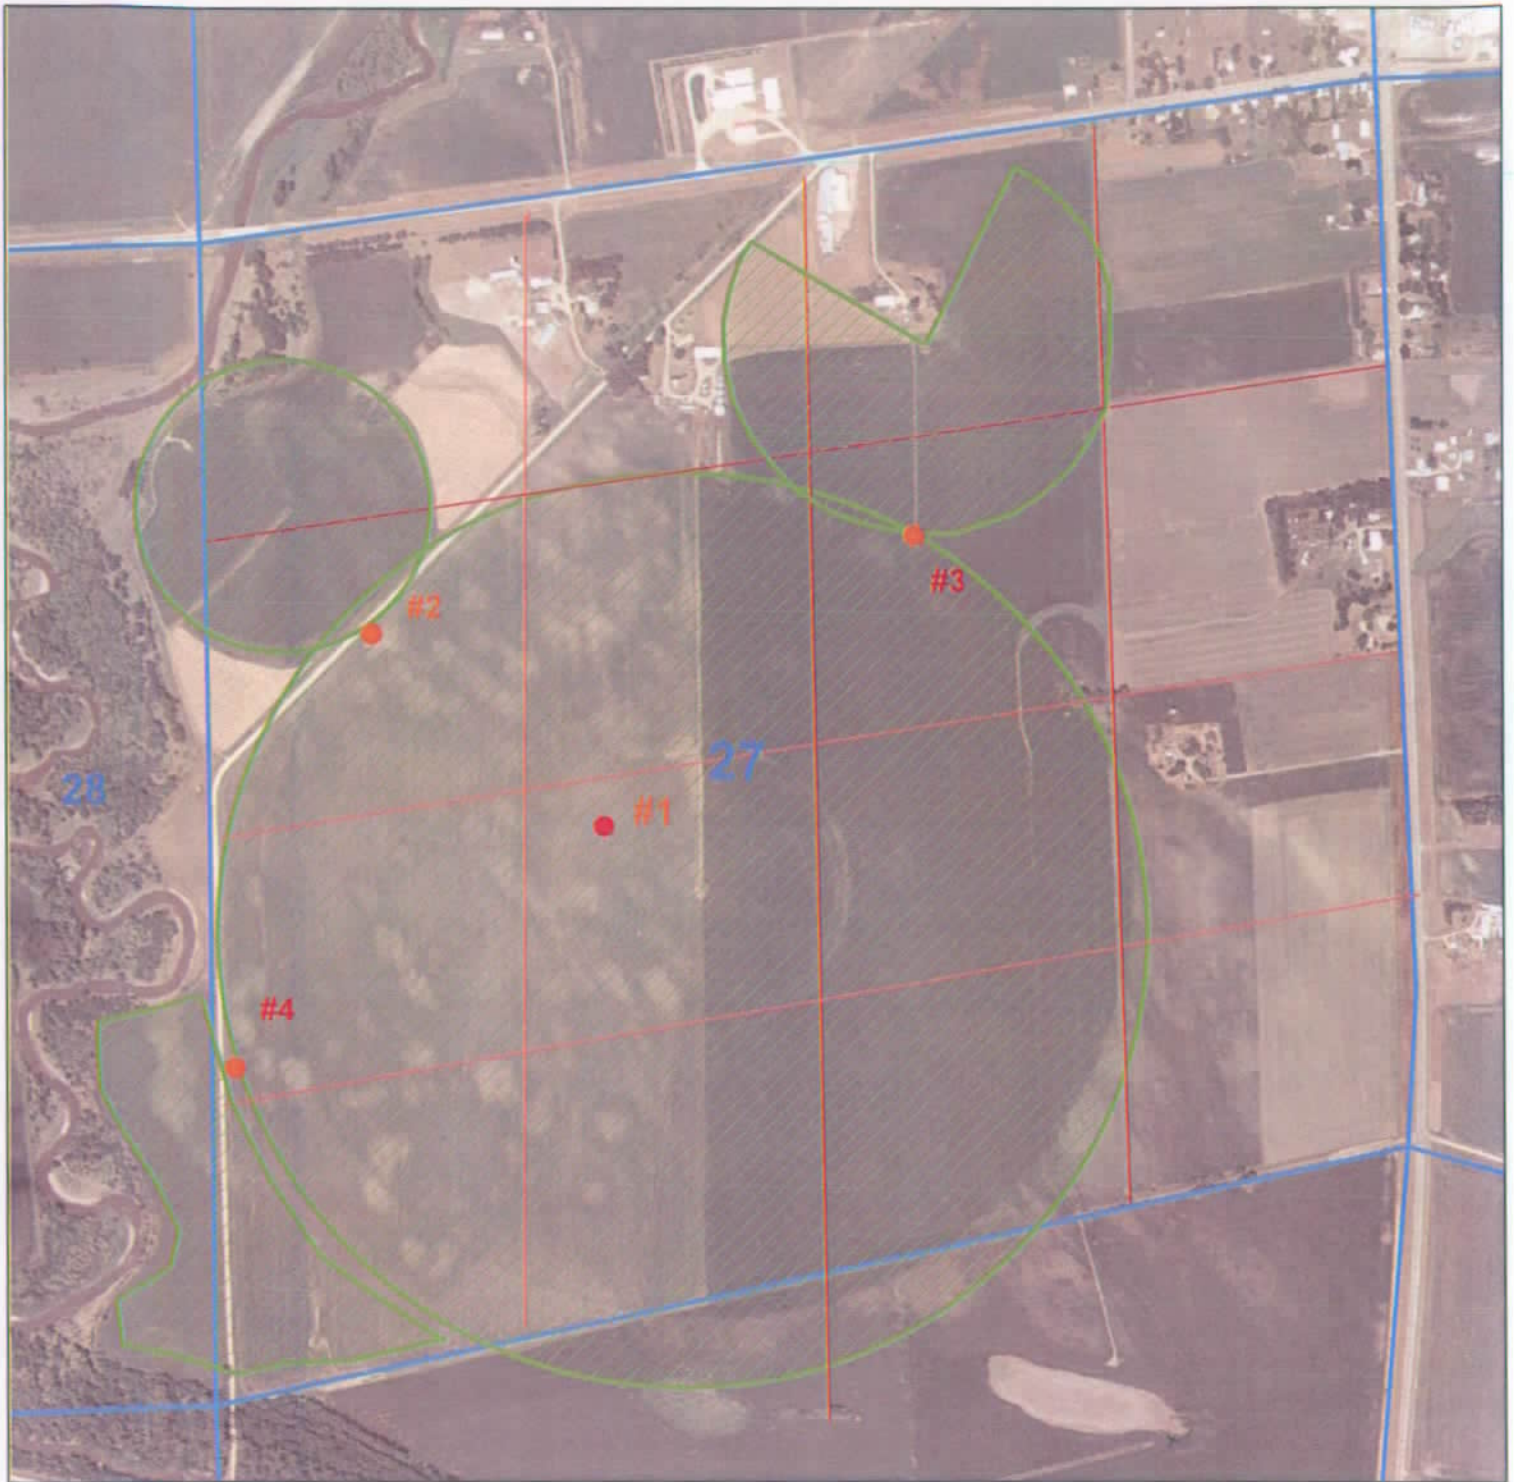

If you have any questions, please do not hesitate to contact me.

Sincerely,

Eric Gronlund

NAME OF PERSON OR FILE: Application No. 6753-3, JBS Hansen Farms

ADDRESS: COUNTY: Turner

DATE: November 15, 2006 TELEPHONE:

RE: Office visit by Bill Hansen

COMMENTS:

Mr. Hansen stopped in the office to apply for a new water right permit and to check on the status of Application Nos. 6753-3 and 6754-3.

I explained that we had questions about the depth of the well identified as well No. 3 on the map for Water Permit Application No. 6753-3. This well is in the location specified for the original well authorized by Water Right No. 3918-3 which is a 190 foot well. The 190 foot well is now in the location represented on the map for Water Permit Application No. 6754-3. Mr. Hansen confirmed that the well identified as No. 3 is a shallow well constructed into the Parker Centerville Aquifer.

We also discussed Water Right No. 5352-3 held by Linda Hendrickson. It appears that a portion of this land is included under the acreage covered by Water Right No. 1055-3 (Parker Centerville Aquifer) and Water Right No. 3918-3 (Upper Vermillion: Missouri Aquifer). Mr. Hansen explained that this is land they lease from Ms. Hendrickson in the E ½ SW ¼ and W ½ SE ¼ of Section 27. There is an oddity with this water right in that it was advertised for the Parker Centerville Aquifer but was licensed for the 190 foot well completed in the Upper Vermillion : Missouri Aquifer. Processing of Water Permit Application No. 6754-3 will ensure that JBS Hansen Farms has the proper permitting for the 190 foot well.

Mr. Hansen filed transfer of ownership for Water Right Nos. 1055-3 and 3918-3 to JBS Hansen Farms.

Finally, Mr. Hansen completed a new water permit application to irrigate the SE ¼ of Section 21, T96N, R52W. He will be sending us the fees for new application and the two transfer of ownership. Total fee to be submitted is \$305.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6753-3, JBS Hansen Farms**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6753-3, JBS Hansen Farms, c/o Bill Hansen, 2201 State Street, Centerville SD 57014.

The Chief Engineer is recommending APPROVAL of Application No. 6753-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. Combinations of diversion authorized by Water Permit No. 6753-3 and 6754-3 may not exceed 1.0 cfs per 70 acres and a total annual diversion of 2 acre feet per acre.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

See report on application for additional information.

Garland Erbele, Chief Engineer
January 2, 2007

REPORT ON WATER PERMIT APPLICATION NO. 6753-3
For JBS Farms
December 20, 2006

Application No. 6753-3 proposes to appropriate an additional 0.93 cfs and one additional well located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of section 27 to irrigate 134 additional acres to Water Right No. 1055-3 to reflect the existing irrigation system. Water Right No. 1055-3 appropriates 4.20 cfs from three wells to irrigate 295.3 acres. Water Right No. 1055-3 and this application, if approved, will authorize a total diversion of 5.13 cfs from four wells completed into the Parker-Centerville Aquifer and located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ and the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of section 27, T96N R52W. The 429.2 acres irrigated are located in the W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ of section 27 and NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$ of section 34, E $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$ of section 28; all in T96N R52W in Turner County.

AQUIFER - PARKER-CENTERVILLE (PAC)

The Parker Centerville is a surficial outwash (sand and gravel) that is under water table conditions in this area. The aquifer underlies 74 square miles and contains an estimated 322,000 acre-feet of water in storage in Turner County (Lindgren, 1990). The aquifer extends to the north where it blends into the Vermillion East and West Fork branches, extends to the south into Clay County and blends into the underlying Upper Vermillion Missouri aquifer in the area just to the south of this application. Ground water movement is probably from north to south and towards the Vermillion River in the area (Lindgren, 1990). The aquifer is hydraulically to the Vermillion River. Recharge to the aquifer averages about 4.9 inches per year (Hedges, 1983). Using the area of 74 square miles this would equal a recharge volume of about 19,340 acre-feet per year. According to water use records the average irrigation water use from the Parker Centerville aquifer for the time period from 2000 through 2005 (six years of record) is about 13,300 acre-feet per year. This is a total of 79,820 acre-feet during the time period. The year of greatest single use was 14,850 acre-feet in 2004.

The Water Rights Program monitors two observation wells completed into the Parker Centerville aquifer and located within two miles of this application. These are TU-57C and TU-77N. Observation well TU-77N is located about one and one-half miles to the south of this application. Water levels for this well show good response to climatic conditions that is water levels rise during wet years (recharge) and gradually decline during dry years. The water level record indicates that the aquifer is capable of sustaining additional withdrawals (Water Rights, 2006). A hydrograph for this observation well is included with this report.

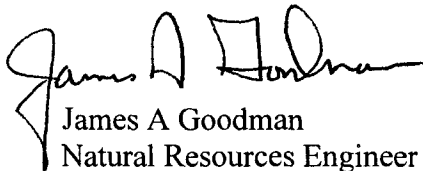

REVIEW OF EXISTING WATER PERMITS/RIGHTS

The nearest existing irrigation well not held by JBS Farms is located about one-half mile to the southeast and authorized by Water Right No. 1890-3. Interference is not a concern.

At this distance between wells drawdown will not be significant nor cause any adverse effects.

CONCLUSIONS

1. Water is available from the Parker Centerville aquifer.
2. The aquifer is under water table conditions in this area. Drawdown created by pumping should not be significant. Interference is not a concern. These wells have been in use for many years with no apparent problems.
3. This is an existing well and there is insufficient information available to determine if the well is constructed in accordance with SD Well Construction Standards.
4. The portion of lands permitted by Water Permit No. 6754-3 is also covered by this application. The total diversion volume on these lands cannot exceed two acre-feet per acre from either aquifer or both sources combined.

NOTICE OF APPLICATION NOS. 6753-3, 6754-3 and 6773-3 to Appropriate Water

Notice is given that JBS Hansen Farms, C/o Bill H Hansen, 2201 State St, Centerville SD 57014 has filed the following applications for a water permit.

Application No. 6753-3 proposes to appropriate an additional 0.93 cubic feet of water per second (cfs), one additional well and to irrigate 134 additional acres to Water Right No. 1055-3 in order to reflect the existing irrigation system. Water Right No. 1055-3 appropriates 4.20 cfs from three wells to irrigate 295.3 acres. Water Right No. 1055-3 and this application, if approved, will authorize a total diversion of 5.13 cfs from four existing wells completed into the Parker-Centerville Aquifer located in the NE 1/4 SW 1/4, SW 1/4 NW 1/4, NW 1/4 SW 1/4 and SW 1/4 NE 1/4 Section 27-T96N-R52W. The 429.3 acres irrigated are located in the NW 1/4, W 1/2 NE 1/4, SW 1/4, W 1/2 SE 1/4 Section 27 and NE 1/4 NW 1/4, NW 1/4 NE 1/4 Section 34, E 1/2 NE 1/4, E 1/2 SE 1/4 Section 28; all in T96N-R52W.

Application No. 6754-3 proposes to change the location of irrigated acreage and to authorize irrigation of an additional 35 acres to Water Right No. 3918-3 to reflect the existing irrigation system. Water Right No. 3918-3 appropriates 2.66 cfs from one well completed into the Upper Vermillion Missouri Aquifer (190 feet deep) to irrigate 295.3 acres. The well authorized by Water Right No. 3918-3 is currently capable of producing 1.78 cfs. Water Right No. 3918-3 and this application, if approved, will authorize irrigation of a total of 330 acres located in the S 1/2 NW 1/4, SW 1/4 NE 1/4, SW 1/4, W 1/2 SE 1/4 Section 27 and NE 1/4 NW 1/4, NW 1/4 NE 1/4 Section 34; all in T96N-R52W. One of the wells completed into the Parker-Centerville Aquifer which is authorized by Water Right No. 1055-3 (see above) also serves to irrigate this land.

Application No. 6773-3 proposes to appropriate 1.94 cfs from one well to be completed into the Parker-Centerville Aquifer (approximately 50 feet deep) located in the approximate center of the SE 1/4 Section 21 to irrigate 136 acres located in the SE 1/4 Section 21; all in T96N-R52W.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application Nos. 6753-3, 6754-3 and 6773-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on the applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the Chief Engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the applications. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendations. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by January 29, 2007.

The petition may be informal, but must include a statement de-

scribing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to these applications. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

ATTENTION: Legal Public Notice

Enclosed is a Notice on Application Nos. 6753-3, 6754-3 and 6773-3 to Appropriate Water to be published twice. Please publish the first notice on January 11, 2007 with the second publication 7 days later. The text of the notice can be e-mailed to your paper by contacting Karen Schlaak at (605) 773-3352.

The applicant must verify to you that the notice is to be published, before you make the first publication. **Please BILL the APPLICANT for the cost of publication.** The APPLICANT is JBS Hansen Farms, % Bill H Hansen, 2201 State St., Centerville SD (Ph # 605-563-2019).

Please send the Water Rights Program the first publication immediately. The publication is checked for accuracy so any corrections can be made in the second publication. You may use the form below or fax a copy of the first publication. Any fax should be sent to the attention of Karen Schlaak at (605) 773-4068. Publication errors can invalidate the public notice.

After the second publication, **please send us an affidavit or use the enclosed Proof of Publication form.** The applicant pays the cost of publication, but the Water Rights Program records require an affidavit or Proof of Publication. Delays in receiving the affidavit can be costly to the applicant.

Dear Mr. Hansen:

Water Permit Application Nos. 6753-3, 6754-3 & 6773-3 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice has been sent to the Publisher of the Centerville Journal printed at Centerville, SD (Ph # 605-563-2351). You will need to contact the newspaper and authorize publication of this notice. For your information, a copy of the notice, the recommendations of the Chief Engineer and the reports on the applications are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice and to arrange for payment. Early contact with the paper can eliminate delays. Upon receiving authorization, the publisher has been instructed to publish your notice once each week for two consecutive weeks. The newspaper has also been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the applications.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendations, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the applications.

Instruction to Newspaper - Publish first Notice on January 11, 2007 with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NOS. 6753-3, 6754-3 and 6773-3 to Appropriate Water

Notice is given that JBS Hansen Farms, C/o Bill H Hansen, 2201 State St, Centerville SD 57014 has filed the following applications for a water permit.

Application No. 6753-3 proposes to appropriate an additional 0.93 cubic feet of water per second (cfs), one additional well and to irrigate 134 additional acres to Water Right No. 1055-3 in order to reflect the existing irrigation system. Water Right No. 1055-3 appropriates 4.20 cfs from three wells to irrigate 295.3 acres. Water Right No. 1055-3 and this application, if approved, will authorize a total diversion of 5.13 cfs from four existing wells completed into the Parker-Centerville Aquifer located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 27-T96N-R52W. The 429.3 acres irrigated are located in the NW $\frac{1}{4}$, W $\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Section 27 and NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 34, E $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 28; all in T96N-R52W.

Application No. 6754-3 proposes to change the location of irrigated acreage and to authorize irrigation of an additional 35 acres to Water Right No. 3918-3 to reflect the existing irrigation system. Water Right No. 3918-3 appropriates 2.66 cfs from one well completed into the Upper Vermillion Missouri Aquifer (190 feet deep) to irrigate 295.3 acres. The well authorized by Water Right No. 3918-3 is currently capable of producing 1.78 cfs. Water Right No. 3918-3 and this application, if approved, will authorize irrigation of a total of 330 acres located in the S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Section 27 and NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 34; all in T96N-R52W. One of the wells completed into the Parker Centerville Aquifer which is authorized by Water Right No. 1055-3 (see above) also serves to irrigate this land.

Application No. 6773-3 proposes to appropriate 1.94 cfs from one well to be completed into the Parker Centerville Aquifer (approximately 50 feet deep) located in the approximate center of the SE $\frac{1}{4}$ Section 21 to irrigate 136 acres located in the SE $\frac{1}{4}$ Section 21; all in T96N-R52W.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application Nos. 6753-3, 6754-3 and 6773-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on the applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the Chief Engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the applications. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendations. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by January 29, 2007.

The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to these applications. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

MAY 10 2007

JBS Hanson Farms
c/o Bill & Scott Hansen
2201 State St
Centerville SD 57014

Dear Sirs:

Enclosed are Water Permit Nos. 6753-3, 6754-3 and 6773-3 authorizing your water diversion systems and beneficial use of the water, not exceeding the limits as specified in the Water Permits.

Also, enclosed is a Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, for Water Permit No. 6773-3. Please return this completed form after you have finished the system and have put the water to beneficial use.

We will schedule an inspection, at a future date, so the Water Licenses may be issued to you, thus completing your acquisition of a Water Right.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program

NOTICE OF TRANSFER OF OWNERSHIP

For assistance call (605) 773-3352

Mail to: SD DANR, Water Rights Program
523 E Capitol Ave
Pierre, SD 57501-3182

Water Right/Permit No. 6753-3

Date: 1/26/26

I/We request that Water Right/Permit No. 6753-3 formerly owned by:

JBS Hansen Farms be transferred to:

New Owner Name: William + Scott Hansen

Address: 2201 State St mobile: (605) 201-7593

City, State, Zip Centerville, SD 57014 email: billhansen@hcinet.net

Title to the following described land(s)/property has been transferred as described above:

increases pump rate. adds well, adds
134 ac to 1055-3 Turner Co.
(shallow wells)

- ☒ I understand that the validity of Water Right/Permit No. 6753-3 has not been determined by this transfer action. If I have any questions on validity, I understand that only the Water Management Board has the authority to determine if a water right/permit is valid (see note below).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is included to cover the filing fee as required by SDCL 46-2-13.

I, William Hansen, the new owner, certify that the above information is true and correct.

William Hansen
(signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five-year construction period has expired. Once a water permit is developed, an inspection is conducted to issue a water right license for the project as developed. A water permit/right may be cancelled for one or more of the following reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three-year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

6753-3

William & Scott Hansen
2201 State St
Centerville, SD 57014

Dear William & Scott,

The South Dakota Water Rights Program is in receipt of the "Notice of Transfer of Ownership" form and the required fee you submitted for Water Permit No. 6753-3. Enclosed is a receipt of payment for your records.

Water Permit No. 6753-3, previously held by JBS Hansen Farms, is now listed under William & Scott Hansen. I have also updated your contact information in our system.

As a reminder, so long as you use the water beneficially, as stated in the Permit (copy enclosed), State Water Laws provide that you have a continuing right to use the water. Should the water not be put to beneficial use for a period longer than 3 consecutive years, without legal excuse, the Permit will be subject to cancellation.

If you have any questions, please contact me.

Sincerely,

Shannon Konst
Water Rights Program
605 773-3352
Shannon.konst@state.sd.us

NOTE: The validity of Water Permit No. 6753-3 has not been determined by this transfer action. Only the Water Management Board has the authority to determine if a water permit/right is valid.
