

WATER PERMIT NO. 6794A-3

Name of Applicant: Hoffman Farms

Address: 13754 323rd Ave, Bowdle SD 57428 Phone: 605 285-6346

Amount of Water Claimed: no add'l Total Acres: 130

Source of Water Supply: groundwater (6-8 wells)

Water to be used for: irrigation County: Edmunds

Type of Waste Disposal System:

Location: 2 miles southwest of Bowdle

PRIORITY Date Received: 2-28-08

Application/License Fee: \$50

Corrected Application Received: 3-12-08

Period of Annual Use: April 1 – September 30

Remarks: Water Permit No. 6794-3 authorized 1 well. This application is proposing an additional 7 wells.

Diversion Point: W ½ SE ¼ Sec 5-T122N-R73W

Land to be Irrigated: SW ¼ Sec 5-T122N-R73W

Depth of Well: 40 – 45 feet deep

Well Driller: : K & K Well Drilling

Remarks:

Type of Map: aerial

Prepared by: K J Kehrwald, NRCS

SOUTH DAKOTA
WATER PERMIT NO. 6794A-3

Date of first receipt of application February 28, 2008.

Date of return to applicant for corrections, amendments or changes March 5, 2008.

Date of receipt of corrected application March 12, 2008.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 6794A-3 to Hoffman Farms, c/o Maurice Hoffman, 13754 323rd Ave, Bowdle SD 57428 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6794A-3 authorizes changing the location of the irrigated acreage and adds an additional seven wells to what is authorized by Water Permit No. 6794-3. Water Permit No. 6794-3 appropriates 1.78 cubic feet of water per second from one well to irrigate 130 acres located W 1/2 SE 1/4, E 1/2 SW 1/4 Section 5-T122N-R73W. This permit authorizes seven additional wells completed into the Bowdle Edmunds Aquifer (up to 45 feet deep) located in the W 1/2 SW 1/4 Section 5 to irrigate 130 acres located in the SW 1/4 Section 5; all in T122N-R73W. This application does not increase the authorized diversion rate of 1.78 cfs.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: April 1 – September 30.
3. The date from which applicant may claim right is November 13, 2006 (established by Water Permit No. 6794-3).
4. The date of approval of Permit No. 6794A-3 is June 2, 2008.
5. One-fifth of the construction is to be completed on or before December 2, 2010.
6. All construction is to be completed on or before June 2, 2013.
7. Water is to be put to beneficial use on or before June 2, 2017.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The wells authorized by Permit No. 6794A-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

Hoffman Farms
c/o Maurice Hoffman
13754 323rd Ave
Bowdle SD 57428

Dear Mr. Hoffman:

Thank you for submitting the two *Applications for a Permit to Appropriate Water* for irrigation in Edmunds County.

The application to irrigate 130 acres located in the NW ¼ Section 5-T122N-R73W is complete. We received your check for \$300 which is the correct fee for irrigation of 130 acres.

Regarding the application for additional wells and to change the location of the irrigated acreage authorized by Water Permit No. 6794-3, a \$50 application filing fee will be required. Water Permit No. 6794-3 authorized irrigation of 130 acres located in the W ½ SE ¼, E ½ SW ¼ Section 5-T122N-R73W. From the map submitted with the application, it appears that the pivot was constructed in the SW ¼ Section 5. Is this correct?

Upon receipt of the fee, further processing of both applications will continue. If you have any questions, please contact me.

Sincerely,

Karen Schlaak

Maurice Hoffman
Hoffman Farms
13754 323rd Avenue
Bowdle SD 57428

Dear Mr. Hoffman:

Hoffman Farms currently has two water right permit applications pending for irrigation. They are:

- Application No. 6996-3 to appropriate 800 gpm from up to 8 wells to irrigate 130 acres in the NW ¼ Section 5, T122N, R73W.
- Application No. 6794A-3 proposing to amend Permit No. 6794-3 to change the acreage location and specify that the total of 8 well will be used to irrigate the SW ¼ Section 5, T122N, R73W.

As you are aware, a neighboring application for irrigation filed by Hoffman Harvesting has been contested. The hearing on this application is now scheduled for July 2nd in Pierre. Since Hoffman Harvesting's application was filed before your application, we can not proceed to public notice these application in a manner that they could be approved prior to the Board making a determination on this earlier application. Therefore, we will be public noticing Application Nos. 6794A-3 and 6996-3 for the July meeting so that the Board can hear all the applications at the same time. The public notice for Hoffman Farms' two applications will be sent for publishing in the newspaper in mid-May.

Please contact me if you have any questions.

Sincerely,

Eric Gronlund

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6794A-3, Hoffman Farms**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6794A-3, Hoffman Farms, c/o Maurice Hoffman, 13754 323rd Avenue, Bowdle SD 57428.

The Chief Engineer is recommending APPROVAL of Application No. 6794A-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The wells authorized by Permit No. 6794A-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

See report on application for additional information.

Garland Erbele, Chief Engineer
April 23, 2008

REPORT ON WATER PERMIT APPLICATION NO. 6794A-3
For Hoffman Farms
April 16, 2008

Application No. 6794A-3 proposes to change the location of irrigated acreage and add an additional seven wells to what is authorized by Water Permit No. 6794-3. Water Permit No. 6794-3 appropriates 1.78 cfs (800 gpm) from one well to irrigate 130 acres located in the W $\frac{1}{2}$ SE $\frac{1}{4}$ and the E $\frac{1}{2}$ SW $\frac{1}{4}$ of section 5, T122N R73W. This application proposes seven additional wells approximately 45 feet deep located in the W $\frac{1}{2}$ SW $\frac{1}{4}$ of section 5 to irrigate 130 acres located in the SW $\frac{1}{4}$ of section 5; all in T122N R73W in Edmunds County. This application does not request an increase in the approved diversion rate.

AQUIFER – BOWDLE EDMUNDS (B-E)

The Bowdle Edmunds is a predominantly surficial outwash (sand and gravel) that appears to be under water table conditions in this area. The aquifer underlies 36,000 acres and contains an estimated 108,000 acre-feet of recoverable water in storage in Walworth County (Hedges, 1982). The aquifer extends into Walworth County to the west and south and the general direction of ground water movement is from northeast to southwest (Kume, 1987). Hamilton reports that potential well yields in this area of the aquifer could vary from 5 to 500 gpm (Hamilton, 1982). The well yield is dependent upon the saturated thickness of the aquifer at any given site. This is the major reason for drilling a number of test holes to evaluate the aquifer potential at any site.

The applicant has now drilled a number of test wells. Apparently eight total wells have been drilled in the W $\frac{1}{2}$ SW $\frac{1}{4}$ of section 5 as shown on the map. These six inch wells are 45, 43, 30, 34, 40, 40, 43, 40 feet deep and produce 100 gpm each respectively. These wells have specific capacities ranging from 20 gpm/ft of drawdown to about 6 gpm/ft of drawdown. Some of these wells as tested by the well driller may not be dependable as a source for irrigation water.

The Water Rights Program monitors three observation wells ED-75A, ED-75B and WL-75U all located within a two mile radius of this site and completed into the Bowdle Edmunds aquifer. Water levels for these wells show good response to climatic conditions. Water levels rise during wet years (recharge) and gradually decline during dry years. In general the water level record indicates the aquifer is capable of sustaining additional withdrawals (Water Rights, 2008). Hydrographs for these three observation wells are included with this report. Note the typical pattern of the hydrograph showing the lack of effects of pumping and the overall affect of the climatic conditions. It is apparent from the observation well hydrographs that water levels may decline a few feet during an extended period drought. Because these shallow wells are so dependent upon the water level to maintain pumping capacity these wells may fail at a time when the water is most needed.

REVIEW OF EXISTING WATER PERMITS/RIGHTS

The nearest existing permitted ground water user is located about one half mile to the west. That is irrigation water permit No. 6415-3 (three wells, 1.78 cfs, 130 acres irrigated). The wells for this permit should be located about one-quarter mile to the west and south of the wells for this application. That assumes those permitted wells were

drilled or will be drilled at the proposed locations. If the applicant is able to develop sufficient water at this site there may be interference between his own wells (drilled close together) that is a consideration the applicant must evaluate on his own. Interference with other water permits/right is not a concern. The distance between the two water permits is sufficient to minimize any potential impacts.

CONCLUSIONS

1. Water is available from the Bowdle Edmunds aquifer.
2. The aquifer appears to be under water table conditions in this area. Drawdown created by pumping should not be significant very far from the individual production wells. The diversion rates appear to be relatively small for each of the well sites.
3. These wells must be constructed in accordance with SD Well Construction Standards.
4. Interference should not be a concern. The only affect of pumping should be the applicant on his own wells.

James A Goodman
Natural Resources Engineer

Public Notices Protect Your Right to Know!

PUBLIC NOTICE

NOTICE OF APPLICATION NOS. 6996-3 to Appropriate Water and 6794A-3 to amend Permit No. 6794-3

Notice is given that Hoffman Farms,
c/o Maurice Hoffman, 13754 323rd Ave,
Bowdle SD 57428 has filed the following
applications for a water permit.

Application No. 6996-3 proposes to
appropriate 1.78 cubic feet of water per
second (cfs) from eight wells to be com-
pleted into the Bowdle Edmunds Aquifer
(up to 45 feet deep) located in SW 1/4
NW 1/4 and NW 1/4 SW 1/4 Section 5 to
irrigate 130 acres located in the NW 1/4
Section 5; all in T122N-R73W.

Application No. 6794A-3 proposes to
change the location of the irrigated
acreage and add an additional seven
wells to what is authorized by Water
Permit No. 6794-3. Water Permit No.
6794-3 appropriates 1.78 cfs from one
well to irrigate 130 acres located W 1/2
SE 1/4, E 1/2 SW 1/4 Section 5-T122N-
R73W. This application proposes seven
additional wells completed into the
Bowdle Edmunds Aquifer (up to 45 feet
deep) located in the W 1/2 SW 1/4
Section 5 to irrigate 130 acres located in
the SW 1/4 Section 5; all in T122N-
R73W. This application does not
increase the authorized diversion rate of
1.78 cfs.

Pursuant to SDCL 46-2A-2, the Chief
Engineer recommends APPROVAL of

Application Nos. 6996-3 and 6794A-3
because 1) unappropriated water is avail-
able, 2) existing rights will not be unlaw-
fully impaired, 3) it is a beneficial use of
water, and 4) it is in the public interest. In
accordance with SDCL 46-2A-23, the
Chief Engineer will act on these applica-
tions, as recommended, unless a petition
is filed opposing the applications or the
applicant files a petition contesting the
Chief Engineer's recommendations. If a
petition opposing the applications or con-
testing the recommendations is filed, then
a hearing will be scheduled and the
Water Management Board will consider
the application. Notice of the hearing will
be given to the applicant and any person
filing a petition.

Any person interested in opposing or
supporting these applications or recom-
mendations must file a written petition
with BOTH the applicant and Chief
Engineer. The applicant must file a peti-
tion if contesting the Chief Engineer's re-
commendations. The Chief Engineer's
address is "Water Rights Program, Foss
Building, 523 E Capitol, Pierre SD 57501
(605 773-3352)" and the applicant's mail-
ing address is given above. A petition
filed by either an interested person or the
applicant must be filed by June 2, 2008.

The petition may be informal, but must
include a statement describing the peti-
tioner's interest in the applications, the
petitioner's reasons for opposing or sup-
porting the applications, and the signa-
ture and mailing address of the petitioner
or the petitioner's legal counsel, if legal
counsel is obtained. Contact Eric
Gronlund at the above Water Rights
Program address to request copies of
information pertaining to these applica-
tions.

ATTENTION: Legal Public Notice

Enclosed is a Notice on Application Nos. 6996-3 & 6794A-3 to Appropriate Water to be published twice. Please publish the first notice on May 14, 2008 with the second publication 7 days later. The text of the notice can be e-mailed to your paper by contacting Karen Schlaak at (605) 773-3352.

The applicant must verify to you that the notice is to be published, before you make the first publication. **Please BILL the APPLICANT for the cost of publication.** The APPLICANT is Hoffman Farms, Maurice Hoffman, 13754 323rd Ave, Bowdle SD 57428 (Ph # 605-285-6346).

Please send the Water Rights Program the first publication immediately. The publication is checked for accuracy so any corrections can be made in the second publication. You may use the form below or fax a copy of the first publication. Any fax should be sent to the attention of Karen Schlaak at (605) 773-4068. Publication errors can invalidate the public notice.

After the second publication, **please send us an affidavit or use the enclosed Proof of Publication form.** The applicant pays the cost of publication, but the Water Rights Program records require an affidavit or Proof of Publication. Delays in receiving the affidavit can be costly to the applicant.

Sincerely,

Eric Gronlund
Natural Resources Engineer

Bowdle SD 57428

Dear Mr. Hoffman

Water Permit Application Nos. 6996-3 & 6794A-3 for irrigation use have been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice has been sent to the Publisher of the Roscoe-Hosmer Independent printed at Ipswich SD (Ph # 605-426-6471). You will need to contact the newspaper and authorize publication of this notice. For your information, a copy of the notice, the recommendations of the Chief Engineer and reports on the applications are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice and to arrange for payment. Early contact with the paper can eliminate delays. Upon receiving authorization, the publisher has been instructed to publish your notice once each week for two consecutive weeks. The newspaper has also been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendations, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Instruction to Newspaper - Publish first Notice on May 14, 2008 with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NOS. 6996-3 to Appropriate Water and 6794A-3 to amend Permit No. 6794-3

Notice is given that Hoffman Farms, c/o Maurice Hoffman, 13754 323rd Ave, Bowdle SD 57428 has filed the following applications for a water permit.

Application No. 6996-3 proposes to appropriate 1.78 cubic feet of water per second (cfs) from eight wells to be completed into the Bowdle Edmunds Aquifer (up to 45 feet deep) located in SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 5 to irrigate 130 acres located in the NW $\frac{1}{4}$ Section 5; all in T122N-R73W.

Application No. 6794A-3 proposes to change the location of the irrigated acreage and add an additional seven wells to what is authorized by Water Permit No. 6794-3. Water Permit No. 6794-3 appropriates 1.78 cfs from one well to irrigate 130 acres located W $\frac{1}{2}$ SE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ Section 5-T122N-R73W. This application proposes seven additional wells completed into the Bowdle Edmunds Aquifer (up to 45 feet deep) located in the W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 5 to irrigate 130 acres located in the SW $\frac{1}{4}$ Section 5; all in T122N-R73W. This application does not increase the authorized diversion rate of 1.78 cfs.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application Nos. 6996-3 and 6794A-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on these applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the Chief Engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendations. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by June 2, 2008.

The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to these applications. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

13754 323rd Ave
Bowdle SD 57428

Dear Mr. Hoffman:

Enclosed are Water Permit Nos. 6794A-3 and 6996-3 authorizing construction of your water diversion systems and beneficial use of the water, not exceeding the limits as specified in the Water Permits.

Form 10's, *Notice of Completion of Works and Application of Water to Beneficial Use*, are enclosed. Please return the completed forms after you have finished the systems and have put the water to beneficial use. An investigation can then be scheduled so the water licenses may be issued, thus completing the acquisition of a water right.

An informational sheet ? *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Garland Erbele, Chief Engineer

Dear Mr. Hoffman:

I am writing to acknowledge receipt of the "Notice of Completion of Works" forms that you sent in to let us know that you are completed with your irrigation systems.

The systems are now ready for inspection. Inspections are done on a county-by-county basis as staff time permits. You have done everything you need to do and the intervening time between the completion of your projects and the staff inspection has no bearing on your water permits.

Someone from our office will contact you prior to the inspection to set up a time that is convenient for you. If you have any questions, please contact me.

Sincerely,

Genny McMath

**Water Permit Nos. 6794-3 and 6794A-3
Edmunds County**

Report of Examination of Works and/or Application of Water to Beneficial Use

To: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, August 19, 2013 made a thorough examination of the water system used by Hoffman Farms, 13754 323rd Ave, Bowdle, SD 57428, holder of Water Permit No. 6794-3 and 6794A-3, bearing the priority dates of November 13, 2006 and February 28, 2008, respectively. Water Permit No. 6794-3 authorizes the diversion of 1.78 cubic feet per second (cfs) from one well completed into the Edmunds Management Unit of the Bowdle aquifer at approximately 45 feet below ground surface for the purposes of irrigating 130 acres in Edmunds County as follows: 32.5 acres in the NE ¼ SW ¼ of Section 5, 32.5 acres in the SE ¼ SW ¼ of Section 5, 32.5 acres in the NW ¼ SE ¼ of Section 5, and 32.5 acres in the SW ¼ SE ¼ of Section 5, all in T122N-R73W.

Water Permit No. 6794A-3 authorizes the construction of an addition seven wells and changes the location of the lands irrigated under Water Permit No. 6794-3 to the following: 30 acres in the NW ¼ SW ¼ of Section 5, 35 acres in the NE ¼ SW ¼ of Section 5, 35 acres in the SE ¼ SW ¼ of Section 5, and 30 acres in the SW ¼ SW ¼ of Section 5, all in T122N-R73W. Water Permit No. 6794A-3 does not authorize an increase in the maximum diversion rate of 1.78 cfs.

I have the following conditions to report for the system in question:

- 1) Works used to divert water:
Eight irrigation pumps, manufacturer unknown. One booster pump by American Marsh Pumps.
- 2) Works used to transport water to a place of use:
Underground pipes.
- 3) Works used to apply water to beneficial use:
One Valley 8000 Pivot.

The system is in the following condition: well maintained. The wells are in the following locations:

- 1) **1,200 feet north and 100 feet west of the southwest corner of Section 5, T122N-R73W. Lat 45.40845N Lon 99.68778N.**
- 2) **1,400 feet north and 100 feet west of the southwest corner of Section 5, T122N-R73W. Lat 45.40837N Lon 99.68785N.**
- 3) **1,600 feet north and 100 feet west of the southwest corner of Section 5, T122N-R73W. Lat 45.40912N Lon 99.68778N.**
- 4) **1,800 feet north and 100 feet west of the southwest corner of Section 5, T122N-R73W. Lat 45.41005N Lon 99.68777N.**
- 5) **2,000 feet north and 100 feet west of the southwest corner of Section 5, T122N-R73W. Lat 45.41050N Lon 99.68777N.**
- 6) **2,200 feet north and 100 feet west of the southwest corner of Section 5, T122N-R73W. Lat 45.41115N Lon 99.68775N.**

- 7) **2,400 feet north and 100 feet west of the southwest corner of Section 5, T122N-R73W. Lat 45.41165 N Lon 99.68770N.**
- 8) **2,600 feet north and 100 feet west of the southwest corner of Section 5, T122N-R73W. Lat 45.41235N Lon 99.68770N.**

The lands irrigated by the fore mentioned well are as follows:

- 1) **32.5 acres in the NW ¼ SW ¼ of Section 5, T122N-R73W.**
- 2) **32.5 acres in the SW ¼ SW ¼ of Section 5, T122N-R73W.**
- 3) **32.5 acres in the NE ¼ SW ¼ of Section 5, T122N-R73W.**
- 4) **32.5 acres in the SE ¼ SW ¼ of Section 5, T122N-R73W.**

For a total of 130 acres.

License should be issued for the diversion rate of: **1.67 cfs or 750 gpm.**

Applicable permit qualifications have been complied with: **Yes**

Exceptions to compliance are: **None**

Date Report Completed: **June 17, 2015**

6794-3
6794A-3

Maurice Hoffman
Hoffman Farms
13754 323rd Ave
Bowdle SD 57428

Dear Mr. Hoffman:

Enclosed is Water License No. 6794A-3. This is the final water right document completing your process of obtaining a Water Right. Included with your license is a map prepared by the staff engineer who conducted the field investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 6794A-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Jeanne Goodman, Chief Engineer
Water Rights Program
(605) 773-3352

enclosures

Note: The applicable portions of Water Permit No. 6794-3 have been incorporated into Water Right No. 6794A-3.

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 6794A-3

(1) Maurice Hoffman, Hoffman Farms, 13754 323rd Ave., Bowdle SD 57428 made Application No. 6794A-3, February 28, 2008 for a water permit to change the location of irrigated acreage and add seven wells (Bowdle Edmunds Aquifer) to what is authorized by Water Permit No. 6794-3. The irrigation project is located in Edmunds County, South Dakota. Permit No. 6794A-3, with a priority date of November 13, 2006 (established under No. 6794-3) was approved June 2, 2008 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before June 2, 2013 and for the application to beneficial use of said water on or before June 2, 2017.

Water Permit No. 6794-3, with a priority date of November 13, 2006, authorizes 1.78 cubic feet of water per second (cfs) from one well (Bowdle Edmunds Aquifer) to irrigate 130 acres in the W ½ SE ¼ and E ½ SW ¼ Section 5, T122N, R73W. Water Permit No. 6794A-3 authorized the acreage to be shifted west to cover only the SW ¼ of Section 5. Seven wells were added for operation of the center pivot.

The applicable portions of Water Permit No. 6794-3 are incorporated into Water License No. 6794A-3 for the total 130 acres developed and pivot capacity of 1.67 cfs (750 gpm).

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.67 cubic feet of water per second for beneficial use. The diversion points are located along the west side of the SW quarter of Section 5, T122N, R73W more specifically described as:

- 1) 1,200 feet north and 100 feet west of the SW corner of Section 5, T122N, R73W (SW ¼ SW ¼);
- 2) 1,400 feet north and 100 feet west of the SW corner of Section 5, T122N, R73W (NW ¼ SW ¼);
- 3) 1,600 feet north and 100 feet west of the SW corner of Section 5, T122N, R73W (NW ¼ SW ¼);
- 4) 1,800 feet north and 100 feet west of the SW corner of Section 5, T122N, R73W (NW ¼ SW ¼);
- 5) 2,000 feet north and 100 feet west of the SW corner of Section 5, T122N, R73W (NW ¼ SW ¼);
- 6) 2,200 feet north and 100 feet west of the SW corner of Section 5, T122N, R73W (NW ¼ SW ¼);
- 7) 2,400 feet north and 100 feet west of the SW corner of Section 5, T122N, R73W (NW ¼ SW ¼);
- 8) 2,600 feet north and 100 feet west of the SW corner of Section 5, T122N, R73W (NW ¼ SW ¼);

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 5, T122N, R73W	NW ¼ SW ¼	32.5 acres
	SW ¼ SW ¼	32.5 acres
	NE ¼ SW ¼	32.5 acres
	SE ¼ SW ¼	32.5 acres
Total		130.0 acres

continued

(4) Pursuant to South Dakota Water Law 46-5-30.1 Maurice Hoffman, Hoffman Farms, 13754 323rd Ave., Bowdle SD 57428 the holder and/or owner of Incorporated Water Right No. 6794A-3 is issued a license to appropriate water, the right to use 1.67 cubic feet of water per second from ground water (8 wells, Bowdle Edmunds Aquifer) with a priority date of November 13, 2006 from the location specified in (2) of this license for irrigation purposes.

This license is subject to South Dakota Water Law, any limitations or conditions listed in Incorporated Water Right No. 6794A-3 and subject to the following qualifications:

- The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
- The wells authorized by Permit Nos. 6794-3 and 6794A-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with the Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28. *(All eight wells were drilled by K & K Drilling)*
- This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

Jeanne Goodman, Chief Engineer
Water Rights Program
