Application For Permit To Appropriate Water For Irrigation

 Type of Application: ☒ New ☐ Vested Right ☐ Amendment/Correction to Permit No. _____
 (Use predates Mar 2, 1955)

Description of amendment/correction: (i.e. change diversion point(s), add diversion point(s), change use, etc.)

- Name of Applicant Schenk, Karl Phone 605-665-6113
 (check one) ☒ Owner ☐ Tenant/lessee
 Mailing Address 44352 308th Street State SD 57046
 (Street, RR, or Box and City) (Zip Code)
- Amount of water claimed 1.78*CFS or 800**GPM ***AF Total Acreage 70
 (*Cubic Feet per Second) (**Gallons per Minute) (***Acre Feet - storage capacity of dam/dugout or annual use if applicable)
- Source of water supply well, ground water
- Location of point of diversion (example - 3 wells in SW1/4 NE1/4 section 12-T104N-R53W) County Yankton
one well at the midpoint of south boundary of the north
half of the southeast 1/4 section 17, T94N R54 W.
- County or counties where water will be used Yankton
- Annual period during which water is to be used 2007 - may - september 30
- List below each forty acre division, or lot, or fraction thereof and show number of acres to be irrigated in each.
 (Attach sheet if more space is needed)

NW 1/4	Land Description	Acres	Land Description	Acres
W 1/2 N 1/2 SE 1/4	S.17 94-54	35

**SOUTH DAKOTA
WATER PERMIT NO. 6916-3**

Date of first receipt of application December 7, 2007.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 6916-3 to Karl Schenk, 44352 308th St, Mission Hill SD 57046 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6916-3 appropriates 1.78 cubic feet of water per second (cfs) from one well to be completed into the Missouri:Elk Point Aquifer (approximately 80-100 feet deep) located in the approximate center of the SE 1/4 Section 17 to irrigate 70 acres located in the N 1/2 SE 1/4 Section 17; all in T94N-R54W.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: May 1 – September 30.
3. The date from which applicant may claim right is December 7, 2007.
4. The date of approval of Permit No. 6916-3 is February 4, 2008.
5. One-fifth of the construction is to be completed on or before August 4, 2010.
6. All construction is to be completed on or before February 4, 2013.
7. Water is to be put to beneficial use on or before February 4, 2017.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6916-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. Pursuant to SDCL 46-5-6 which allows a greater diversion rate if the method of irrigation, time constraints, or type of soils so require, Permit No. 6916-3 authorizes a maximum diversion rate of 1.78 cfs for the irrigation of 70 acres with an annual volume not to exceed 2 acre-feet of water per acre per year.
4. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

**WATER RIGHTS
PROGRAM**

To Whom it may concern:

Enclosed please find five irrigation permit applications.

The Clay County irrigation application is on property that was once irrigated. It's permit number was 3036-3. Most of the particulars shall remain the same. The only difference shall be a submersible pump instead of a turbine drive pump. The pivot will be a 7 tower Valley instead of the 10 tower Lockwood. The same well is being utilized.

Most of the applications are for half circle center pivot fields. So, if the amount of water requested exceeds the allowable amount; the reason for the extra water requirement is so the center pivot will function properly.

Please contact me with any questions.

Sincerely,

Karl M. Schenk

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6916-3, Karl Schenk**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6916-3, Karl Schenk, 44352 308th Street, Mission Hill SD 57046.

The Chief Engineer is recommending APPROVAL of Application No. 6916-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6916-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. Pursuant to SDCL 46-5-6 which allows a greater diversion rate if the method of irrigation, time constraints, or type of soils so require, Permit No. 6916-3 authorizes a maximum diversion rate of 1.78 cfs for the irrigation of 70 acres with an annual volume not to exceed 2 acre-feet of water per acre per year.
4. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

See report on application for additional information.

Garland Erbele, Chief Engineer
January 10, 2008

REPORT ON WATER PERMIT APPLICATION NO. 6916-3

For Karl Schenk

January 8, 2008

Application No. 6916-3 proposes to appropriate 1.78 cfs from one well approximately 80-100 feet deep located in the approximate center of the SE $\frac{1}{4}$ of section 17 to irrigate 70 acres located in the N $\frac{1}{2}$ SE $\frac{1}{4}$ of section 17; all in T94N R54W in Yankton County. The applicant is requesting a diversion rate greater than the statutory limit of one cfs per 70 acres.

AQUIFER – MISSOURI ELK POINT (M-EP)

The Missouri Elk Point aquifer is a surficial outwash (sand and gravel) that is under water table conditions in this portion of Yankton County. The aquifer underlies 45,000 acres and contains an estimated 675,000 acre-feet of recoverable water in storage in Yankton County (Hedges, 1982). The aquifer extends into Clay County to the east, blends into the Lower James Missouri aquifer to the north and is hydraulically connected to the James and Missouri Rivers over portions of Yankton County. Bugliosi in the Yankton County Study divided the Lower James Missouri aquifer into the northern and southern areas which roughly coincide with the Lower James Missouri aquifer and Missouri Elk Point aquifer as mapped by Hedges. The aquifer is prolific and well yields can be expected to be at least 500 gpm and may be more than 1,000 gpm (Bugliosi, 1986).

No test wells were drilled for this application. The estimate of 80-100 feet is not documented but certainly should be close to penetrating the entire aquifer at this site. Test wells need to be drilled to determine if the site has sufficient water for development for irrigation. The county study, other irrigation and domestic wells and observation wells all indicate irrigation potential. Also this area should have about 100 feet of saturated thickness in the aquifer (Bugliosi, 1986).

The Water Rights Program monitors two observation wells YA-80JA (located within one-half mile southeast) and YA-78J (located about one mile north) both from this proposed well site. Water levels for these wells show good response to climatic conditions. The water levels rise during wet years (recharge) and gradually decline during dry years. In general the water level record indicates that the aquifer is capable of sustaining additional withdrawals (Water Rights, 2007). Hydrographs for these observation wells are included with this report.

REVIEW OF EXISTING WATER PERMITS/RIGHTS

The nearest existing water permit is No. 6897-3 with that well located about three fourth mile south of this proposed well site. Drawdown created by pumping at this distance is not expected to be significant. This is shown by the observation well hydrograph for YA-80JA that is located within one-half mile of the proposed irrigation well. Interference is not expected to be a concern.

CONCLUSIONS

1. Water is available from the Missouri Elk Point aquifer.
2. The aquifer is under water table conditions in this area. Drawdown created by pumping is not expected to be significant. Interference is not a concern.
3. The well authorized by this application must be constructed in accordance with SD Well Construction Standards.
4. The applicant requests pumping at a rate greater than the statutory limit of one cfs per 70 acres. The design of this system dictates that the requested pumping rate be approved. The volume of water authorized remains two acre feet per acre (140 acre-feet annually).

James A Goodman
Natural Resources Engineer

**NOTICE OF APPLICATION
NOS. 6915-3 thru 6918-3 to
Appropriate Water**

Notice is given that Karl Schenk,
44352 308th St, Mission Hill SD
57046 has filed the following
applications for a water permit.

Application No. 6915-3 proposes
to appropriate 1.78 cubic feet of
water per second (cfs) from one
well to be completed into the
Lower James:Missouri Aquifer
(approximately 180 feet deep)
located in approximate center of
the NW 1/4 Section 13 to irrigate
70 acres located in the S 1/2 NW
1/4 Section 13; all in T94N-R55W.
The applicant is requesting a
diversion rate greater than the
statutory limit of 1 cfs per 70
acres.

Application No. 6916-3 proposes
to appropriate 1.78 cfs from one
well to be completed into the
Missouri:Elk Point Aquifer
(approximately 80-100 feet deep)
located in the approximate center
of the SE 1/4 Section 17 to irrigate
70 acres located in the N 1/2 SE
1/4 Section 17; all in T94N-R54W.
The applicant is requesting a
diversion rate greater than the
statutory limit of 1 cfs per 70
acres.

Application No. 6917-3 proposes
to appropriate 1.78 cfs from one
well to be completed into the
Lower James:Missouri Aquifer
(approximate 180 feet deep) locat-
ed in the approximate center of the
SW 1/4 Section 26 to irrigate 140
acres located in the SW 1/4
Section 26; all in T94N-R55W.

Application No. 6918-3 proposes
to appropriate 1.33 cfs from one
well to be completed into the
Missouri:Elk Point Aquifer
(approximately 80-100 feet deep)
located in the approximate center
of the SW 1/4 Section 27 to irri-
gate 55 acres located in the E 1/2
SW 1/4 Section 27; all in T94N-
R55W. The applicant is requesting
a diversion rate greater than the
statutory limit of 1 cfs per 70
acres.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application Nos. 6915-3, 6916-3, 6917-3 and 6918-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on these applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the Chief Engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the applications. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by February 4, 2008.

The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to the applications. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

ATTENTION: Legal Public Notice

Enclosed is a Notice on Application Nos. 6915-3 thru 6918-3 to Appropriate Water to be published twice. Please publish the first notice on January 17, 2008 with the second publication 7 days later. The text of the notice can be e-mailed to your paper by contacting Karen Schlaak at (605) 773-3352.

The applicant must verify to you that the notice is to be published, before you make the first publication. **Please BILL the APPLICANT for the cost of publication.** The APPLICANT is Karl Schenk, 44352 308th St, Mission Hill SD 57046 (Ph # 605-665-6113).

Please send the Water Rights Program the first publication immediately. The publication is checked for accuracy so any corrections can be made in the second publication. You may use the form below or fax a copy of the first publication. Any fax should be sent to the attention of Karen Schlaak at (605) 773-4068. Publication errors can invalidate the public notice.

After the second publication, **please send us an affidavit or use the enclosed Proof of Publication form.** The applicant pays the cost of publication, but the Water Rights Program records require an affidavit or Proof of Publication. Delays in receiving the affidavit can be costly to the applicant.

Sincerely,

Eric Gronlund
Natural Resources Engineer

Dear Mr. Schenk:

Water Permit Application Nos. 6915-3 thru 6918-3 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice has been sent to the Publisher of the Daily Press & Dakotan printed at Yankton SD (Ph # 605-665-7811). You will need to contact the newspaper and authorize publication of this notice. For your information, a copy of the notice, the recommendations of the Chief Engineer and reports on the applications are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notices and to arrange for payment. Early contact with the paper can eliminate delays. Upon receiving authorization, the publisher has been instructed to publish your notice once each week for two consecutive weeks. The newspaper has also been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the applications.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Instruction to Newspaper - Publish first Notice on January 17, 2008 with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NOS. 6915-3 thru 6918-3 to Appropriate Water

Notice is given that Karl Schenk, 44352 308th St, Mission Hill SD 57046 has filed the following applications for a water permit.

Application No. 6915-3 proposes to appropriate 1.78 cubic feet of water per second (cfs) from one well to be completed into the Lower James:Missouri Aquifer (approximately 180 feet deep) located in approximate center of the NW ¼ Section 13 to irrigate 70 acres located in the S ½ NW ¼ Section 13; all in T94N-R55W. The applicant is requesting a diversion rate greater than the statutory limit of 1 cfs per 70 acres.

Application No. 6916-3 proposes to appropriate 1.78 cfs from one well to be completed into the Missouri:Elk Point Aquifer (approximately 80-100 feet deep) located in the approximate center of the SE ¼ Section 17 to irrigate 70 acres located in the N ½ SE ¼ Section 17; all in T94N-R54W. The applicant is requesting a diversion rate greater than the statutory limit of 1 cfs per 70 acres.

Application No. 6917-3 proposes to appropriate 1.78 cfs from one well to be completed into the Lower James:Missouri Aquifer (approximate 180 feet deep) located in the approximate center of the SW ¼ Section 26 to irrigate 140 acres located in the SW ¼ Section 26; all in T94N-R55W.

Application No. 6918-3 proposes to appropriate 1.33 cfs from one well to be completed into the Missouri:Elk Point Aquifer (approximately 80-100 feet deep) located in the approximate center of the SW ¼ Section 27 to irrigate 55 acres located in the E ½ SW ¼ Section 27; all in T94N-R55W. The applicant is requesting a diversion rate greater than the statutory limit of 1 cfs per 70 acres.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application Nos. 6915-3, 6916-3, 6917-3 and 6918-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on these applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the Chief Engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the applications. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by February 4, 2008.

The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to the applications. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

Mission Hill SD 57046

Dear Mr. Schenk:

Enclosed are Water Permit Nos. 6915-3, 6916-3, 6917-3 & 6923-3 authorizing construction of your water diversion systems and beneficial use of the water, not exceeding the limits as specified in the Water Permits.

Form 10's, *Notice of Completion of Works and Application of Water to Beneficial Use*, are enclosed. Please return the completed forms after you have finished the systems and have put the water to beneficial use. An investigation can then be scheduled so the water licenses may be issued, thus completing the acquisition of a water right.

An informational sheet ? *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program

Karl M Schenk
44352 308th St
Mission Hill SD 57046

Dear Mr. Schenk:

Enclosed are Water License Nos. 6838-3, 6917-3, 6918-3, 6939-3, 7240-3, 7241-3, 7670-3, 7819-3 and 7842-3. These are the final water right documents completing your process of obtaining a Water Right. Also, included with each license is a map prepared by the staff engineer who conducted the investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the wells authorized by these water rights, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water Licenses, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Jeanne Goodman, Chief Engineer
Water Rights Program
(605) 773-3352

Note: The applicable portions of No. 6916-3 are incorporated into Water License No. 7670-3.
The applicable portions of No. 7669-3 are incorporated into Water License No. 7842-3.
