SOUTH DAKOTA
WATER PERMIT NO. 6918-3

Date of first receipt of application December 7, 2007.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 6918-3 to Karl Schenk, 44352 308th St, Mission Hill SD 57046 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6918-3 appropriates 1.33 cubic feet of water per second (cfs) from one well to be completed into the Lower James:Missouri Aquifer (approximately 80-100 feet deep) located in the approximate center of the SW ¼ Section 27 to irrigate 55 acres located in the E 1/2 SW 1/4 Section 27; all in T94N-R55W.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: May 1 – September 30.
3. The date from which applicant may claim right is December 7, 2007.
4. The date of approval of Permit No. 6918-3 is April 14, 2008.
5. One-fifth of the construction is to be completed on or before October 14, 2010.
6. All construction is to be completed on or before April 14, 2013.
7. Water is to be put to beneficial use on or before April 14, 2017.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6918-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. Pursuant to SDCL 46-5-6 which allows a greater diversion rate if the method of irrigation, time constraints, or type of soils so require, Permit No. 6918-3 authorizes a maximum diversion rate of 1.33 cfs for the irrigation of 55 acres with an annual volume not to exceed 2 acre-feet of water per acre per year.
4. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

**WATER RIGHTS
PROGRAM**

To Whom it may concern:

Enclosed please find five irrigation permit applications.

The Clay County irrigation application is on property that was once irrigated. It's permit number was 3036-3. Most of the particulars shall remain the same. The only difference shall be a submersible pump instead of a turbine drive pump. The pivot will be a 7 tower Valley instead of the 10 tower Lockwood. The same well is being utilized.

Most of the applications are for half circle center pivot fields. So, if the amount of water requested exceeds the allowable amount; the reason for the extra water requirement is so the center pivot will function properly.

Please contact me with any questions.

Sincerely,

Karl M. Schenk

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6918-3, Karl Schenk**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6918-3, Karl Schenk, 44352 308th Street, Mission Hill SD 57046.

The Chief Engineer is recommending APPROVAL of Application No. 6918-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6918-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. Pursuant to SDCL 46-5-6 which allows a greater diversion rate if the method of irrigation, time constraints, or type of soils so require, Permit No. 6918-3 authorizes a maximum diversion rate of 1.33 cfs for the irrigation of 55 acres with an annual volume not to exceed 2 acre-feet of water per acre per year.
4. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

See report on application for additional information.

Garland Erbele, Chief Engineer
January 10, 2008

REPORT ON WATER PERMIT APPLICATION NO. 6918-3
For Karl Schenk
January 8, 2008

Application No. 6918-3 proposes to appropriate 1.33 cfs from one well approximately 80 to 100 feet deep located in the approximate center of the SW $\frac{1}{4}$ of section 27 to irrigate 55 acres located in the E $\frac{1}{2}$ SW $\frac{1}{4}$ of section 27, all in T94N R55W in Yankton County. The applicant is requesting a diversion rate greater than the statutory limit of one cfs per 70 acres.

AQUIFER – LOWER JAMES MISSOURI (LJM)

The Lower James Missouri is a buried outwash (sand and gravel) that can be encountered either under artesian or water table conditions in Yankton County. Even though technically the aquifer may be considered under artesian conditions the behavior of the water levels mimics water table conditions in this area. The aquifer underlies 92,500 acres and contains an estimated 2.08 million acre-feet of recoverable water in storage in Yankton County (Hedges, 1982). The aquifer extends into Hutchinson County to the north, blends into the Missouri Elk Point aquifer to the south and blends into the Lower James Missouri Scotland aquifer to the west (also extending into Bon Homme County). The aquifer appears to be hydraulically connected to the James River over portions of Yankton County. Bugliosi in the Yankton County Study divided the Lower James Missouri aquifer into the northern and southern areas which roughly coincide with the Lower James Missouri and Missouri Elk Point aquifer as mapped by Hedges. The aquifer is prolific and well yields from the Lower James Missouri aquifer can be expected to be at least 500 gpm (Bugliosi, 1986).

No test wells were drilled for this application. The estimate of 80 to 100 feet may not be sufficient to penetrate the entire thickness of the aquifer. In order to develop a prolific irrigation well in this area more than likely the entire thickness of sand and gravel would need to be penetrated. A test well needs to be drilled to determine if the site chosen has sufficient water for development for irrigation. The county study, other irrigation and domestic wells and observation wells all indicate irrigation potential for this area. Also this area should have about 100 feet of saturated thickness in the aquifer (Bugliosi, 1986).

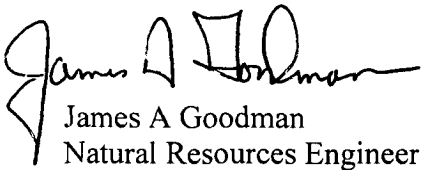

The Water Rights Program monitors one observation well within two miles of this site. This is observation well YA-57C (located about two miles northwest) from this proposed application. Water levels for these wells show good response to climatic conditions. The water levels rise during wet years (recharge) and gradually decline during dry years. In general the water level record indicates that the aquifer is capable of sustaining additional withdrawals (Water Rights, 2007). A hydrograph for this observation well is included with this report.

REVIEW OF EXISTING WATER PERMITS/RIGHTS

The nearest existing Water Right is No. 4556-3 (0.44 cfs, commercial gravel washing) with the dugout for that application located about one-half mile to the southwest. Drawdown created by pumping at this distance is not expected to be significant. This is shown by the observation well hydrograph for YA-57C. Interference is not expected to be a concern.

CONCLUSIONS

1. Water is available from the Lower James Missouri aquifer.
2. Drawdown created by pumping is not expected to be significant. Interference is not a concern.
3. The well authorized by this application must be constructed in accordance with SD Well Construction Standards.
4. The request for a greater rate than one cfs per 70 acres is reasonable because of the proposed design of the irrigation system.

James A Goodman
Natural Resources Engineer

NOTICE OF APPLICATION
NOS. 6915-3 thru 6918-3 to
Appropriate Water

Notice is given that Karl Schenk,
44352 308th St, Mission Hill SD
57046 has filed the following
applications for a water permit.

Application No. 6915-3 proposes
to appropriate 1.78 cubic feet of
water per second (cfs) from one
well to be completed into the
Lower James:Missouri Aquifer
(approximately 180 feet deep)
located in approximate center of
the NW 1/4 Section 13 to irrigate
70 acres located in the S 1/2 NW
1/4 Section 13; all in T94N-R55W.
The applicant is requesting a
diversion rate greater than the
statutory limit of 1 cfs per 70
acres.

Application No. 6916-3 proposes
to appropriate 1.78 cfs from one
well to be completed into the
Missouri:Elk Point Aquifer
(approximately 80-100 feet deep)
located in the approximate center
of the SE 1/4 Section 17 to irrigate
70 acres located in the N 1/2 SE
1/4 Section 17; all in T94N-R54W.
The applicant is requesting a
diversion rate greater than the
statutory limit of 1 cfs per 70
acres.

Application No. 6917-3 proposes
to appropriate 1.78 cfs from one
well to be completed into the
Lower James:Missouri Aquifer
(approximate 180 feet deep) locat-
ed in the approximate center of the
SW 1/4 Section 26 to irrigate 140
acres located in the SW 1/4
Section 26; all in T94N-R55W.

Application No. 6918-3 proposes
to appropriate 1.33 cfs from one
well to be completed into the
Missouri:Elk Point Aquifer
(approximately 80-100 feet deep)
located in the approximate center
of the SW 1/4 Section 27 to irri-
gate 55 acres located in the E 1/2
SW 1/4 Section 27; all in T94N-
R55W. The applicant is requesting
a diversion rate greater than the
statutory limit of 1 cfs per 70
acres.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application Nos. 6915-3, 6916-3, 6917-3 and 6918-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on these applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the Chief Engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the applications. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605.773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by February 4, 2008.

The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to the applications. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

ATTENTION: Legal Public Notice

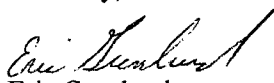

Enclosed is a Notice on Application Nos. 6915-3 thru 6918-3 to Appropriate Water to be published twice. Please publish the first notice on January 17, 2008 with the second publication 7 days later. The text of the notice can be e-mailed to your paper by contacting Karen Schlaak at (605) 773-3352.

The applicant must verify to you that the notice is to be published, before you make the first publication. **Please BILL the APPLICANT for the cost of publication.** The APPLICANT is Karl Schenk, 44352 308th St, Mission Hill SD 57046 (Ph # 605-665-6113).

Please send the Water Rights Program the first publication immediately. The publication is checked for accuracy so any corrections can be made in the second publication. You may use the form below or fax a copy of the first publication. Any fax should be sent to the attention of Karen Schlaak at (605) 773-4068. Publication errors can invalidate the public notice.

After the second publication, **please send us an affidavit or use the enclosed Proof of Publication form.** The applicant pays the cost of publication, but the Water Rights Program records require an affidavit or Proof of Publication. Delays in receiving the affidavit can be costly to the applicant.

Sincerely,

Eric Gronlund
Natural Resources Engineer

Mission Hill SD 57078

Dear Mr. Schenk:

Water Permit Application Nos. 6915-3 thru 6918-3 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice has been sent to the Publisher of the Daily Press & Dakotan printed at Yankton SD (Ph # 605-665-7811). You will need to contact the newspaper and authorize publication of this notice. For your information, a copy of the notice, the recommendations of the Chief Engineer and reports on the applications are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notices and to arrange for payment. Early contact with the paper can eliminate delays. Upon receiving authorization, the publisher has been instructed to publish your notice once each week for two consecutive weeks. The newspaper has also been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the applications.

Sincerely,

Eric Gronlund
Natural Resources Engineer
(605) 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Instruction to Newspaper - Publish first Notice on January 17, 2008 with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NOS. 6915-3 thru 6918-3 to Appropriate Water

Notice is given that Karl Schenk, 44352 308th St, Mission Hill SD 57046 has filed the following applications for a water permit.

Application No. 6915-3 proposes to appropriate 1.78 cubic feet of water per second (cfs) from one well to be completed into the Lower James:Missouri Aquifer (approximately 180 feet deep) located in approximate center of the NW ¼ Section 13 to irrigate 70 acres located in the S ½ NW ¼ Section 13; all in T94N-R55W. The applicant is requesting a diversion rate greater than the statutory limit of 1 cfs per 70 acres.

Application No. 6916-3 proposes to appropriate 1.78 cfs from one well to be completed into the Missouri:Elk Point Aquifer (approximately 80-100 feet deep) located in the approximate center of the SE ¼ Section 17 to irrigate 70 acres located in the N ½ SE ¼ Section 17; all in T94N-R54W. The applicant is requesting a diversion rate greater than the statutory limit of 1 cfs per 70 acres.

Application No. 6917-3 proposes to appropriate 1.78 cfs from one well to be completed into the Lower James:Missouri Aquifer (approximate 180 feet deep) located in the approximate center of the SW ¼ Section 26 to irrigate 140 acres located in the SW ¼ Section 26; all in T94N-R55W.

Application No. 6918-3 proposes to appropriate 1.33 cfs from one well to be completed into the Missouri:Elk Point Aquifer (approximately 80-100 feet deep) located in the approximate center of the SW ¼ Section 27 to irrigate 55 acres located in the E ½ SW ¼ Section 27; all in T94N-R55W. The applicant is requesting a diversion rate greater than the statutory limit of 1 cfs per 70 acres.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application Nos. 6915-3, 6916-3, 6917-3 and 6918-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on these applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the Chief Engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the applications. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by February 4, 2008.

The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to the applications. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

Readvertisement of Notice of
Permit No. 6918-3 to Appropriate
Water

Notice is given of readvertisement of Water Permit No. 6918-3 held by Karl Schenk, 44352 308th St, Mission Hill SD 57046. Water Permit No. 6918-3 appropriates 1.33 cubic feet of water per second from one well to be completed into the Lower James Missouri Aquifer

approximately 80-100 feet deep located in the approximate center of the SW 1/4 Section 27 to irrigate 55 acres located in the E 1/2 SW 1/4 Section 27; all in T94N-R55W. Readvertisement is necessary to correct the aquifer designation as described in the notice published on January 17 and 24, 2008 as being the Missouri-Elk Point Aquifer. This readvertisement does not authorize any increase in water appropriation or number of acres to be irrigated.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of readvertised Permit No. 6918-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on these applications, as recommended, unless a petition is filed opposing the applications or the applicant files a petition contesting the Chief Engineer's recommendations. If a petition opposing the applications or contesting the recommendations is filed, then a hearing will be scheduled and the Water Management Board will consider the applications. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting these applications or recommendations must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by April 14, 2008.

The petition may be informal, but must include a statement describing the petitioner's interest in the applications, the petitioner's reasons for opposing or supporting the applications, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to the applications. Steven M. Pirner, Secretary, Department of Environment and Natural Resources.

RE: Readvertisement of Permit No. 6918-3

COMMENTS:

Upon review of Permit No. 6918-3 prior to issuing the permit we found the notice published on January 17 and 24, 2008 contained an error in the aquifer designation. Readvertisement is necessary to ensure the water permit is free from any legal entanglements due to insufficient public notice.

Water Permit No. 6918-3 appropriates 1.33 cubic feet of water per second from one well to be completed into the Lower James Missouri Aquifer (approximately 80-100 feet deep) located in the approximate center of the SW ¼ Section 27 to irrigate 55 acres located in the E 1/2 SW 1/4 Section 27; all in T94N-R55W. The aquifer designation as described in the original notice was the Missouri:Elk Point Aquifer. This readvertisement does not authorize any increase in water appropriation or number of acres to be irrigated.

ATTENTION: Legal Public Notice

Enclosed is a Readvertisement of Notice of Permit No. 6918-3 to Appropriate Water to be published twice. Please publish the first notice on March 27, 2008 with the second publication 7 days later. The text of the notice can be e-mailed to your paper by contacting Karen Schlaak at (605) 773-3352.

Please bill the Water Right Program for the cost of the publication.

Please send the Water Rights Program the first publication immediately. The publication is checked for accuracy so any corrections can be made in the second publication. You may use the form below or fax a copy of the first publication. Any fax should be sent to the attention of Karen Schlaak at (605) 773-4068. Publication errors can invalidate the public notice.

After the second publication, **please send us an affidavit or use the enclosed Proof of Publication form.** Delays in receiving the affidavit can be costly to the applicant.

Sincerely,

Eric Gronlund

Karl Schenk
44352 308th St
Mission Hill SD 57078

Dear Mr. Schenk:

As I stated in our phone conversation today, Water Permit No. 6918-3 is being readvertised to correct the aquifer designation which should be the Lower James:Missouri Aquifer. By correcting the error, we are ensuring your water permit is free from any legal entanglements due to insufficient public notice.

The notice of readvertisement has been sent to the Publisher of the Daily Press & Dakotan printed at Yankton SD. For your information, a copy of the notice is enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

The cost of publication of this notice will be paid by the Water Rights Division. Please contact us if you have any questions.

Sincerely,

Eric Gronlund
Natural Resources Engineer

Karl Schenk
44352 308th St
Mission Hill SD 57046

Dear Mr. Schenk:

Enclosed is Water Permit No. 6918-3 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, is enclosed. Please return this completed form after you have finished the system and have put the water to beneficial use. An investigation can then be scheduled so the water license may be issued, thus completing the acquisition of a water right.

An informational sheet ? *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Garland Erbele, Chief Engineer

Clay County

Report of Examination of Works and/or Application of Water to Beneficial Use

To: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, September 22, 2014 made a thorough examination of the water system used by the Karl M Schenk, 44352 308th St., Mission Hill, SD 57046, holder of Water Permit No. 6918-3, bearing the priority date of December 7, 2007. Water Permit No. 6918-3 authorizes the diversion of 1.33 cubic feet per second (cfs) from one well completed into the Lower James Missouri aquifer at approximately 80 to 100 feet below ground surface for the purposes of irrigating 55 acres in Yankton County as follows: 35 acres in the SE ¼ SW ¼ of Section 27, 20 acres in the NE ¼ SW ¼ of Section 27, all in T94N-R55W.

I have the following conditions to report for the system in question:

- 1) Works used to divert water:
One irrigation pump, manufactured by Kroy-Midwest
- 2) Works used to transport water to a place of use:
Underground pipes, 6 inch diameter.
- 3) Works used to apply water to beneficial use:
One Grow Smart Pivot

The system is in the following condition: well maintained. The exact location the well is as follows:

- 1) **1,300 feet north and 1,300 feet east of the southwest corner of Section 27, T94N-R55W.**
Lat 42.92697N Lon 97.33282W.

The lands irrigated by the fore mentioned well are as follows:

- 1) 35 acres in the SE ¼ SW ¼ of Section 27, T94N-R55W.
- 2) 20 acres in the NE ¼ SW ¼ of Section 27, T94N-R55W.

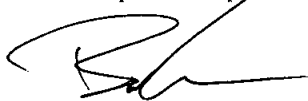

For a total of 55 acres.

License should be issued for the developed diversion rate of: **1.33 cfs or 600 gpm**

Applicable permit qualifications have been complied with: **Yes**

Exceptions to compliance are: **None**

Date Report Completed: **June 5, 2015**

Karl M Schenk
44352 308th St
Mission Hill SD 57046

Dear Mr. Schenk:

Enclosed are Water License Nos. 6838-3, 6917-3, 6918-3, 6939-3, 7240-3, 7241-3, 7670-3, 7819-3 and 7842-3. These are the final water right documents completing your process of obtaining a Water Right. Also, included with each license is a map prepared by the staff engineer who conducted the investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the wells authorized by these water rights, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water Licenses, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Jeanne Goodman, Chief Engineer
Water Rights Program
(605) 773-3352

Note: The applicable portions of No. 6916-3 are incorporated into Water License No. 7670-3.
The applicable portions of No. 7669-3 are incorporated into Water License No. 7842-3.

enclosures

STATE OF SOUTH DAKOTA
WATER LICENSE NO. 6918-3

(1) Karl M Schenk, 44352 308th St, Mission Hill SD 57046 made Application No. 6918-3, December 7, 2007 for a water permit to divert 1.33 cubic feet of water per second (cfs) from one well (Lower James:Missouri Aquifer), Yankton County, South Dakota for irrigation purposes. Permit No. 6918-3, with a priority date of December 7, 2007 was approved April 14, 2008 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before April 14, 2013 and for the application to beneficial use of water on or before April 14, 2017.

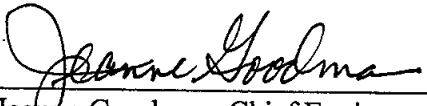

(2) The water supply system has been completed and water applied to beneficial use in accordance with South Dakota State Law. Pursuant to South Dakota Codified Law 46-5-30.1, the holder and/or owner of Water Right No. 6918-3 is issued a license, bearing a priority date of December 7, 2007 to appropriate 1.33 cubic feet of water per second from one well (Lower James:Missouri Aquifer) to irrigate 55 acres.

The diversion point is located: 1,300 feet north and 1,300 feet east of the SW corner of Section 27-T94N-R55W (approximate center of the SW 1/4). The acres authorized for irrigation are as follows:

Section 27-T94N-R55W	SE 1/4 SW 1/4	35 acres
	NE 1/4 SW 1/4	<u>20 acres</u>
	Total	55 acres

(3) This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Permit No. 6918-3 including the following qualifications:

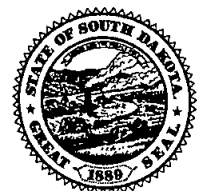

- The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
- The well authorized by Permit No. 6918-3 shall be constructed by a licensed well driller and construction of the well and installation of the pump shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
- Pursuant to SDCL 46-5-6 which allows a greater diversion rate if the method of irrigation, time constraints, or type of soils so require, Permit No. 6918-3 authorizes a maximum diversion rate of 1.33 cfs for the irrigation of 55 acres with an annual volume not to exceed 2 acre-feet of water per acre per year.
- This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

NOTICE

TO: KARL M SCHENK, 44352 308TH ST, MISSION HILL, SD 57046

FROM: Ron Duvall, Engineer III
for Eric Gronlund, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 2024 Irrigation Questionnaires

Our records indicate your 2024 Irrigation Questionnaires have not been submitted. The request for the Questionnaires was dated October 23, 2024. The Water Management Board has directed owners of water permits who have not submitted the 2024 Irrigation Questionnaires be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine if Permit No(s) 4506-3 should be amended to require the Questionnaire to be submitted each year and to determine action to be taken for violation of Water Permit No(s) 4855-3, 6838-3, 6839-3, 6917-3, 6918-3, 7017-3, 7667-3, 7668-3, 7670-3, 7819-3, 7842-3, 7939-3, 7955-3 & 8816-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held on **Wednesday, March 5, 2025, at 9:30 am (Central Time)** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 4855-3, 6838-3, 6839-3, 6917-3, 6918-3, 7017-3, 7667-3, 7668-3, 7670-3, 7819-3, 7842-3, 7939-3, 7955-3 & 8816-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Amend Permit No(s) 4506-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
3. Postpone any action or take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaires are received in this office before the **March 5, 2025**, hearing you will no longer be in violation of your permit and your name will be removed from the Board agenda. Enclosed are additional questionnaires for your use. If you have questions or need assistance, please contact Amanda Dewell at (605) 773-3352 or email at amanda.dewell@state.sd.us. **If you prefer, you can complete the questionnaire online at the following link: <https://danr.sd.gov/iq> using this password: **ESGTCO****

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Karl Schenk
44352 308th St
Mission Hill SD 57046

Dear Mr. Schenk:

I am writing to acknowledge the receipt of your 2024 irrigation questionnaire(s).

You may disregard the January 14, 2025, "Notice" concerning the reporting requirements for Water Permit No(s). 4506-3, 4855-3, 6838-3, 6839-3, 6917-3, 6918-3, 7017-3, 7667-3, 7668-3, 7670-3, 7819-3, 7842-3, 7939-3, 7955-3 & 8816-3. The information was received prior to the March 5, 2025, Water Management Board meeting and the above listed permit number(s) have been removed from the agenda. However, the 2024 reporting has not been completed for 8192-3, held by Stop Lock Drop Inc.

Please contact our office to report 2024 irrigation water use for Water Right No. 8192-3, prior to March 5, 2025.

If you have any questions or concerns, please contact me.

Sincerely,

Amanda Dewell
Permitting Administrator
