PIERRE, SOUTH DAKOTA

APPLICATION FOR PERMIT

To Appropriate Water within the State of South Dakota

RICHARD (NOTE—Draw a line through items not applicable.)1. Name of applicant Richard Renelt
Postoffice address Wilmet, County Roberts, State S. Dak.

I. If a corporation _____

(a) Name of same _____

(b) Date and place of incorporation _____

(c) Amount of capital stock _____

(d) Amount paid in _____

(e) Names and addresses of directors _____

(NOTE—A certified copy of articles of incorporation must accompany the application.)

II. Method of accomplishing the work and financial resources of the applicant:

(a) Method of accomplishing work (Whether by contract, employment of others, or by direct labor)

Contract(b) Cash on hand, \$ Adequate

(c) Treasury stock, \$ _____

(d) Bonds to be issued, \$ _____

(e) Other resources, \$ _____

2. Name of diversion work Renelt #13. Amount of water claimed 3 cubic feet per second4. Source of water supply Well5. Location of point of diversion 1585' W and 240' N of the E 1/4 corner
Sec. 7, T17N R. 49W on Roberts County.6. Annual period or periods during which water is to be used April to October, inclusive

7. To be used for:

1. Irrigation or domestic use: Gravity, overhead sprinkling or combination system? Overhead sprinkl(a) Number of acres to be irrigated 289 (289) acres.(b) Legal subdivisions to be irrigated E. 1/2 Sec. 7, T17N R. 49W Garfield
(NOTE—A list of lands to be irrigated, giving each subdivision and fraction with acreage thereof, should be written here, or may be appended as a part of this application. Same must also be shown on accompanying map.)

(c) Statement as to domestic use (giving location, etc.) _____

II. Stockwatering, mining, milling, power, fish culture, fire protection and public recreation:

(a) Nature of use _____
Name any of the above uses claimed

(b) Amount of power to be generated _____ horse power.

Amount claimed for engine cooling _____

(c) Location of plant _____

(d) Method of developing power _____

(e) Point where water will be returned to stream _____

Map No 535-3

8. Estimated cost of work:

(a) Head Gates, \$-----

(b) Pumping plant, \$-----

(c) Fluming, \$-----

(d) Canal-earth, \$-----

Rock, \$-----

(e) Other structures ----- \$760.00

Total, \$5850.00

9. Description of diversion works:

I. Nature of works: (Reservoir, dam, ditch, flume, pumping plant, etc.)

II. Dimensions of works:

(a) Dam: Height ----- feet; length at bottom ----- feet; length at top ----- feet; thickness at bottom ----- feet; thickness at top ----- feet; slope at front water face ----- slope at back face ----- material used in construction -----

(b) Reservoir: Capacity when filled ----- feet Surface ----- a. highwater mark ----- acres.

Number of permit 696-3

Date of first receipt of application February 27, 1960

Date of return to applicant for correction, amendments or changes required as follows: _____, 19____

Date of receipt of corrected application _____, 19____

Date from which applicant may claim right February 27, 1960

Approved April 6, 1960, Recorded in Book 6 Page 20

This is to certify that we have examined the foregoing application for a permit to appropriate water of the State of South Dakota, and we hereby grant the same as stated herein, subject, however, to the following limitations and conditions:

1st. The equivalent of at least one-fifth of the work above specified is to be completed on or before October 6, 1961

2nd. The whole of said work is to be completed on or before April 6, 1963

3rd. The limit of time for proof of beneficial use of water appropriated in accordance herewith is October 6, 1963

4th. The water appropriated shall be used for the purpose of irrigation

5th. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

6th. The amount of the appropriation herein granted shall not exceed 3.0 cubic feet per second; neither shall it exceed the capacity of the above described system of diversion works, nor the least amount of water that experience may hereafter indicate as necessary for the production of crops in the exercise of the best husbandry; and further, said appropriation must be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before October 6, 1963, said water to be used during the following described annual period:

April to October, inclusive

February 23, 1960

Boyd Jones-County Supervisor
Farmers Home Administration
Siasseton, South Dakota

Dear Boyd:

Was out of the office when your letter arrived, and just got back this morning.

Our records are pretty scanty as to the depth and amounts of water that could be obtained in Sec. 7, T 122 R 49. I would assume that he intends to get the water from shallow aquifers i.e. up to 150-200 feet, with the possibility that he would not have to go more than 50-60 feet. Our records show that an aquifer extends from the Whetstone River to the NE Corner of this section. From data we have, I believe this would be the best area.

Our records are not complete enough to give detailed information, and we generally advise the interested party to have test holes dug. They are not expensive, (75¢ to \$1.00 per foot, of which some is generally allowed on the production well), and will give you concrete information. The driller can tell you pretty close as to the amount of water the well will produce. Generally shallow waters are suitable for irrigation. We don't do any analysis here, but it can be obtained from S.D.S.C.

I'm afraid this isn't much help to you, but will send it along. If his land is in the flood plain of the Whetstone valley and the water bearing material is of glacial origin, I believe there is a good possibility that irrigation quantities could be developed from shallow wells.

Sincerely,

Burton F. Jones
Water Right Specialist

RJ:pp

March 7, 1960

Boyd Jones-County Supervisor
Farmers Home Administration
Sisseton, South Dakota

Dear Boyd:

Have the application from Alfred Renelt, and his forms shed some light on some of your questions?

His well is to be drilled to a depth of 110' and cased with 16" steel casing. The thickness of the water bearing sands and gravels is 60', which should give him a good producing well. He proposes to irrigate 289 acres and asks for 3 cfs (1350 GPM). It is rather doubtful if he will get that capacity, but will have sufficient water to develop much of his proposed project. Test pumping yielded 900 GPM with a 40' draw down.

Hope this will be of some help to you.

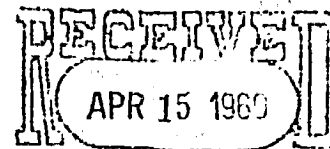

Sincerely,

Burton F. Jones
Water Right Specialist

STATE WATER RESOURCES COMM.
PIERRE SOUTH DAKOTA

File W. 6410-3
Wilmot
So. Dak
July 27 1960

Dear Sirs

I am writing to you,
because, my neighbor.
A. Reynolds^{Reynolds?} of Wilmot
So. Dak., Garfield Twp.,
has drilled a well for
irrigation purposes, with
a capacity of 1000 gal per minute.
Now this well is about $\frac{1}{2}$ mile
E. of my farm, and the first
day, that he irrigated
my well pumped dry
and I'm having trouble
getting enough water for
my own use, now I have
a good well, about the
same dept. as the Reynolds
well, it has never had
less than twenty feet of

II

Water at any time including
the drought years, in the 30's
so it would seem that the
Reynolds is taking it.
To day, I also was told
that Art Bohlen also a
neighbor, is having a water
shortage.

What can be done about
it, without hurting any one.
I made a call to our Soil -
and conservation office to day
and they advised me to
write to you at once.
Because, they said I'd
soon be out of water
altogether, so please
advise at once

Yours truly
John Tietjen

August 2, 1960

Alfred Renelt
Wilmot,
South Dakota

Dear Mr. Renelt:

We are in receipt of a letter from John Tietjen stating that your irrigation pumping has caused a lowering in the water level in his well to the point he has difficulty obtaining water.

Permit 696-3 which you hold was issued subject to non-interference with existing domestic water supplies. Our information on this area is scanty, so we have no way of determining how far the drawdown influence on your irrigation well extends.

Our suggestion is that you get together with Mr. Tietjen and see what arrangements you can make among yourselves. We will endeavor to get into that area before too long to make an investigation of these effects.

Sincerely,

BURTON F. JONES
Water Right Specialist

State Water Resources Commission
Pierre, S. Dake

Dear Sir, The letter of Aug 7, 1960 relating to John Tietjen on lowering the water level in his well. I have kept this under close observation. His position is not serious due to the fact he has a very poor well. He has a well 35 ft. 9 in deep on a bored well which depends on a very high level of water to supply it. I am a professional water utility and can get a lot of information by checking and observation of wells. Being drilled a lot of knowledge I have are proven facts.

Our supply in this region is by water veins and the aquifers are supplied by these veins. I am satisfied we have no large aquifers in this area. Because I have drilled to 186 ft for good drinking water in my yard which is $\frac{1}{2}$ mi. South of the irrigation well. And now find no evidence of them. There are the main feeder veins they have branches and holes even depths of water starting at 15 ft from the surface to approx 2000 ft. in depth from the surface. On Mr Tietjen's case a well 65 ft deep on the most depth from the south west he would have a good water supply. It would mean a new well. The question is do I have to stand the entire expense of a new well. He made the statement he was going to get a new well out of me. On these borderline wells how do we start with the State water commission. On his well he is just getting by. I have a bored well in my yard at present without pumping. It will accumulate 10 ft of water. Let the wind mill pump a half a tank 8 ft in dia. around stock tank and it will lower it to 7 ft 8 in. it would indicate that. Good to be very much.

Let me know what my obligations are to comply with the State water commission on this kind of a setup.

Yours truly

Alfred Remelt

Permit No. 696-3
 Water Division No. 3 WHITSTONE CREEK Water District

Certificate of Examination of Works

Report of Examining Engineer

To the State Water Resources Commission, Pierre, South Dakota:

Dear Sirs: I hereby certify that in accordance with your letter of authorization dated _____
 19____, I have this day made a thorough examination of the diversion works constructed by _____
ALFRED RENELT, of WILMOT
ROBERTS County, South Dakota, holder of Permit No. 696-3, Issued
 upon Application No. 6963, bearing date of priority of FEBRUARY 27, 1960 authorizing the
 diversion of 3 cu. ft. per second of the waters of GROUND WATER for IRRIGATION
 purposes. I have to report on the condition of the same as follows:

The diversion works comprise: 110' WELL WITH 16" STEEL CASING,
WITH FAIRBANKS MORSE 8" PUMP #1207703 POWERED
BY CHRYSLER INDUSTRIAL MOTOR #56, (SERIAL NO 8036)
RATED AT 90 HP @ 1760 RPM. SYSTEM INCLUDES
1160' of 8" ALUMINUM PIPE, 3030' of 6" PIPE & TWO
VERMEER BOOMS
 and the system is in the following condition: EXCELLENT

The point of diversion is located 1585' W & 240' N OF THE E 1/4 CORNER
SECTION 7, T122N R49W

The works are capable of diverting and conveying to the place of use 300 cu. ft. per second of water,
 which is to be used for IRRIGATION

The legal sub-divisions to be irrigated are: 289 ACRES IN THE E 1/2 OF
SECTION 7, T122N R49W

_____ comprising a total of 289 acres of land.
 The domestic use intended comprises _____

The utilization for power, mining, or other beneficial uses comprises: _____

Witness my hand, this 20TH day of FEBRUARY, A. D. 1963

June 8 1964

Dear Sir

I have before me a letter,
written by you, dated Aug 2, 1960
Regarding Alfred Penelt and his
irrigation pumping, and my
water,

you stated that you wanted
her in this area, before to long
and make an investigation.

but you didn't come.

well we got rain then.

and Penelt quit pumping.

and my water, got back to

normal in a couple months

well the rains continued

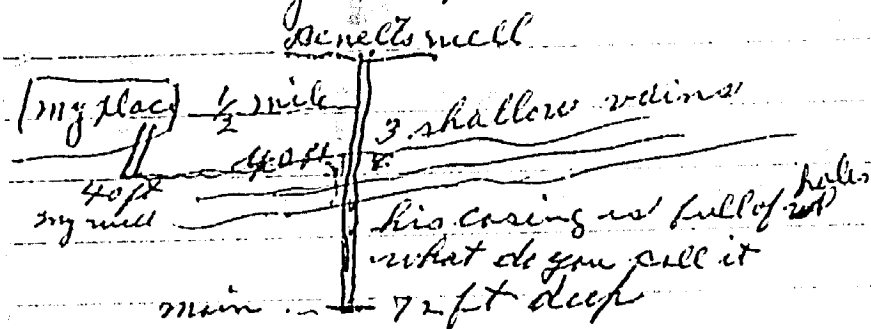

to now, so here starts

my trouble again, no rain

Penelt's pumps, day and night.

Sundays no exception
 well I talked to one of Renelt's
 boys the ~~other~~ other nite
 I told him to stop pumping
 for a while, as I was getting
 awfull low on water. His
 only remark, was, to bad
 and of course Alfred says all
 well around here, and Penadagade
 as you see. what I can do about
 it

Here's a diagram of his well

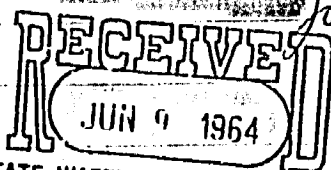

it seems to me that you

could make him stop
drawing water from the
shallow rivers,
now I don't want trouble.
I've got plenty now,
so I suggest, you do something
about it right now.

because if he don't stop
I'm going to be dry in a
few more days.
~~and I suppose we have to take~~
~~legal action~~

Yours truly

John Tietjen

STATE WATER RESOURCES COMM.
PIERRE, SOUTH DAKOTA

I Wilmet
S. D. D.
Water resource Commission Aug 11th
1976

Dear Sirs

In 1960 Penelt's pumped my
well dry, since then 1972
I dug a new well.

In this well I had 18 ft of
water, the well diggers
said Penelt's would not
hatter me, the last part
of June I measured the
water it was down to 12
ft. I measured again in July
it was down to 9 ft.

first part of Aug. down to 7 ft.
but that is not ^{all} why I am
writing

it seems it is having
bad effects, on the dug
it is getting awful hard,
when it drops in, sink it
gets brown, and it hard to
remove

II

but last week, my
garden hose plugged up.
What was it do you
suppose, it was a
water beetle, about 1 inch
long, the other 2 times it
was something with legs
but it was decomposed
so I couldn't tell, and the
water tastes like fish to me
I don't know if it is fit for
drinking ~~or~~ not.
This year Benelco
hasn't stopped pumping
for one day, and this
part of the country isn't
made for that type of
pumping, in a normal year, yes,
but a year like this, no

III

I would also like to say
that Penelt has not been
here to see me once, since
the time you were out here
and you told me, that
he had to check, with me
every day that he pumped,
so you can see that
our Penelt is just for
Penelt and no body else
so I would suggest, that
the water sources Commission
look this situation over
very careful, before
issuing Penelt a permit
for 1977, because if
things get worse there
might be trouble.

Yours truly
John Lichten

JOE FOSS BUILDING
523 EAST CAPITOL
PIERRE, SOUTH DAKOTA 57501-3181

NOTICE

TO: RICHARD RENELT, RR 2 BOX 134, WILMOT, SD 57279

FROM: Ron Duvall, Natural Resources Engineer
for John Hatch, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 1997 Irrigation Questionnaire(s)

Our records indicate that the 1997 Irrigation Questionnaire has not been submitted for Permit No(s) 696-3. The request for the Questionnaire was dated October 17, 1997. The Water Management Board has directed that owners of water permits who have not submitted the 1997 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning this issue.

The hearing will be held at 9:45 am, February 25, 1998, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit No(s) 696-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before February 20, 1998, your name will be deleted from the Board agenda. If you have any questions or need assistance with completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Is your RETURN ADDRESS completed on the reverse side?

SENDER:

- Complete items 1 and/or 2 for additional services.
- Complete items 3, 4a, and 4b.
- Print your name and address on the reverse of this form so that we can return this card to you.
- Attach this form to the front of the mailpiece, or on the back if space does not permit.
- Write "Return Receipt Requested" on the mailpiece below the article number.
- The Return Receipt will show to whom the article was delivered and the date delivered.

I also wish to receive the following services (for an extra fee):

1. ☐ Addressee's Address

Dear Mr. Renelt:

I am contacting you in regard to ownership of land described in Water Right No. 696-3. Your dad contacted us to find out what needed to be done with the water right since he no longer owned the land. Since you, Scott and Tim now own the land, it should be transferred to your names.

Enclosed is a partially completed Notice of Transfer of Ownership form for filing an ownership change. Please complete the form and return it to our office with a required filing fee of \$50.00. The check or money order for the fee can be made payable to the Water Rights Program.

I am including a copy of the water right for your records. If you have any questions, please give me a call.

Sincerely,

DEC - 9 2010

WATER RIGHTS
PROGRAM

NOTICE OF TRANSFER OF OWNERSHIP

To: Chief Engineer
Water Rights Program, DENR
523 E. Capitol
Pierre, SD 57501-3181

No. 696-3

Date: _____

I/We request that Water Right No. 696-3

formerly owned by: Richard Renelt

be transferred to: (name & address) Brian Renelt 46700 138th St

Wilmet SD 57279

Scott & Tim Renelt

Telephone No. 605-938-4189

(based on signatures at the bottom)

Title to the following described land(s)/property has been transferred as described above:

289 acres - E 1/2 Section 7, T122N, R49W

I/We understand that the validity of Water Right No. 696-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is required to cover the filing fees as required under SDCL 46-2-13. This form must be signed by the new owner.

I/We Brian Renelt, the new owner, certify that the above information is true and
Scott Renelt correct.
Tim J. Renelt

Brian Renelt
(Signed by new owner)

Tim J. Renelt Scott Renelt

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
