Number of permit 719-3
Date of first receipt of application May 31, 1960
Date of return to applicant for correction June 1, 1960
Date of receipt of corrected application June 10, 1960
Date from which applicant may claim right May 31, 1960
Approved August 3, 1960, Recorded in Book 6 Page 112

This is to certify that I have examined the foregoing application for a permit to appropriate
water of the State of South Dakota, and I hereby grant the same as stated herein, subject, however,
to the following limitations and conditions:

1st. The equivalent of at least one-fifth, of the work above specified is to be completed on or
before February 3, 1961

2nd. The whole of said work is to be completed on or before August 3, 1961

3rd. The limit of time for proof of beneficial use of water appropriated in accordance herewith
is August 3, 1961

4th. The water appropriated shall be used for the purpose of municipal needs
of the Ci of Sisseton

5th. The prior right of all persons who, by compliance with the laws of the State of South Da-
kota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

6th. The amount of the appropriation herein granted shall not exceed 3.0
cubic feet per second; neither shall it exceed the capacity of the above described system
of diversion works, nor the least amount of water that experience may hereafter indicate as neces-
sary for the production of crops in the exercise of the best husbandry; and further, said appropria-
tion must be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of
time for each acre of land to which water is actually and beneficially applied for irrigation on or
before August 3, 1961; said water to be used during the following described an-
nual period:

Continuously

WHEREAS, On the 31st day of May A. D. 1960
in the City of Sisseton

County of Roberts and State of South Dakota
duly made application (No. 719-3) to us for a permit to use 3.00
cubic feet per second of the waters of ground water
County of Roberts, State of South Dakota, for municipal
purposes; and

WHEREAS, On the 9th day of September A. D. 1960
Permit No. 719-3 was issued to said applicant for the diversion of said water, and providing for the
completion of the works of diversion therein described on or before the 3rd day of
August A. D. 1961 and for the application to beneficial use of said
water on or before the 3rd day of August A. D. 1961
and,

WHEREAS, On the 22nd day of April A. D. 1964
the holder of said permit duly made proof of the completion of adequate works for the diversion of 1.3
cubic feet per second of said waters, as evidenced by our Certificate No. 719-3
dated May 13, 1964 confirming the completion of works of sufficient capacity for
diverting and conveying to the place of intended use 1.3 cubic feet per second of water, with date of
priority of May 31, 1960 and,

WHEREAS, On the 22nd day of April A. D. 1964
proof was duly made of the application to beneficial use of 1.3 cubic feet per second of said water;
for municipal purposes in the City of Sisseton

NOW, THEREFORE, By the virtue of the authority vested in us by the laws of the State of South Dakota,
We hereby grant and confirm to the City of Sisseton

~~xxx~~ the holder and owner of said permit No. 719-3
a water right, dating from May 31, 1960 to the use of 1.3
cubic feet per second of the waters of ground water
in the County of Roberts and State of South Dakota, or so much thereof as may be
necessary for the purposes hereinbelow mentioned, to be diverted at Well #1 S77° 30'W, 2770 ft.; Well
#2 S73° 55'W, 2620 ft.; and Well #3 S46° 18'W, 2250 ft., all from the NE corner, Sec-
tion 36, T126N, R51W
and conducted to and ~~xxx~~ through the city water distribution system

for the purpose of municipal use

subject, however, to the laws of the State of South Dakota applicable to a license for the use of the waters of the
State, and subject, also to the local or community customs, rules and regulations which have been or may be
adopted from time to time by a majority of the users from a common source of supply, canal or lateral from
which such water may be taken, when such rules and regulations have for their object the economical use of such
water.

Certificate of Examination of Works

Report of Examining Engineer

To the State Water Resources Commission, Pierre, South Dakota:

Dear Sirs: I hereby certify that in accordance with your letter of authorization dated _____

I have this day made a thorough examination of the diversion works constructed by the
City of Sisseton, Roberts County, South Dakota, holder of Permit No. 719-3, issued
upon Application No. 719-3, bearing date of priority of May 31, 1960, authorizing the
diversion of 30 cu. ft. per second of the waters of ground water for municipal
purposes. I have to report on the condition of the same as follows:

The diversion works comprise: 3 Wells - #1 & #2, 57' deep #3, 63' deep.
Wells #1 & #2 Equipped w/ Deming Vertical Turbine 6" pumps,
T18823, Powered by U.S. Electric motor 20HP - #3 Equipped
w/ Layne-Bullock Pump 6", powered by 25HP U.S. Electric motor.
Pumped through approx 5 miles of 10" line, with 6" Aurora
pump used as booster about one mile from town
and the system is in the following condition: Excellent

The point of diversion is located Well #1 - 397° 30' W 2770' from the NE corner
Well #2 S 13° 55' W 2620' " " " " S 26° 17' 26" N,
Well #3 S 46° 1' W 2250' " " " " R 51 W.

The works are capable of diverting and conveying to the place of use 1.3 cu. ft. per second of water,
which is to be used for municipal purposes

The legal sub-divisions to be irrigated are: _____

_____ comprising a total of _____ acres of land.

The domestic use intended comprises _____

The utilization for power, mining, or other beneficial uses comprises: _____

Change of Diversion Point

NAME: City of Sisseton, c/o Kenny Cordie, Water Superintendent

ADDRESS: 513 Veterans Avenue, Sisseton SD 57262

DATE: June 29, 2007 **COUNTY:** Roberts County

BACKGROUND:

Water Right No. 719-3 appropriates 1.3 cfs from three wells completed into the Veblen Aquifer for municipal use with a priority date of May 31, 1960. Water Superintendent Kenny Cordie filed an application to change the location of the well designated by the city as well No. 1 and located in the NE ¼ NW ¼ Section 36, T126N, R51W. The application states the screen on the present well is bad and the city plans to replace it with a new well approximately 20 feet away.

AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased:

- **Developed water source same as permitted source and no additional water appropriated**

The wells authorized by Water Right No. 719-3 are completed into the Veblen Aquifer at a depth of approximately 60 feet. The city's request state the proposed new well will be 60 feet deep. Based on this information, the new well will be into the same water source.

No additional appropriation of water is requested. The water permit appropriates 1.3 cfs from three wells. This request is to replace existing well No. 1 instead of using the existing well which is failing. The combined diversion rate from the three wells may not exceed 1.3 cfs.

- **Review of Existing Diversions**

A review of existing water rights and the domestic well log database of neighboring sections was conducted.

With the exception of water rights held by the city, there are no water rights within a one mile radius of Section 36.

A search was also conducted of well completion report on file for domestic/stockwatering in the neighboring sections. There are ten domestic wells on file in the Water Rights Program database.

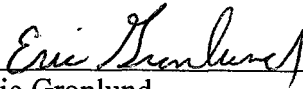

CONCLUSION

- This change in the location of the permitted well does not appropriate additional water.
- This is a replacement well which will be located approximately 20 feet from the existing well.

- The proposed new well will be constructed into the Veblen Aquifer which is the water source authorized by Water Right No. 719-3.
- Existing domestic wells will not be adversely impacted by authorizing this change in the location of the well.

RECOMMENDED ACTION

Based on the above criteria, it is recommended that the change of the diversion point be authorized.

Eric Gronlund
Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

This change of diversion point will not increase the potential for adverse effects to existing diversions.

Kenny Cordie, Water Superintendent
City of Sisseton
513 Veterans Avenue
Sisseton SD 57262

Dear Mr. Cordie:

I am writing in regard to the city's request to change the location of well No. 1 authorized by Water Right No. 719-3. This water right appropriates 1.3 cubic feet of water per second (580 gpm) from three wells completed into the Veblen Aquifer for municipal use. The city intends to replace well No. 1 located in the NE ¼ NW ¼ Section 36, T126N, R51W by constructing a new well approximately 20 feet away from the present well.

Upon review of the request and pursuant to SDCL 46-5-13.1, you are authorized to change the location of the well in the NE ¼ NW ¼ Section 36, T126N, R51W without application or publication of a notice of hearing pursuant to SDCL 46-2A-4. This authorization does not grant an increase in the 1.3 cfs diversion rate authorized from the three wells authorized by Water Right No. 719-3. If the three wells divert more than 1.3 cfs a new water right will need to be obtained. This request has been authorized under SDCL 46-5-13.1 for which there is no application filing fee.

The new well shall be valved and the flow reduced to the amount needed or to a minimum when not being used. The abandoned well must be plugged in accordance with well construction standards.

If you have any questions, please feel free to contact Eric Gronlund at (605) 773-3352.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program
