

WATER PERMIT NO. 8552-3

Name of Applicant: **WEB Water Development Association Inc**

Address: **38462 US Hwy 12, Aberdeen SD 57401**

Phone: **605 229-4749**

Amount of Water Claimed: **60,000 AF**

Total Acres: **NA**

Source of Water Supply: **Missouri River**

Water to be used for: **rural water system**

County: **Walworth**

Type of Waste Disposal System:

Location: **10 miles southeast of Mobridge**

PRIORITY

Date Received: **9-22-21**

Application/License Fee: **\$ 5,055**

Corrected Application Received:

Period of Annual Use: **January 1- December 31**

Remarks: **Future Use Reservation**

Diversion Point: **NW 1/4 NE 1/4 Sec 32-T123N-R78W**

Land to be Irrigated: **NA**

Depth of Well: **NA**

Well Driller:

Remarks:

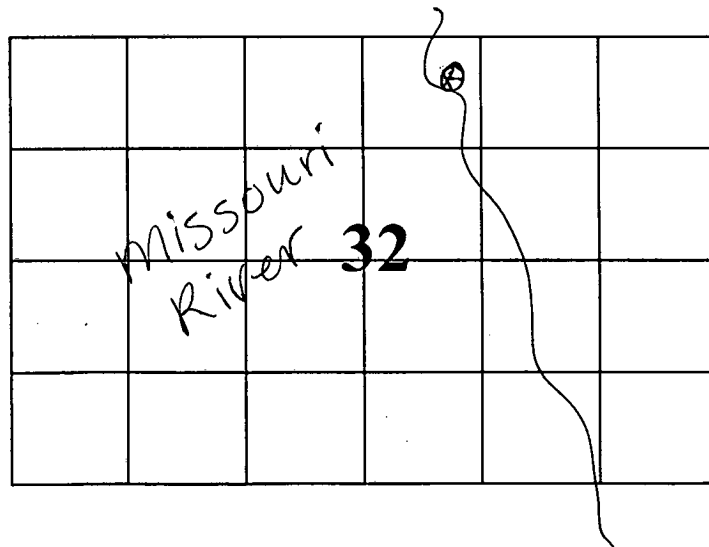

Type of Map: **aerial**

Notice of Hearing - date to intervene: _____

**SOUTH DAKOTA
FUTURE USE PERMIT NO. 8552-3**

Date of first receipt of application September 22, 2021.

Date of return to applicant for corrections, amendments or changes September 22, 2021.

Date of receipt of corrected application November 1, 2021.

The Chief Engineer, on behalf of the Water Management Board, issues Future Use Permit No. 8552-3 to WEB Water Development Association Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 subject to the following limitations, conditions and qualifications:

1. Future Use Permit No. 8552-3 reserves 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. WEB Water Development Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This permit does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.
2. The water appropriated shall be used for the purpose of future water supplies for rural water system use and may not exceed the amount of water needed for beneficial use.
3. The water is to be used during the following described annual period: January 1 – December 31.
4. The date from which applicant may claim right is September 22, 2021.
5. The date of approval of Future Use Permit No. 8552-3 is November 23, 2021.
6. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. Future Use Permit No. 8552-3 reserves 10,000 acre-feet of water annually from the natural flows of the Missouri River.
2. That Future Use Permit No. 8552-3 is approved with the stipulation that this Permit is subject to review by the Water Management Board as to accomplishment in developing reserved water upon expiration of seven (7) years. This Permit shall be subject to cancellation if the Water Management Board determines during the review that the holder cannot demonstrate a reasonable need for the Permit.
3. At such time as definite plans are made to construct works and put the water reserved by this permit to beneficial use, specific application for all or any part of the reserved water must be submitted prior to construction of facilities pursuant to SDCL 46-5-38.1.

penalty of perjury that I have read this application, examined the attached map, and that the matters stated are true. I further certify, if acting on behalf of an entity or individual other than myself, that I am authorized to submit this application.

Water Rights Application Report

Over the last 45 years WEB has demonstrated its ability to serve an increasing need for water in northeast South Dakota. WEB was originally envisioned as a three-county service area primarily focused on rural households and small municipalities. WEB was granted 10,000 acre feet of future use water rights in 1976 and was granted an additional 20,000 acre feet in 1977. WEB has now evolved into a system with over 8,200 individual meters in 17 counties serving 1,366 livestock services and 113 industrial/bulk users which include five ethanol plants and 36 municipalities. The map accompanying this report shows the large portion of South Dakota that the WEB system serves.

WEB will fully utilize the previously allocated 30,000 acre feet within the next several years with the following projects:

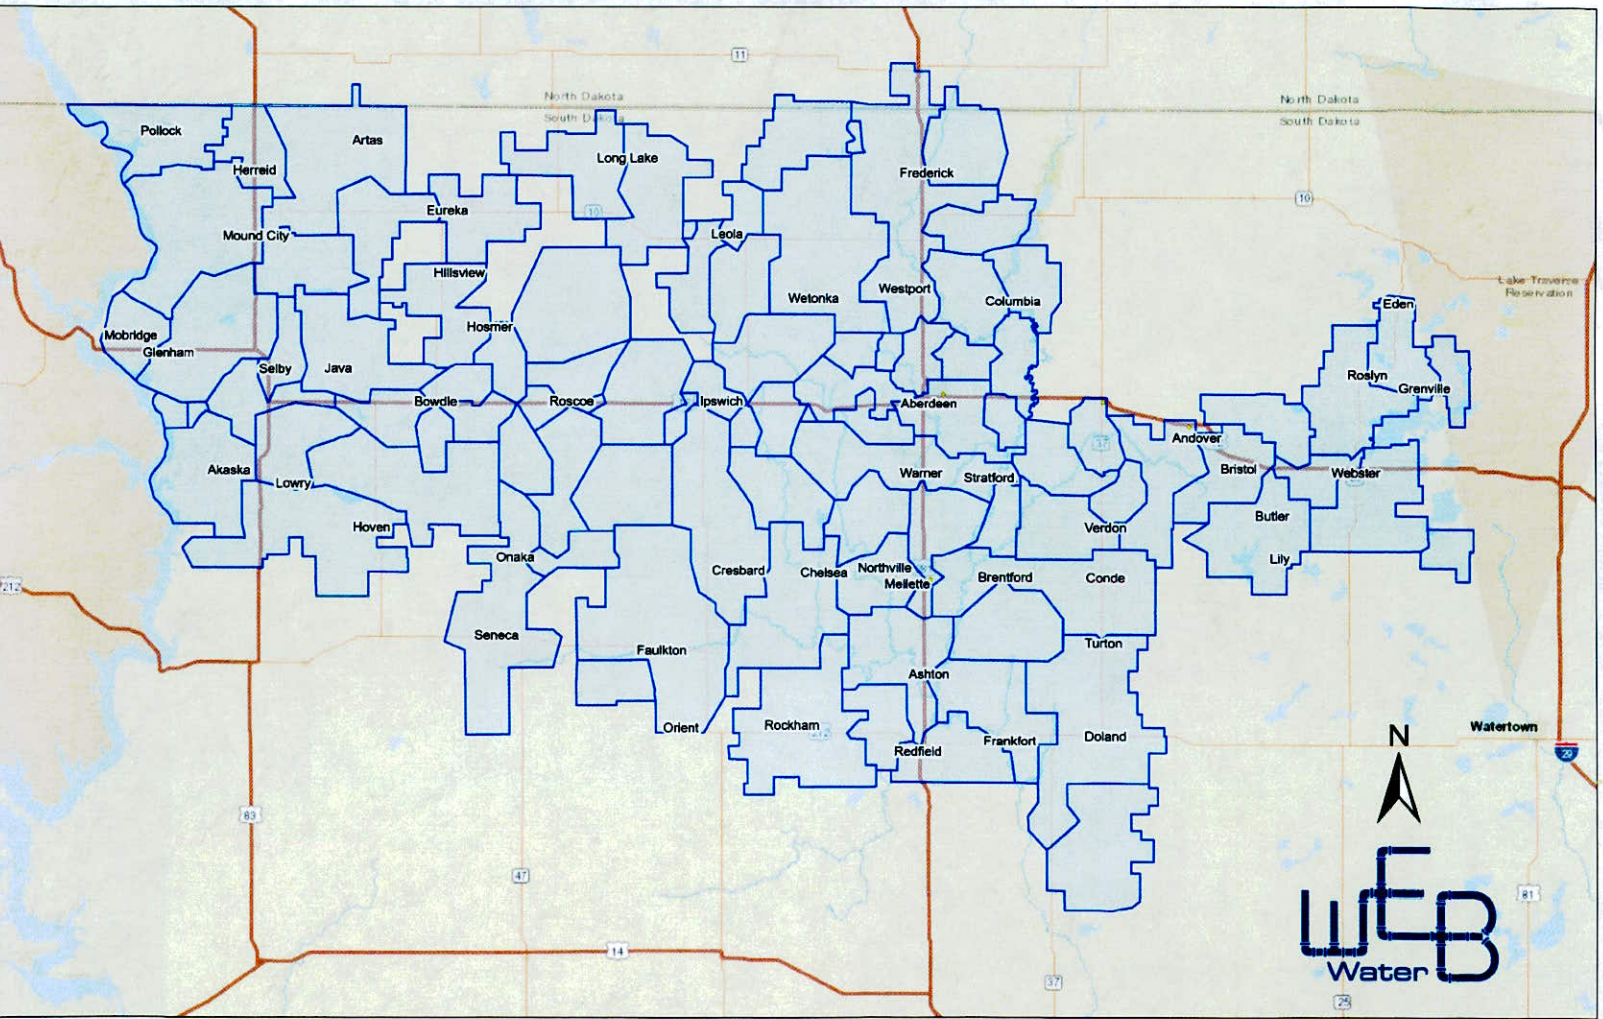

\$62,000,000 of additional system projects are in-progress:

- 13.5 miles of 30" parallel pipe from Intake at the Missouri River to the intersection of Highway 83 and Highway 12 south of Selby
- Two-million-gallon elevated storage tank
- Moratorium and low-capacity area improvements involving 120 miles of PVC pipe
- 8 new and upgraded booster stations throughout the system
- Water Treatment Plant Expansion from 11 MGD to 17 MGD
- Install new Intake Screen

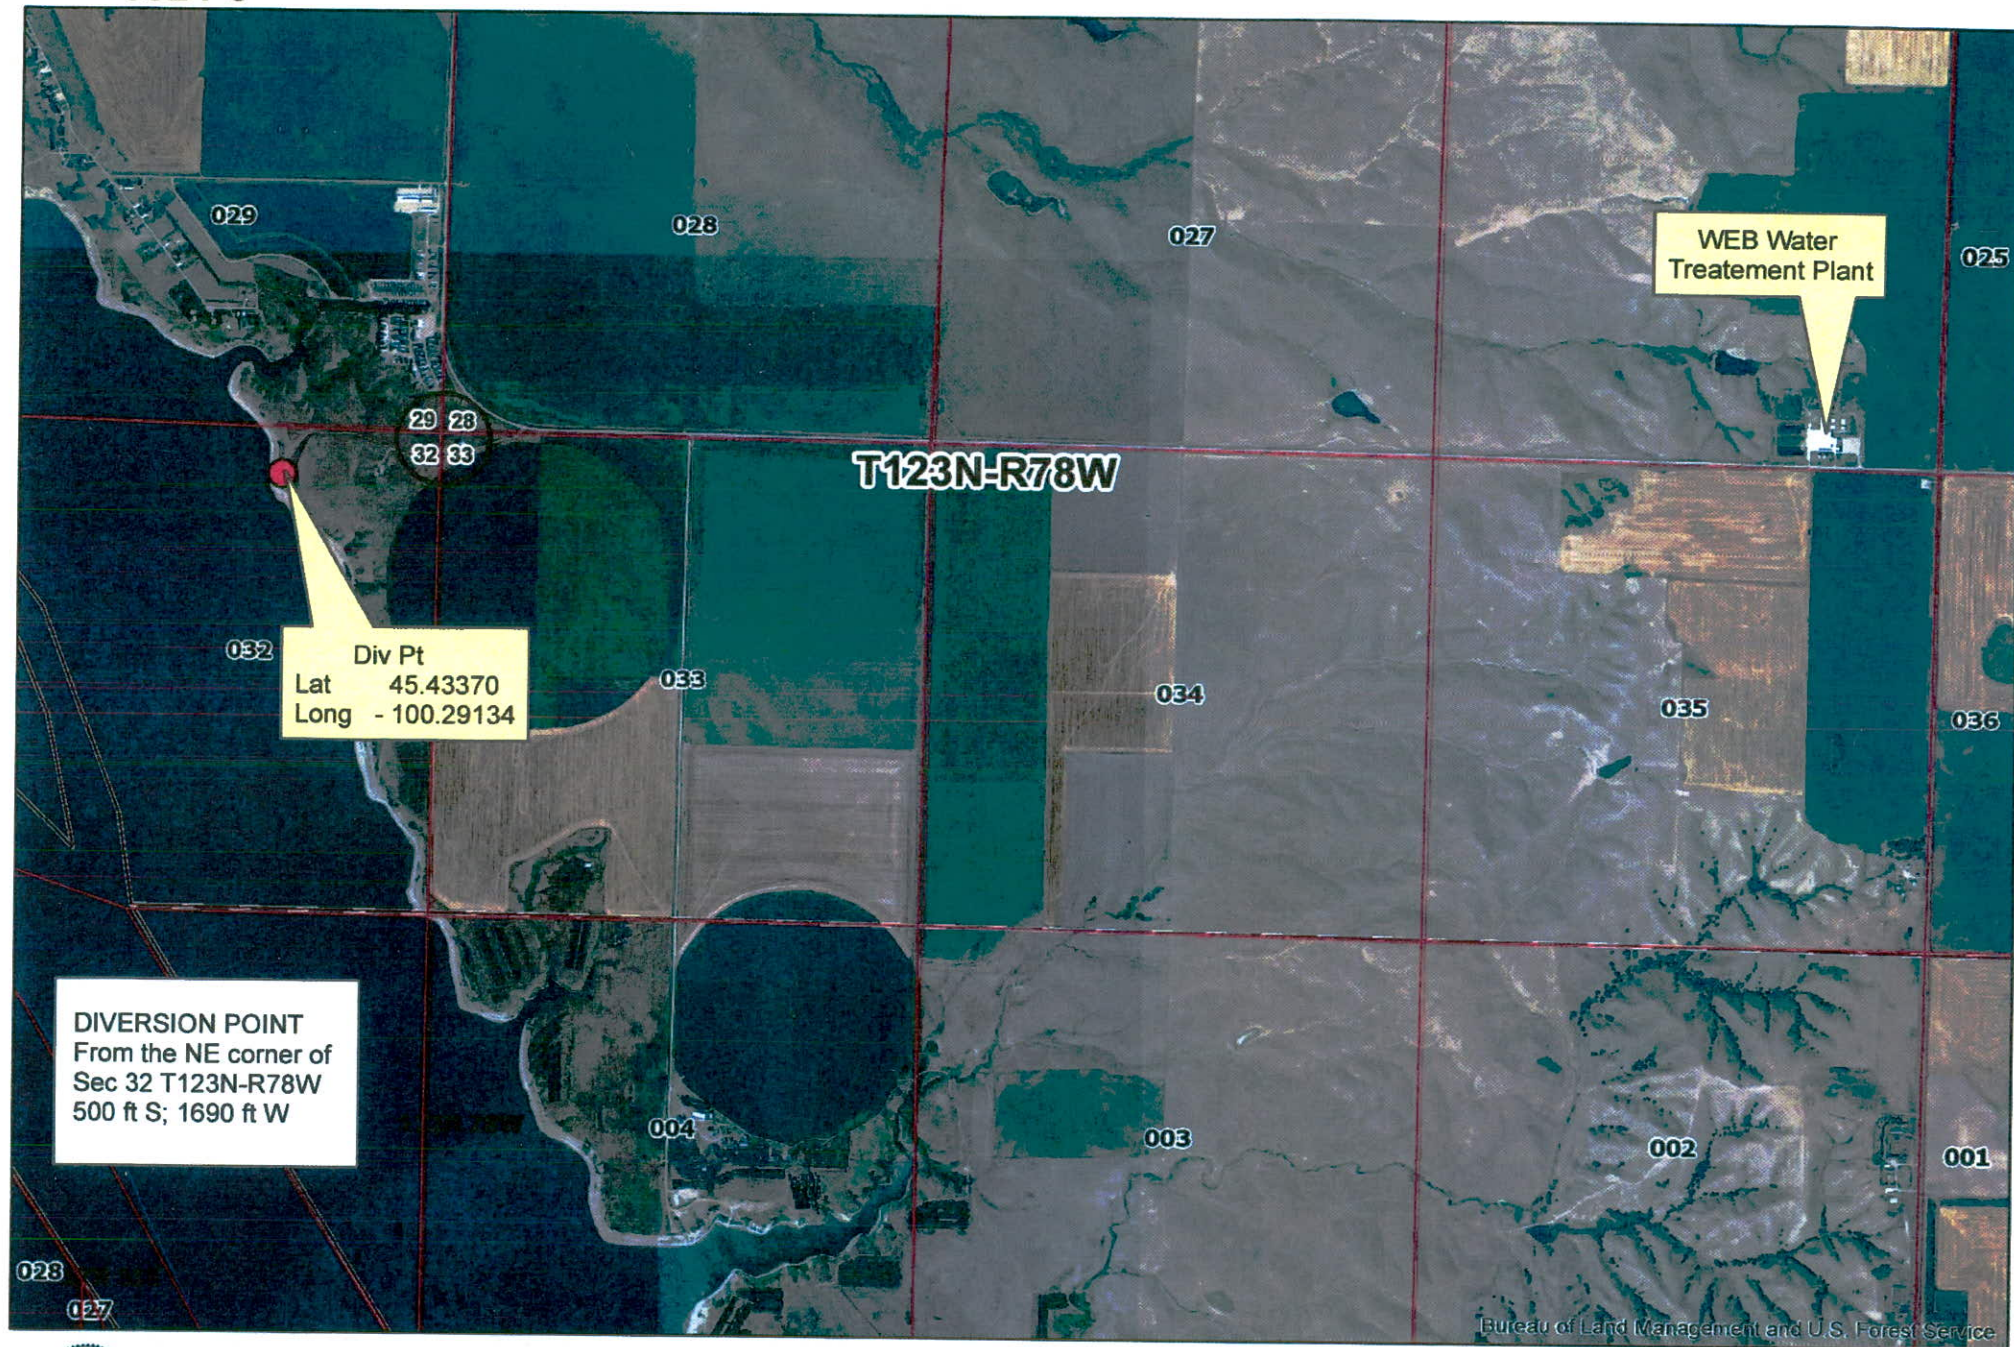

~\$200,000,000 for Essential Projects

- Second Intake
- Expand Water Treatment Plant to 26 million gallons per day
- 50 miles of additional Mainline pipe
- Construct additional storage
- Expand and upgrade distribution system

WEB expects the water needs of this region to more than double over the foreseeable future. As evidence of this, WEB has received numerous requests for water for rural residential, commercial, municipal, and industrial services that WEB is not currently able to fulfill. WEB has formally declined 47 bulk/industrial service requests totaling over 5,400,000 gallons per day (gpd). WEB has also declined 111 livestock service requests and 224 rural/farm service requests totaling 2,800,000 gpd. Cumulatively, this is over 8,200,000 gpd in declined service requests. For comparison, WEB's current maximum output is 11,000,000 gpd. These requests make clear that there is a current and ever-increasing need for additional water in WEB's service area. To serve these future needs, WEB intends to construct at least one and possibly two additional intakes in the Missouri River. These intakes would feed water to a new water treatment plant designed to treat the water requested in this permit. WEB would also plan to install the necessary additional mainline pipe to distribute this additional treated water throughout northeast South Dakota. WEB would also install the necessary lateral pipelines to serve additional regional needs and individual bulk and residential users. WEB will comply with all future application requirements to make specific use of this future use water right.

Dear Ms. Hammerich:

Thank you for submitting the *Application for a Permit to Appropriate Water* for a future use reservation from the Missouri River. To complete the application, the following is required.

- The filing fee for this future use application will be \$5,055.00.
- The application states a formal and complete report will be forthcoming. Do you have any indication on the time frame for completion of this report?

If you have any questions, please contact me.

Sincerely,

Karen Schlaak

**RECOMMENDATION OF CHIEF ENGINEER FOR FUTURE USE WATER PERMIT
APPLICATION NO. 8552-3, WEB Water Development Association, Inc.**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Agriculture and Natural Resources concerning Future Use Water Permit Application No. 8552-3, WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401.

The Chief Engineer is recommending APPROVAL of Application No. 8552-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) WEB Water Development Association, Inc. has demonstrated a reasonable need for the water reserved, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. Future Use Permit No. 8552-3 reserves 10,000 acre-feet of water annually from the natural flows of the Missouri River.
2. That Future Use Permit No. 8552-3 is approved with the stipulation that this Permit is subject to review by the Water Management Board as to accomplishment in developing reserved water upon expiration of seven (7) years. This Permit shall be subject to cancellation if the Water Management Board determines during the review that the holder cannot demonstrate a reasonable need for the Permit.
3. At such time as definite plans are made to construct works and put the water reserved by this permit to beneficial use, specific application for all or any part of the reserved water must be submitted prior to construction of facilities pursuant to SDCL 46-5-38.1.

See report on application for additional information.

Eric Gronlund, Chief Engineer
November 2, 2021

REPORT ON FUTURE USE PERMIT APPLICATION NO. 8552-3

WEB Water Development Association, Inc.

November 2, 2021

Future Use Permit Application No. 8552-3, proposes to appropriate and reserve for future use 10,000 acre-feet of water annually from the Missouri River with the diversion to be located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Development Association Inc. (WEB) serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

South Dakota Codified Law (SDCL) 46-2A-10 and 46-5-38.1 sets out the criteria and conditions under which a future use permit may be approved and Administrative Rule 74:02:01:24.01 defines the limits the Water Management Board may place on a future use permit. SDCL 46-2A-10 allows a future use permit to be approved only if 1) there is reasonable probability unappropriated water is available for appropriation; 2) the quantity of water reserved will be needed by the entity; 3) the proposed use will be a beneficial use; and 4) the proposed use is in the public interest. This report will address the first two criteria.

Review of the Proposed Water Source

The water source for this future use reservation is from the natural flow of the Missouri River flowing through Lake Oahe in the reach impounded behind Oahe Dam. The US Army Corps of Engineers constructed Oahe Dam impounding Lake Oahe in the 1950s and 1960's as a part of a six reservoir Pick-Sloan project for the Missouri River. The six project dams, Ft. Peck, Garrison, Oahe, Big Bend, Ft. Randall, and Gavins Point, are operated as a system providing storage and water releases for congressionally-authorized purposes, including irrigation. Specifically, Oahe Reservoir can impound up to 23.4 million acre-feet of water (MAF) when full. Natural flow in an instream reservoir system like the Missouri River mainstem system is the volume of water moving past a point along a river that is not augmented by artificial releases from the storage. When there is an excess of natural flow, the excess can be used to fill empty storage space in the instream reservoir and typically occurs during spring run-off. The natural flow of the Missouri River is available for appropriation without the need for releases from storage in the reservoirs to augment the natural flow.

The flow hydrograph of the Missouri River in South Dakota has been altered in the past 60 to 80 years due to the presence of the Missouri River mainstem reservoir system, with excess natural

flow going into storage and stored water released to supplement flows. The USGS, in a 2001 research study, made an estimation of the Missouri River natural flows at locations on the river at Oahe Dam and at Gavins Point Dam (Jacobson, 2001). A percentile hydrograph displaying the daily 50, 25 and 10 percentile flows corresponding to drier climatic conditions, can be derived from this study for the Missouri River at Oahe Dam (Figure 1). A percentile is a measure used in statistics to indicate the value below which a given percentage of observations in a group of observations fall, in this case daily flow. The Missouri River natural flow percentile hydrograph shows a double peak for the three percentile levels shown. The first March-April peak corresponds to the snowpack and spring rains runoff from plains of Montana, Wyoming, North Dakota and South Dakota. The second June peak corresponds to snowmelt runoff from the mountains in Wyoming and Montana and from upstream summer thunderstorms. Considering the 10th percentile hydrograph, corresponding to the daily flow values at or below this level on average one out of ten years, there is ample natural flow available (Jacobson, 2001).

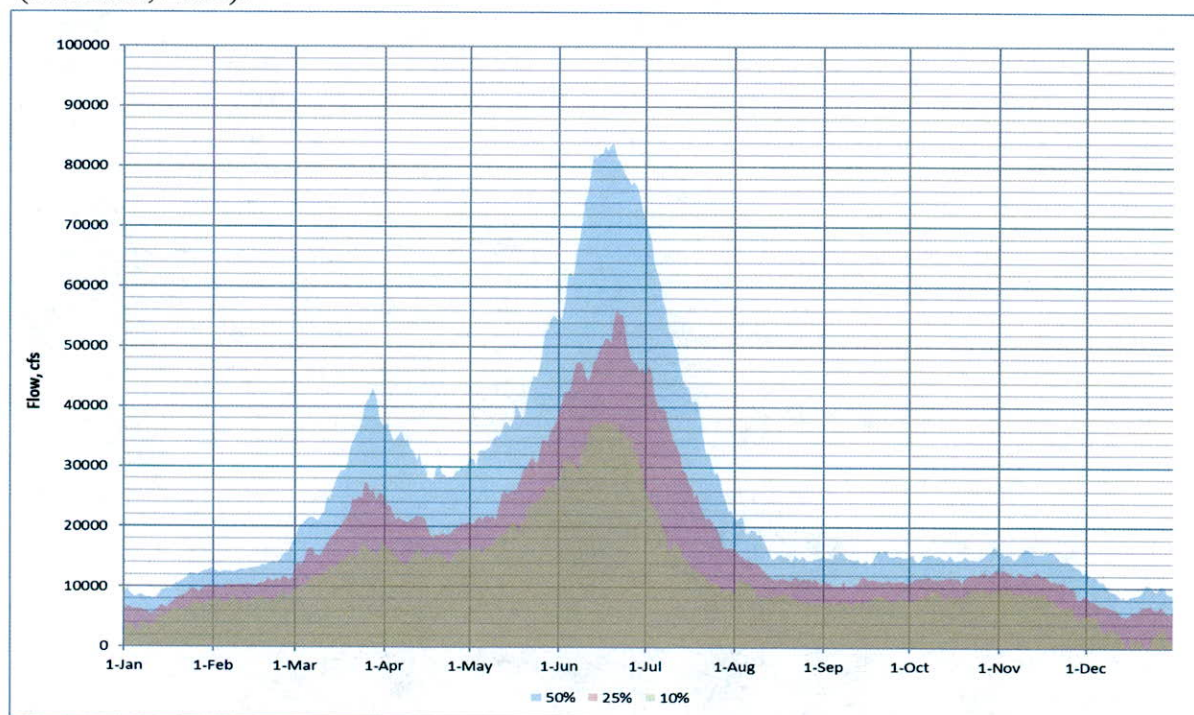

Figure 1. Natural Flow Hydrograph for the Missouri River at Oahe Dam (Jacobson, 2001).

Even at the 10th percentile flow level, this hydrograph demonstrates there is ample natural flow available, if this future use reservation is approved, throughout the year including the irrigation season of April through November. Water availability is not a concern when using the natural flows of the Missouri River as a source.

As noted earlier, the flow hydrograph of the Missouri River in South Dakota has been altered in the past 60 to 80 years due to the presence of the Missouri River mainstem reservoir system, with excess natural flow going into storage and stored water released to supplement flows. The USGS, in a 2001 research study, made an estimation of the Missouri River natural flows at locations on the river at Oahe Dam and at Gavins Point Dam (Jacobson et. al. 2001). A percentile hydrograph displaying the daily 50, 25, and 10 percentile flows corresponding to drier climatic conditions, can also be derived from this study for the Missouri River at a point near Gavins Point Dam (Figure 1). This natural flow percentile hydrograph shows a similar double peak for the three percentile levels shown. The first April peak corresponds to the snowpack and spring rains runoff from the plains of Montana, Wyoming, North Dakota and South Dakota. The second June peak corresponds to snowmelt runoff from the mountains in Wyoming and Montana and from upstream summer thunderstorms. Considering the 10th percentile hydrograph corresponding to the daily flow values at or below this level on average one out of ten years, there is ample natural flow available, if this project is approved. As Figure 2 demonstrates, existing water rights will not be adversely impacted by this future use reservation. Water availability is not a concern if diversion is developed under this reservation of water when using the natural flows of the Missouri River as a source (Jacobson, 2001).

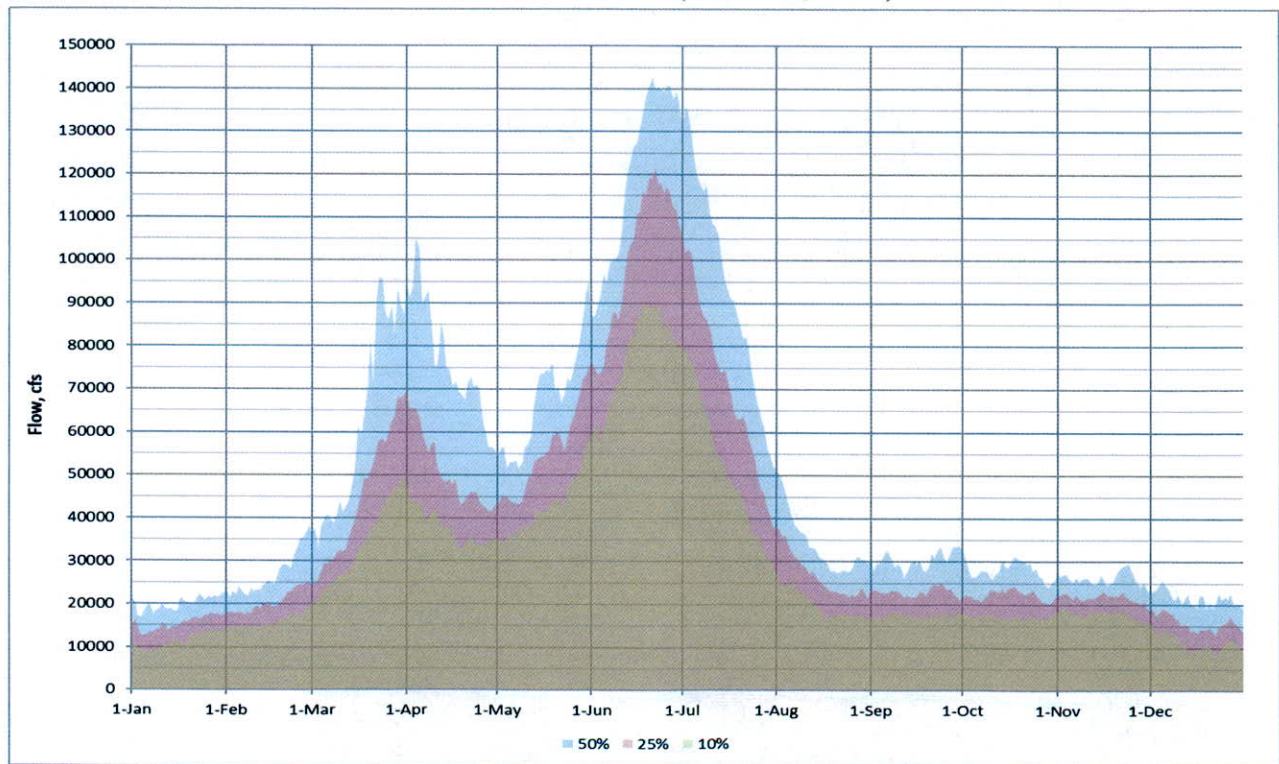

Figure 2 - Natural Flow Hydrograph for the Missouri River at Gavins Point Dam. (Jacobson, 2001)

Review of the Existing Water Rights

There are 255 existing water rights/permits appropriating water from the natural flows of the Missouri River in South Dakota with a total authorized appropriation of 1268.93 cubic feet of water (cfs) (Water Rights, 2021). Since water availability is not an issue, approval of this permit would not adversely affect these existing water rights. Currently there are 15 future use permits reserving 1,425,611 acre-feet annually from the Missouri River. Included in this tally, WEB currently holds Future Use Permit Nos. 2671-3 and 3429-3. Future Use Permit No. 2671-3, initially obtained by the Oahe Conservancy Subdistrict, was assigned to WEB in 1985 when the subdistrict was dissolved. This future use permit reserved 10,000 acre-feet annually from the Missouri River which has all been placed to beneficial use by WEB leaving no water in reserve under No. 2671-3. Future Use Permit No. 3429-3 was also initially held by the subdistrict reserving 20,000 acre-feet annually and then transferred to WEB. Water Permit No. 6824-3 placed 5,000 acre-feet annually to beneficial use leaving 15,000 acre-feet annually in reserve under No. 3429-3 (Water Rights, 2021).

Reported and Projected Water Use by WEB

As part of the application, WEB provided a summary of their current water use, short-term development plans for the water currently reserved under the existing future use permit, and future projected needs to justify this future use request. WEB currently has 8,200 individual meters in 17 counties serving 1,366 livestock services and 113 industrial/bulk users which include five ethanol plants and 36 municipalities.

WEB has \$62,000,000 of system upgrade/expansion in progress which includes burying 13.5 miles of 30" pipe, eight new and upgraded booster stations, constructing a two-million gallon elevated storage tank, improvements involving 120 miles of PVC pipe, installation of a new intake screen and a water treatment plant expansion from 11 MGD to 17 MGD. Approximately \$200,000,000 in projects WEB plans for the near future include adding a second intake, a water treatment plant expansion to 26 MGD, bury 50 miles of additional mainline pipe, construct additional storage, and expand and upgrade the distribution system. With the current and planned projects, WEB expects to exhaust the remaining 15,000 acre-feet annually of Missouri River water reserved under Future Use Permit No. 3429-3.

WEB expects water needs in the service region to more than double in the foreseeable future. WEB reported it has received numerous requests for rural residential, commercial, municipal, and industrial services it is currently unable to fulfill. WEB has had to decline up to 8.2 MGD in service requests. To serve these future needs, WEB intends to construct at least one and possibly two additional Missouri River intakes to feed a new water treatment plant. WEB would also install

additional mainline pipe, necessary lateral pipelines, and bulk and residential users to serve the additional regional needs.

Conclusions

1. The applicant proposes to reserve for future use of 10,000 acre-feet of water from the Missouri River.
2. The water source for the proposed future use reservation is natural flows of the Missouri River taken from a location in Walworth County.
3. Based upon a review of a USGS report analyzing the natural flow of the Missouri River, the review indicates a reasonable probability unappropriated water is available for reservation of water.
4. The applicant has demonstrated that in order for the WEB Water Development Association Inc. to meet projected future water needs, the WEB needs to secure additional water supplies from the Missouri River.

Mark D. Rath
Natural Resources Engineer III

NOTICE OF
APPLICATION NO. 8552-3
to Appropriate Water for
Future Use

Notice is given that WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use, 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff report are available at <https://danr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the public in general. The injury must concern a matter either within the regulatory authority found in SDCL 46-2A-9 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-9 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://danr.sd.gov/public> or by contacting the Chief Engineer. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol,

Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by November 23, 2021. The petition shall include a statement describing the unique injury upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at

<https://danr.sd.gov/public> or by calling (605) 773-3352 or writing the Chief Engineer at the address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by November 23, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

**NOTICE OF APPLICATION
NO. 8552-3 to Appropriate
Water for Future Use**

Notice is given that WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use, 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff report are available at <https://danr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the public in general. The injury must concern a matter either within the regulatory authority found in SDCL 46-2A-9 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-9 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://danr.sd.gov/public> or

by contacting the Chief Engineer. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by November 23, 2021.

The petition shall include a statement describing the unique injury upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at <https://danr.sd.gov/public> or by calling (605) 773-3352 or writing the Chief Engineer at the address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by November 23, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

WEB Water Development Association files application to appropriate water

NOTICE OF APPLICATION
NO. 8552-3 to Appropriate Water
for Future Use

Notice is given that WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use. 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff

report are available at <https://danr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the public in general. The injury must concern a matter either within the regulatory authority found in SDCL 46-2A-9 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-9 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://danr.sd.gov/public> or by contacting the Chief Engineer. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by December 13, 2021.

The petition shall include a statement describing the unique injury upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at <https://danr.sd.gov/public> or by calling (605) 773-3352 or writing the Chief Engineer at the address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by December 13, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

Application for water permit to appropriate, reserve for future use

NOTICE OF APPLICATION NO. 8552-3 to Appropriate Water for Future Use

Notice is given that WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use, 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff report are available at <https://danr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the public in general. The injury must concern a matter either within the regulatory authority found in SDCL 46-2A-9 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-9 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://danr.sd.gov/public> or by contacting the Chief Engineer. The Chief Engineer's address is: "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by December 7, 2021.

The petition shall include a statement describing the unique injury upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at <https://danr.sd.gov/public> or by calling (605) 773-3352 or writing the Chief Engineer at the

address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by December 7, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

Published November 27, 2021 at the total approximate cost of \$41.57.

Mobridge Tribune
Affidavit of Publication

STATE OF SOUTH DAKOTA

COUNTY OF WALWORTH

I, Lori Cox, having first duly sworn under oath say: The Mobridge Tribune is a legal weekly newspaper of general circulation as required by South Dakota Code of Nineteen Hundred Thirty-Nine, and any acts amendatory thereto, printed and published by the Mobridge Publishing, Inc., in Mobridge, in said county and state, and has been such legal newspaper during the time hereinafter mentioned; that during all of said time as an employee or officer of said newspaper I have had personal knowledge of the facts stated in this affidavit; that the advertisement headed:

WEB WaterDevelopment Association filing notice

WEB Water

a printed copy of which is hereto attached, was printed and published in said newspaper for 1 successive weeks upon the following dates, to-wit:

1- Mobridge Tribune: 11/10/2021

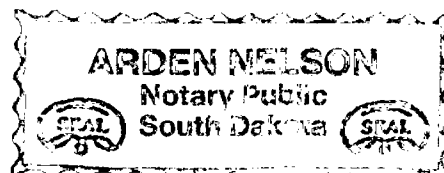

that the full amount of the fees charged for publishing the same to-wit: the sum of **\$42.94** inures solely to the benefit of the publishers of said newspaper; that no agreement or understanding for any division of this sum has been made with any other person; and that no part of said sum has been agreed to be paid to any person whomsoever.

PUBLIC NOTICE

NOTICE OF APPLICATION

NO. 8552-3

to Appropriate Water
for Future Use

Notice is given that WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use, 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff report are available at <https://danr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the public in general. The injury must concern a matter either within the regulatory authority found in SDCL 46-2A-9 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-9 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition

to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://danr.sd.gov/public> or by contacting the Chief Engineer. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by November 23, 2021.

The petition shall include a statement describing the unique injury

upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at <https://danr.sd.gov/public> or by calling (605) 773-3352 or writing the Chief Engineer at the address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by November 23, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

NOTICE OF APPLICATION NO. 8552-3 to Appropriate Water for Future Use

Notice is given that WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use, 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff report are available at <https://danr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the

public in general. The injury must concern a matter either within the regulatory authority found in SDCL 46-2A-9 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-9 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://danr.sd.gov/public> or by contacting the Chief Engineer. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by November 23, 2021.

The petition shall include a statement describing the unique injury upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at <https://danr.sd.gov/public> or by calling (605) 773-3352 or writing the Chief Engineer at the address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by November 23, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

NOTICE OF APPLICATION NO. 8552-3 to Appropriate Water for Future Use

Notice is given that WEB Water Development Association, Inc., c/o Angelo Hennrich, Manager, 38482 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Webster, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and DeWitt counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use, 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff report

are available at <https://denr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the public in general. The injury must concern a matter other within the regulatory authority found in SDCL 46-2A-6 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-6 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://denr.sd.gov/> public or by contacting the Chief Engineer. The Chief Engineer's address is "Water Rights Program, Faxs Building, 523 E Capitol, Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by November 23, 2021.

The petition shall include a statement

describing the unique injury upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at <https://denr.sd.gov/> public or by calling (605) 773-3352 or writing the Chief Engineer at the address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by November 23, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

WEB Water Development Association Inc.
Angie Hammrich, Manager
38462 US Hwy 12
Aberdeen SD 57401

Dear Ms. Hammrich:

Water Permit Application No. 8552-3 for future use have been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice has been sent to the following papers:

Mobridge Tribune	845-3646	Ipswich Tribune	426-6471
American News	225-4100	Prairie Pioneer	889-2320
Northwest Blade	284-2631	Potter County News	765-2464
Faulk County Record	598-6525	Highmore Herald	852-2927
Miller Press	853-3575	Redfield Press	472-0822
Plainsman	353-7414	Britton Journal	448-2281
Reporter & Farmer	345-3356	Clark County Courier	532-3654

You will need to contact the newspapers and authorize publication of this notice. For your information, a copy of the notice, the recommendation of the Chief Engineer and report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspapers to authorize publication of your Notice and to arrange for payment. Early contact with the papers can eliminate delays. Upon receiving authorization from you, the publishers have been instructed to publish your notice. The newspapers have also been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Karen Schlaak

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

The applicant is responsible for payment.

NOTICE OF APPLICATION NO. 8552-3 to Appropriate Water for Future Use

Notice is given that WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use, 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff report are available at <https://danr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the public in general. The injury must concern a matter either within the regulatory authority found in SDCL 46-2A-9 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-9 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://danr.sd.gov/public> or by contacting the Chief Engineer. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by November 23, 2021.

The petition shall include a statement describing the unique injury upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at <https://danr.sd.gov/public> or by calling (605) 773-3352 or writing the Chief Engineer at the address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by November 23, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

NOTICE OF APPLICATION NO. 8552-3 to Appropriate Water for Future Use

Notice is given that WEB Water Development Association, Inc., c/o Angie Hammrich, Manager, 38462 US Hwy 12, Aberdeen SD 57401 has filed an application for a water permit to appropriate and reserve for future use 10,000 acre-feet of water annually from the natural flow of the Missouri River located in the NW 1/4 NE 1/4 Section 32-T123N-R78W. The water is to be reserved for future water supplies for rural water system use. WEB Water Association Inc. serves users in Walworth, Edmunds, Brown, Campbell, McPherson, Potter, Faulk, Hyde, Hand, Spink, Beadle, Marshall, Day and Clark counties in South Dakota and Emmons, McIntosh and Dickey counties in North Dakota. This application does not authorize construction of works or application of water to beneficial use. The Missouri River diversion site is located approximately 10 miles southeast of Mobridge SD.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 8552-3 with qualifications because 1) there is reasonable probability that unappropriated water is available for the applicant's proposed use, 2) the quantity of water reserved will be needed, 3) it is a beneficial use of water, and 4) it is in the public interest. The Chief Engineer's recommendation with qualifications, the application, and staff report are available at <https://danr.sd.gov/public> or contact Ron Duvall for this information, or other information, at the Water Rights Program address provided below.

Any person interested in opposing this application or recommendation shall allege that the application, upon approval, will cause injury to the person that is unique from any injury suffered by the public in general. The injury must concern a matter either within the regulatory authority found in SDCL 46-2A-9 for approval or denial of the application, or other matter concerning the application within the regulatory authority of the board to act upon as defined by SDCL 46-2-9 and 46-2-11, or both. Any person meeting the petitioner requirements and wishing to be a party of record in a contested case hearing shall file a written petition to oppose the application with BOTH the applicant and Chief Engineer. A petition opposing the application shall be filed on a form provided by the Chief Engineer. The petition form is available online at <https://danr.sd.gov/public> or by contacting the Chief Engineer. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501" or call (605) 773-3352. The applicant's mailing address is given above. If contesting the Chief Engineer's recommendation, the applicant shall also file a petition. A petition filed by either an interested person or the applicant must be filed by December 20, 2021.

The petition shall include a statement describing the unique injury upon approval of the application on the petitioner, the petitioner's reasons for opposing the application, and the name and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained.

Any interested person may file a comment on the application with the Chief Engineer. The comment shall be filed on a form provided by the Chief Engineer and is available online at <https://danr.sd.gov/public> or by calling (605) 773-3352 or writing the Chief Engineer at the address provided above. Filing a comment does not make the commenter a party of record or a participant in any hearing that may be held. Any comment must be filed by December 20, 2021.

If the applicant does not contest the recommendation of the Chief Engineer and no petition to oppose the application is received, the Chief Engineer shall act on the application pursuant to the recommendation with no hearing held before the Water Management Board. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled, and the Water Management Board will consider this application. Notice of the hearing will be given to the applicant and any person filing a petition.

Pollock paper just called and said they have had on going computer issues and your notice didn't get published. I resent the notice to be published next week, December 9, 2021, with date for petitions December 20, 2021.

I guess it is a good thing this is a future use permit. By the time we get all the affidavits, you will be wanting to make application to withdraw from it. And the whole fiasco will start again 😊

WEB Water Development Association Inc.
Angie Hammerich, General Mgr
38462 US Hwy 12
Aberdeen SD 57401

Dear Ms. Hammerich:

Enclosed is Water Permit No. 8552-3 authorizing construction of the water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

An application/license filing fee of \$5,055.00 was submitted with the application. Since the application was amended and requested a smaller acre-feet amount, the correct fee is \$895.00. \$4,160.00 will be refunded to WEB. The refund check should be received within the next couple of weeks.

Form 10, *Notice of Completion of Works and Application of Water to Beneficial Use*, is enclosed. Please return this completed form after you have finished the system and have put the water to beneficial use. An investigation can then be scheduled so the water license may be issued, thus completing the acquisition of a water right.

An informational sheet *Common Water Right Questions?* is also enclosed. This sheet is intended to answer some of the questions associated with obtaining and keeping a water right.

Sincerely,

Eric Gronlund, Chief Engineer
Water Rights Program
