Dear Mr. Schenk:

Thank you for taking the time to visit with me concerning the necessary ownership changes for Water Right No. 977-3 held by Berwyn Svoboda. Mr. Svoboda notified us that he had sold the land described in the water right to you and to Mike Issacson.

Enclosed is a copy of the water right which includes the map showing the location of the wells and Vermillion River diversion point. Based on the information I have, I wrote notes on the front page of the copies showing the way the water right will be divided and reissued. If you see anything that needs changed, please feel free to make the corrections and then send a copy back to me so we can discuss the changes. It has been years since our staff was out to that area. Over time, the acres irrigated, diversion rates and the locations of the wells may have changed. It is possible that you and/or Mr. Issacson will need to make an application for additional wells or a change in acreage. Prior to dividing the water right, we will also need to know which diversion points each of you use.

Enclosed is a partially completed Notice of Transfer of Ownership form for filing an ownership change. Please review the form and make any necessary corrections. Upon completion, please sign the form and return it to our office with a required filing fee of \$2.50. The check or money order for the fee can be made payable to the Water Rights Program.

I have also included another irrigation questionnaire for No. 977-3. Please complete the form with any irrigation you may have done in 2008 for the land you own. I will also send a duplicate one to Mr. Issacson to report his irrigation.

Thank you in advance for your help in updating the water right. If you have any questions, please contact me.

Dear Mr. Schenk:

Enclosed is your Reissued Water License No. 977A-3. The originating water right has been divided and reissued to reflect separate ownership. Also enclosed is Receipt No. 04356 in the amount of \$50.00 which you paid for filing the ownership change.

The acreage described on the reissued licenses was based on the ownership changes filed by both you and Mr. Isaacson. The diversion point locations for the Vermillion River and the two wells are described on both licenses. With respect to the Vermillion River, it is our understanding that the river may no longer be used. If this is the case, please send us something in writing to that affect and we will schedule that portion of the water right for cancellation.

With respect to the two wells described in the license, they appear to be on land owned by Mike Isaacson. It is our understanding that additional wells have been drilled. If so, this will require filing an application to change the location or add wells to the existing license and requesting additional appropriation if more than 3.64 cfs is being diverted.

The division of Water Right No. 977-3 and subsequent reissued licenses were done due to ownership changes. Legal status of the water right is dependent on the history of water use and a formal decision on water right status can only be made by the Water Management Board. If you have any questions, please contact our office.

Dear Mr. Heine:

The irrigation season is in full swing. This has led to the Department of Agriculture and Natural Resources (DANR) fielding inquiries regarding end gun overspray on to roads.

DANR received information alleging several irrigation systems had irrigation water from the end gun hitting the road. The attached sheet shows the locations. All of these locations involve irrigation permits held in your name.

It is common for center pivots to have stops which can be engaged to shut off the operation of the end gun when the pivot nears a road. Please take steps to ensure end gun stops are functioning properly so there is not direct overspray on to the road.

A water right holder is not allowed to operate an irrigation system in violation of state water law, which includes end gun overspray upon land not authorized by the water right. Continued overspray can result in DANR taking enforcement action.

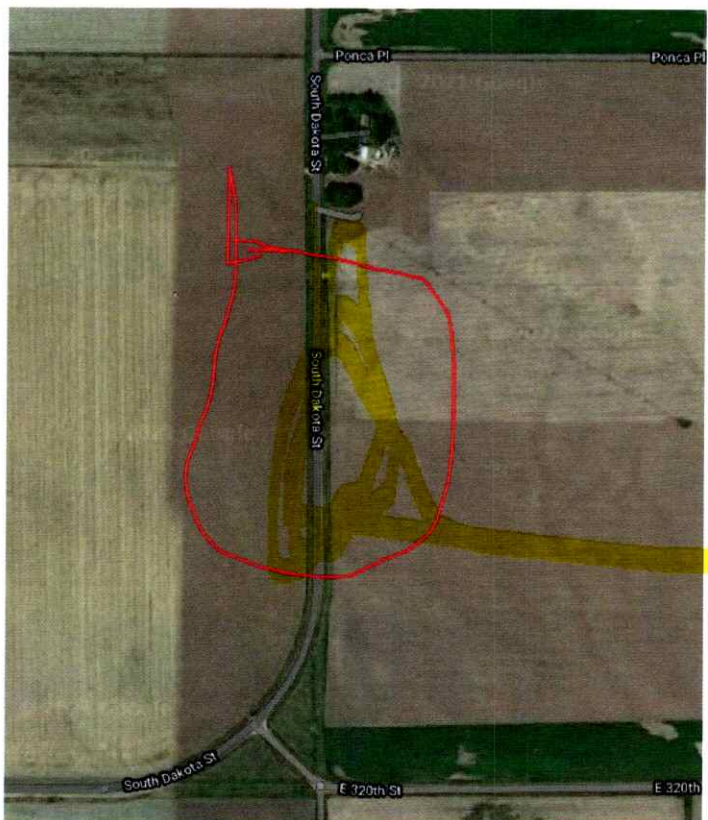

If you don't believe your irrigation system is causing the overspray, or if you have any questions, please contact me at (605) 773-3352 or by email at ron.duvall@state.sd.us

Thank you for your cooperation,
